Christianity and 'the World' David Martin, 2021-01-01 David Martin was one of the world s leading commentators on secularization theory He was also a committed and lifelong reader of English poetry Christianity and The World develops Martin s argument against simplistic secularization narratives with reference to the history of poetry a topic with which few social theorists have been concerned Martin shows the enduring but ever changing centrality of Christian thought and

practice in its many different forms to English poetry Always mindful that the most important aspects of poetry s history can be captured only by attending to the minutest particulars of individual poems and poets Martin s study sheds unexpected light on a wide range of English poets from Spenser and Shakespeare to T S Eliot and Geoffrey Hill The result is a study at once informed by an authoritative sociological perspective on secularization and richly coloured by the singular intensity of Martin s own reading life
