Rethinking the Erotic: Eroticism in Literature, Film, Art and Society Katarzyna Popak-Bernat, Sara D'Arcy, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 The erotic is a complex and highly problematic phenomenon that scholars have agonised over for centuries Generally speaking the erotic refers to sex and sexuality However it is a multifaceted term that holds multiple meanings for different people The erotic on the one hand is personal a collection of thoughts feelings beliefs and sensations shared with one's self or other people On the other hand it is explicitly public subject to censorship scientific study penalisation political debate and reproduction in art It is also the basis of this volume which includes chapters from 14 different authors who presented their ideas on eroticism at the 7th Global Conference The Erotic Exploring Critical Issues at Mansfield College Oxford in September 2012 This volume offers a broad perspective on issues of the erotic with the authors representing not only a wide variety of academic and non academic disciplines but also a range of countries from across the globe **Bella Caledonia** Kirsten Stirling, 2008 *Bella Caledonia* Woman Nation Text looks at the widespread tradition of using a female figure to represent the nation focusing on twentieth century Scottish literature The woman as nation figure emerged in Scotland in the twentieth century but as a literary figure rather than an institutional icon like Britannia or France's Marianne Scottish writers make use of familiar aspects of the trope such as the protective mother nation and the woman as fertile land which are obviously problematic from a feminist perspective But darker implications buried in the long history of the figure rise to the surface in Scotland such as woman nation as victim and woman nation as deformed or monstrous As a result of Scotland's unusual status as a nation within the larger entity of Great Britain the literary figures under consideration here are never simply incarnations of a confident and complete nation nurturing her warrior sons Rather they reflect a more modern anxiety about the concept of the nation and embody a troubled and divided national identity Kirsten Stirling traces the development of the twentieth century Scotland as woman figure through readings of poetry and fiction by male and female writers including Hugh MacDiarmid Naomi Mitchison Neil Gunn Lewis Grassie Gibbon Willa Muir Alasdair Gray A L Kennedy Ellen Galford and Janice Galloway The Encyclopedia of the Gothic, 2 Volume Set William Hughes, David Punter, Andrew Smith, 2015-12-21 THE ENCYCLOPEDIA OF THE GOTHIC Well written and interesting it is a testament to the breadth and depth of knowledge about its central subject among the more than 130 contributing writers and also among the three editors each of whom is a significant figure in the field of gothic studies A reference work that's firmly rooted in and actively devoted to expressing the current state of

The Power of Form Ana Fernandes, Ana Raquel Fernandes, Rui Carlos Fonseca, José Pedro Serra, 2015-02-27

Although positivism dismissed myths as childish fancy bound to be superseded by reason there has been a continuous reappraisal of the power of myths since the 19th century Once viewed as primitive and unreliable accounts and an inadequate and distorted form of knowledge myths came to be perceived as exemplary narratives consisting of rich and complex symbolic constructs that carry meaning and a connection to reality Myths then came to be regarded as a privileged expression of the human soul and of its possibly submerged and unconscious abysses and dramas Rather than inherently obscure and elusive to a rational grasp mythical narratives would therefore be driven by logical reasoning giving shape to a particular worldview of life and humankind The enduring power of mythical narrative is attested to by its very plasticity subject to multiple recreations informed by changing concerns and insights Mythical narratives have thus attracted the interest of various disciplines from ethnology and history to philosophy literature sociology politics the history of religions and art history This interdisciplinary volume studies how myths are inscribed and recycled within both individual and collective heritage and examines the personal and political implications of multifaceted engagement with myths as one of the forms through which societies try to make sense of their perplexities
