**Greenfield's Surgery** Michael W.

Mulholland, Keith D. Lillemoe, Gerard M. Doherty, Ronald V. Maier, Diane M. Simeone, Gilbert R. Upchurch, 2012-09-11 The Fifth Edition of Greenfield's Surgery has been thoroughly revised, updated, and refocused to conform to changes in surgical education and practice. Reflecting the increasingly clinical emphasis of residency programs, this edition features expanded coverage of clinical material and increased use of clinical algorithms. Key Points open each chapter, and icons in the text indicate where Key Points are fully discussed. Many of the black and white images from the previous edition have been replaced by full color images. This edition has new chapters on quality assessment, surgical education, and surgical processes in the hospital. Coverage of surgical subspecialty areas is more sharply focused on topics that are encountered by general surgeons and included in the current general surgery curriculum and ABSITE exam. The vascular section has been further consolidated. A new editor, Diane M. Simeone MD PhD, has joined the editorial team. This edition is available either in one hardbound volume or in a four volume softbound set. The lightweight four volume option offers easy portability and quick access. Each volume is organized by organ system so you can find the facts you need within seconds. The companion website presents the fully searchable text, an instant feedback test bank featuring over 800 questions and answers, and a comprehensive image bank. Unique to this new edition's website are 100 Morbidity and Mortality case discussions. Each case reviews a specific surgical complication, how the complication was addressed, and reviews the literature on approaches and outcomes.
