Nothing Happened Susan A. Crane, 2021-01-19 The past is what happened History is what we remember and write about that past the narratives we craft to make sense out of our memories and their sources But what does it mean to look at the past and to remember that nothing happened Why might we feel as if nothing is the way it was This book transforms these utterly ordinary observations and redefines Nothing as something we have known and can remember Nothing has been a catch all term for everything that is supposedly uninteresting or is just

not there It will take some possibly considerable mental adjustment before we can see Nothing as Susan A Crane does here with a capital n But Nothing has actually been happening all along As Crane shows in her witty and provocative discussion Nothing is nothing less than fascinating When Nothing has changed but we think that it should have we might call that injustice when Nothing has happened over a long slow period of time we might call that boring Justice and boredom have histories So too does being relieved or disappointed when Nothing happens for instance when a forecasted end of the world does not occur and millennial movements have to regroup By paying attention to how we understand Nothing to be happening in the present what it means to know Nothing or to do Nothing we can begin to ask how those experiences will be remembered Susan A Crane moves effortlessly between different modes of seeing Nothing drawing on visual analysis and cultural studies to suggest a new way of thinking about history By remembering how Nothing happened or how Nothing is the way it was or how Nothing has changed we can recover histories that were there all along The Old Changi Hospital (Singapore) Patrick Gunn, 2025-09-04 Discover the haunting history of the Old Changi Hospital a site where Singapore s colonial past and wartime trauma come alive This book explores the hospital s architecture its role during World War II and the dark legends that have made it one of Singapore s most haunted locations It delves into stories of ghostly encounters urban exploration and the impact of colonial medicine blending history architecture and paranormal tales Ideal for readers interested in dark tourism history and supernatural mysteries the book offers a compelling look at how a once vital medical facility transformed into a symbol of resilience and ghostly legends With vivid descriptions and historical insights it reveals the complex narratives behind this abandoned site its significance in Singapore s history and its allure as a haunted landmark An intriguing read for anyone curious about the thin line between history and the supernatural **Anthropology of Tourism in Central and Eastern Europe** Sabina Owsianowska, Magdalena Banaszekiewicz, 2018-04-11 In Anthropology of Tourism in Central and Eastern Europe Bridging Worlds Sabina Owsianowska and Magdalena Banaszekiewicz examine the limitations of the anthropological study of tourism which stem from both the domination of researchers representing the Anglophone circle as well as the current state of tourism studies in Central and Eastern Europe This edited collection contributes to the wider discussion of the geopolitics of knowledge through its focus on the anthropological background of tourism studies and its inclusion of contributors from Austria Bulgaria Estonia and Poland *Authentizität und industriekulturelles Erbe* Michael Farrenkopf, Torsten Meyer, 2020-09-21 Der konomische und soziale Strukturwandel der Industriegesellschaft findet seine kulturellen Entsprechungen in der post industriellen Landschaftsreparatur und in der Musealisierung industrieller Hinterlassenschaft Strategien der In Wert Setzung des industriekulturellen Erbes lie en neue Orte und Landschaften der Erinnerung entstehen die zentrale Ankerpunkte regionaler post industrieller Identit ten sind Dabei erscheint das Argument des Authentischen essentiell f r die In Wert Setzungs Prozesse des industriekulturellen Erbes Aus unterschiedlichen Perspektiven thematisieren die Beitr ge des Bandes diese Zusammenh nge Sie historisieren zugleich

einer fortschreitenden Urbanisierung und der ungeheuren Erfolgsgeschichte der Siedlungsform Stadt wird selten die paradoxe Kehrseite dieser Geschichte in den Blick genommen. Seit 5000 Jahren steht der Entstehung von Städten ihr Untergang gegenüber. Verlassene Städte sind ein geradezu allgegenwärtiges Phänomen aller Zeiten und Regionen. Die in den Band versammelten Aufsätze unterschiedlicher Disziplinen beschreiben wie von der Antike bis in die aktuelle Zeitgeschichte Stadtruinen wahrgenommen wurden. Ihre Interpretation, Instrumentalisierung und symbolische wie inhaltliche Aufladung verrät sehr viel über die Kulturen, in denen diese Prozesse zu beobachten sind. In einem faszinierenden Spektrum, das vom antiken Nahen Osten, Kleinasien und Italien über das präkolumbianische Nordamerika und Europa des 19. Jahrhunderts bis in den heutigen Oman, Palästina, die Mongolei, die USA oder nach Osteuropa reicht, wird die vielfältige Deutung von Ruinen und ihre Rolle in politischen, kulturellen und sozialen Verständigungen und Kontroversen thematisiert. Verlassene Städte erweisen sich auf diese Weise als ein zentrales und äußerst fruchtbares Thema der Kultur-, Kunst- und politischen Geschichte.
