The Beck Youth Inventories™ - Second Edition (BYI-II™) for Children and Adolescents allows clinicians to assess clients up to the age of 18 years, assuring confidence in their clinical decision making, while helping them to plan effective interventions. Consisting of five self-report inventories, the BYI-II™ can be used separately or in combination to assess symptoms of depression, anxiety, anger, disruptive behaviour, and self-concept.

ASSESSMENT SCALES

The five inventories each contain 20 questions about thoughts, feelings and behaviours associated with emotional and social impairment in youth. Children and adolescents describe how frequently the statement has been true for them during the past two weeks, including the day they complete it. The instruments measure the child or adolescent's emotional and social impairment in five specific areas:
