As part of the *Genreflecting Advisory Series*, *Teen Genreflecting* provides librarians with a road map to the vibrant and diverse body of literature focusing on recent fiction for teens, organizing and describing some 1,300 titles most published within the past ten years along with perennial classics. The authors indicate where each title fits in the genre scheme, its subject matter, format, and general reading level, and any pertinent awards. They also provide advice on readers advisory services to teens, descriptions of genres and subgenres, and lists of favorites for each genre. As with previous editions, this guide will prove invaluable to librarians building their teen collections and will help them assist teens in finding the books they love, no matter what genre.
