The Need for a New Economic System John Scales Avery,2016-02-07 It is clear that our present economic system is unsustainable Never ending exponential industrial growth on a finite planet is a logical absurdity We are already using resources at a rate which it would take 1 6 planet earths to replace We are already undermining the ecological systems which support all of life Our present economic system has led to an unbelievable degree of economic inequality To maintain this inequality both between nations and within nations military force is used and democracy is replaced by oligarchy The future of human civilization is endangered both by the threat of thermonuclear war and by the threat of catastrophic climate change and both of the twin threats are results of our present economic system This book documents in detail the serious economic problems of today s world and it also proposes sustainable solutions Disposable Americans Paul Buchheit,2017-03-31 Inequality has dramatically increased in America with few solutions on the horizon Serious social inequalities persist For example the 14 richest Americans earned enough money from their investments in 2015 to hire two million preschool teachers while the USA ranks low among developed countries in preschool enrollment Following the Great Recession the richest one percent took 116 percent of the new income gains a statistic caused by so many middle class Americans moving backward many losing investments in property and experiencing interruptions in work Author Paul Buchheit looks hopefully to solutions in a book that vividly portrays the rapidly changing inequality of American society More Americans have become disposable as middle class jobs have disappeared at an alarming rate Buchheit presents innovative proposals that could quickly begin to reverse these trends including a guaranteed basic income drawn from new revenues such as a Financial Speculation Tax and a Carbon Tax Discussing the challenges and obstacles to such measures he finds optimism in past successes in American history Ideal for classroom assignment the book uniquely pairs historical events with current real life struggles faced by citizens pointing to measures that can improve personal and social well being and trust in government **The Anatomy of Neoliberalism and Education** Maria Nikolakaki,2022-01-01 This book is about the Anatomy of Neoliberalism and Education from a Marxist perspective It is the dialectical materialism of neoliberal ideas examining the material conditions of how these ideas and practices emerged and under what conditions Each of these elements is related to the other and can only be properly understood as part and parcel of the whole system of capitalism which links them together This book investigates neoliberalism s political cultural and financial tools It goes deep in the forces who have supported neoliberalism and how it became common sense It explores the imperialist outcomes and the social devastation it created It then goes to see how these ideas and policies have been implemented in education In short it is the materialist conception of the history of the American empire It then uses the analytic tools developed through this investigation to re read the neoliberal educational reforms POPULATION AND THE ENVIRONMENT John Scales Avery,2018-07-26 This book describes the steps needed to stabilize global population in order to avoid an environmental

catastrophe It also presents a history of the struggle for women's rights and for their representation in politics, science, literature, music, and the visual arts

Writing on the Wall Mumia Abu-Jamal, 2015-02 Revolutionary love, revolutionary memory, and revolutionary analysis are at work in every page written by Mumia Abu Jamal. His writings are a wake-up call. He is a voice from our prophetic tradition speaking to us here now lovingly, urgently. Black man, old school jazz man, freedom fighter, revolutionary. His presence, his voice, his words are the writing on the wall. Cornel West from the foreword: From the first slave writings to contemporary hip hop, the canon of African American literature offers a powerful counter narrative to dominant notions of American culture, history, and politics. Resonant with voices of prophecy and resistance, the African American literary tradition runs deep with emancipatory currents that have had an indelible impact on the United States and the world. Mumia Abu Jamal has been one of our most important contributors to this canon for decades, writing from the confines of the U.S. prison system to give voice to those most silenced by chronic racism, impoverishment, and injustice. *Writing on the Wall* is a selection of more than 100 previously unpublished essays that deliver Mumia Abu Jamal's essential perspectives on community, politics, power, and the possibilities of social change in the United States. From Rosa Parks to Edward Snowden, from the Trail of Tears to Ferguson, Missouri, Abu Jamal addresses a sweeping range of contemporary and historical issues. Written mostly during his years of solitary confinement on Death Row, these essays are a testament to Abu Jamal's often prescient insight and his revolutionary perspective brims with hope, encouragement, and profound faith in the possibility of redemption. Greatness meets us in this book, and not just in Mumia's personal courage and character. It's in the writing. This is art with political power, challenging institutional injustice in the U.S. while catalyzing our understanding, memory, and solidarities for liberation and love. *Writing on the Wall* can set the nation aflame, yes, for creating new possible worlds. Mark Lewis Taylor, Professor of Theology and Culture, Princeton Theological Seminary. Mumia Abu Jamal is an award-winning journalist and author of two best-selling books, *Live From Death Row* and *Death Blossoms*. Johanna Fernandez is a Fulbright Scholar and Professor of History at Baruch College in New York City. Cornel West is a scholar, philosopher, activist, and author of over a dozen books, including his bestseller *Race Matters*. He appears frequently in the media and has appeared on *Real Time with Bill Maher*, *The Colbert Report*, CNN, and C-SPAN, as well as Tavis Smiley.

Disposable Futures Brad Evans, Henry A. Giroux, 2015 A dazzling exploration of the seduction of violence and spectacle in politics, culture, entertainment, and everyday life.
