Women and Democracy in Cold War Japan Jan Bardsley, 2014-06-19 Women and Democracy in Cold War Japan offers a fresh perspective on gender politics by focusing on the Japanese housewife of the 1950s as a controversial representation of democracy leisure and domesticity Examining the shifting personae of the housewife especially in the appealing texts of women s magazines reveals the diverse possibilities of postwar democracy as they were embedded in media directed toward Japanese women Each chapter explores the contours of a single controversy including debate over the royal wedding in 1959 the victory of Japan s first Miss Universe and the unruly desires of postwar women Jan Bardsley also takes a comparative look at the ways in which the Japanese housewife is measured against equally stereotyped notions of the modern housewife in the United States asking how both function as narratives of Japan U S relations and gender class containment during the early Cold War

Bad Girls of the Arab World Nadia Yaqub, Rula Quawas, 2017-09-27 Women s transgressive behaviors and perspectives are challenging societal norms in the Arab world giving rise to anxiety and public debate Simultaneously however other Arab women are unwillingly finding themselves labeled bad as authority figures attempt to redirect scrutiny from serious social ills such as patriarchy and economic exploitation or as they impose new restrictions on women s behavior in response to uncertainty and change in society Bad Girls of the Arab World elucidates how both intentional and unintentional transgressions make manifest the social and cultural constructs that define proper and improper behavior as well as the social and political policing of gender racial and class divisions The works collected here address the experiences of women from a range of ages classes and educational backgrounds who live in the Arab world and beyond They include short pieces in which the women themselves reflect on their experiences with transgression academic articles about performance representation activism history and

social conditions an artistic intervention and afterwords by the acclaimed novelists Laila al Atrash and Miral al Tahawy The book demonstrates that women s transgression is both an agent and a symptom of change a site of both resistance and repression Showing how transnational forces such as media discourses mobility and confinement globalization and neoliberalism as well as the legacy of colonialism shape women s badness *Bad Girls of the Arab World* offers a rich portrait of women s varied experiences at the boundaries of propriety in the twenty first century **Creating the Nisei Market** Shiho Imai,2010-08-11 In 1922 the U S Supreme Court declared Japanese immigrants ineligible for American citizenship because they were not white dismissing the plaintiff s appeal to skin tone Unable to claim whiteness through naturalization laws Japanese Americans in Hawai i developed their own racial currency to secure a prominent place in the Island s postwar social hierarchy *Creating the Nisei Market* explores how different groups within Japanese American society in particular the press and merchants staked a claim to whiteness on the basis of hue and culture Using Japanese and English language sources from the interwar years it demonstrates how the meaning of whiteness evolved from mere physical distinctions to cultural markers of difference increasingly articulated in material terms Nisei consumer culture demands examination because consumption was vital to the privilege making process that spilled over into public life Although economically motivated Japanese American shopkeepers worked hard to support the next generation of merchants and secure the future of the Nisei consumer market Far from its image as a static society the Japanese American community was constantly reinventing itself to meet changing consumer demands and social expectations The author builds on recent scholarship that considers ethnic communities within a trans Pacific context highlighting ethnic fluidity as a strategy for material and cultural success Yet even as it assumed a position of conformity the Japanese American consumer culture that took hold among Honolulu s middle class was distinct It was at once modern and nostalgic like the wayo secchu ideal a hybrid of Western and Japanese notions of beauty and femininity that linked the ethnic group to the homeland and mainstream U S culture By focusing on the marketing of whiteness that connected the old world and new *Creating the Nisei Market* reveals the dynamic commercial and cultural environment that underwrote the rise of the Nisei in Hawai i *Regimes of Desire* Thomas Baudinette,2021-11-17 Explores the limitations of sexual expression in Tokyo s safe nightlife district and in Japanese media *Occult Hunting and Supernatural Play in Japan* Laura Miller,2024-08-31 In Japan today women are the primary drivers of religious re enchantment and they are exerting pressure on shrines temples and media industries to accommodate their interests and aesthetic tastes Employing a semantically broad meaning of occult to include the mysterious or supernatural Laura Miller examines how it manifests to offer avenues of self exploration and spiritual capital that fundamentally appeal to women Female seekers have had a major impact on the fashioning and marketing of spiritual sites texts and objects often through encoding the kawaii or cute aesthetic Miller makes the case that the gendered nature of occult hunting has been neglected in research and that greater attention to gendered perspectives reveals significant facets of sociality and recreation Written

from an interdisciplinary cultural studies perspective Occult Hunting and Supernatural Play in Japan interlaces history art literature religion media studies and anthropology to explore ubiquitous yet understudied activities such as having one's fortune told visiting powerspots locations thought to hold exceptional supernatural energy and playing with new types of tarot decks Book chapters also focus on material religion including objects like good luck amulets and votive plaques Taoist paper talismans pilgrim stamps and ancient curved beads called magatama Tracing their histories and transformations Miller insists that these forms of visual and material religion and their related activities are neither trivial nor simply commercial gambits Rather they provide insights into the realms of creative exploration pleasure and spiritual development in the lives of girls and young women

