Selfless Love Ellen Jikai Birx,2014-04-01 Selfless Love shows how meditation can help us realize that we don t love we are love Gentle elegant and radically inspiring Selfless Love presents a holistic experiential meditative path that enables us to see beyond our preconceived notions of identity spirituality and humanity Drawing equally from Zen parables her experience as a mental health therapist and the Gospels Ellen Birx shows us that through meditation we can recognize that our true selves are not selves at all that all beings are united in unbounded infinite awareness and love beyond words Recognizing the limitations of language in describing the indescribable Birx concludes each chapter in the Zen tradition of turning words with a verse meant to invite insights *The Parent Trap* Nate G. Hilger,2022-04-26 How parents have been set up to fail and why helping them succeed is the key to achieving a fair and prosperous society Few people realize that raising children is the single largest industry in the United States Yet this vital work receives little political support and its primary workers parents labor in isolation If they ask for help they are made to feel inadequate there is no centralized organization to represent their interests and there is virtually nothing spent on research and development to help them achieve their goals It s almost as if parents are set up to fail and the result is lost opportunities that limit children s success and make us all worse off In *The Parent Trap* Nate Hilger combines cutting edge social science research revealing historical case studies and on the ground investigation to recast parenting as the hidden crucible of inequality Parents are expected not only to care for their children but to help them develop the skills they will need to thrive in today s socioeconomic reality but most parents including even the most caring parents on the planet are not trained in skill development and lack the resources to get help How do we fix this The solution Hilger argues is to ask less of parents not more America should consider child development a public investment with a monumental payoff We need a program like Medicare call it Familycare to drive this investment To make it happen parents need to organize to wield their political power on behalf of children who will always be the largest bloc of disenfranchised people in this country *The Parent Trap* exposes the true costs of our society s unrealistic expectations around parenting and lays out a profoundly hopeful blueprint for reform *Take My Hand Again* Nancy Parker Brummet,2015-03-03 The guide the author wishes she had when she took on a caretaker role By 2020 the senior population in this country will number over 115 million Despite this persistent graying of America few adult children feel prepared to take on the role of caregiver for aging parents Those who discover they must now intervene and care for an elder they love are often at a loss Trying to navigate the transition is like being dropped in a foreign country with no map no GPS and no translator and acting as tour guide Nancy Parker Brummett knows what they re going through and has the means to help She shares her own experience of caring for a mother and mother in law in assisted living as well as

lessons learned through study of the academic social and political issues involved Each chapter begins with relevant Scripture but the useful information here is not limited to people of faith Take My Hand Again offers readers the warm feeling of having someone they trust stepping up to hold their hand and share encouragement and hope Children of the aging don't need a degree in gerontology they just need for someone to ask the pertinent questions and give them an overview of the pros and cons of common options so they can make informed decisions Whether they've already had their wake up call or just want to be prepared for what's to come Brummett's sometimes humorous sometimes poignant book has just what they're looking for

Bob Dylan and the Spheres of Existence Christopher B. Barnett, 2023-03-20 *Bob Dylan and the Spheres of Existence* shows that existential questions lie at the heart of Bob Dylan s songwriting a point that will developed with the help of renowned Danish philosopher S ren Kierkegaard One of the focal points of Kierkegaard s authorship is the journey towards authentic selfhood Famously he thematizes this journey in terms of existential spheres the aesthetic the ethical and the religious Whereas the aesthetic involves a preference for immediacy the ethical has to do with achieving a sense of personal identity by way of living for enduring commitments and values Yet higher than both of these stages is the religious which initially concerns the immanent human quest for eternal life but for Kierkegaard ultimately comes to rest in God s transcendent self revelation in Jesus Christ This book argues that Kierkegaard s theory can help us deepen our understanding of and relation to Dylan s art Just as Kierkegaard presupposes existential movement and transformation so is Dylan celebrated for his shifting personae

and philosophical variance But this is not mere aesthetic dabbling on Dylan s part On the contrary his diverse masks and voices encourage his audience to engage the worldview being presented albeit in such a way that religious faith is identified as humanity s source of ultimate meaning *Faith Confronts Nuclear Power* John R. Gugel,2015-10-22 Faith Confronts Nuclear Power is a theological critique that attempts to call people to action in the battle against nuclear power Nuclear power is a sophisticated terribly expensive and frightfully dangerous way to boil water What is it doing to the earth our God created How do we care for the earth if we allow it to continue Looking at nuclear power through the eyes of faith a Lutheran pastor John Gugel is alarmed at the apparent lack of concern on this issue and seeks to call people to action