Chinese Masculinities in a Globalizing World Kam Louie,2014-11-20 This book explores how the traditional ideal of Chinese manhood the wen cultural attainment and wu martial prowess dyad has been transformed by the increasing integration of China in the international scene It discusses how increased travel and contact between China and the West are having a profound impact showing how increased interchange with Western men for whom wu is a more significant ideal has shifted the balance in the classic Chinese dichotomy and how the huge emphasis on wealth creation in contemporary China has changed the notion of wen itself to include business management skills and monetary power The book also considers the implications of Chinese soft power outside China for the reconfigurations in masculinity ideals in the global setting The rising significance of Chinese culture enables Chinese cultural norms including ideals of manhood to be increasingly integrated in the international sphere and to become hybridised The book also examines the impact of the Japanese and Korean waves on popular conceptions of desirable manhood in China Overall it demonstrates that social constructions of Chinese masculinity have changed more fundamentally and become more global in the last three decades than any other time in the last three thousand years

Modern Girls on the Go Alisa Freedman,Laura Miller,Christine R. Yano,2013-04-17 This spirited and engaging multidisciplinary volume pins its focus on

the lived experiences and cultural depictions of women's mobility and labor in Japan. The theme of modern girls continues to offer a captivating window into the changes that women's roles have undergone during the course of the last century. Here we encounter Japanese women inhabiting the most modern of spaces in newly created professions moving upward and outward claiming the public life as their own: shop girls, elevator girls, dance hall dancers, tour bus guides, airline stewardesses, international beauty queens, overseas teachers, corporate soccer players, and even female members of the Self Defense Forces. Directly linking gender, mobility and labor in 20th and 21st century Japan, this collection brings to life the ways in which these modern girls historically and contemporaneously have influenced social roles, patterns of daily life and Japan's global image. It is an ideal guidebook for students, scholars and general readers alike.

Fashion, Identity, and Power in Modern Asia

Kyunghee Pyun, Aida Yuen Wong, 2018-10-25. This edited volume on radical dress reforms in East Asia takes a fresh look at the symbols and languages of modernity in dress and body. Dress reform movements around the turn of the twentieth century in the region have received little critical attention as a multicultural discourse of labor, body, gender, identity, colonialism and government authority. With contributions by leading experts of costume, textile history of China, Korea and Japan, this book presents up to date scholarship using diverse methodologies in costume history, history of consumption and international trade. Thematically organized into sections exploring the garments and uniforms, accessories, fabrics and fashion styles of Asia, this edited volume offers case studies for students and scholars in an ever expanding field of material culture including but not limited to economic history, visual culture, art history, history of journalism and popular culture. *Fashion, Identity and Power in Modern Asia* stimulates further research on the impact of modernity and imperialism in neglected areas such as military uniform, school uniform, women's accessories, hairstyles and textile trade.

the formation of a female people to come and Deleuzian minor literature and its relationship to globalization nationalism and regionalism in Asian literature These essays map new directions in East West research that promise to invigorate Asian studies and disclose hitherto unrecognized dimensions of Deleuze's thought **Socioaesthetics** Anders Michelsen, Frederik Tygstrup, 2015-10-05 Aesthetics is no longer the preserve of art historians and philosophers of art Changes in society culture economy urban dynamics and everyday life push us towards considering the aesthetic components of traditionally non aesthetic domains Today it is not only legitimate but necessary to query the relationship between the social as a cohesive and encompassing form of community and human institutions and the aesthetic that is the sensual sensory or perhaps better the sensible Increasingly the social seems to emerge from the sensible and sentient meaning of objects The volume *SocioAesthetics Ambience Imaginary* collects scholars from social science aesthetics arts and cultural studies in case driven debate ranging from biometrics to luxury commodities on how a new alignment of aesthetics and the social is possible and what the possible prospects of this may be
