McClure, 2003 In its seventh edition Through the Eyes of a Child An Introduction to Children's Literature continues to be a visually stunning theoretically sound comprehensive overview of children's literature It focuses squarely on selecting and evaluating quality literature to share with children and guiding them to appreciate and respond to that literature This edition features multicultural literature and young adult literature in every chapter expanded coverage of biographies and informational books and over 100 new children

The identification and analysis of landscape topoi synthesizes recent theories about interstitial space together with earlier morphological and topoanalytical studies enabling the study of fictional landscapes in terms of their physical characteristics as well as in terms of their relationship with contemporary texts and historical precedents Ultimately by providing topoanalytical studies of other children's texts Carroll proposes topoanalysis as a rich critical method for the study and understanding of children's literature and indicates how the findings of this approach may be expanded upon In offering both transferable methodologies and detailed case studies this book outlines a new approach to literary landscapes as geographical places within socio historical contexts The Book Review The Publishers Weekly ,2004 Cassette Books Library of Congress. National Library Service for the Digest, 2005 New World Orders in Contemporary Children's Literature C. Bradford, K. Blind and Physically Handicapped, 2007 Mallan, J. Stephens, R. McCallum, 2008-03-13 This book demonstrates how contemporary children's texts draw on utopian and dystopian tropes in their projections of possible futures. The authors explore the ways in which children s texts respond to social change and global politics. The book argues that children's texts are crucially implicated in shaping the values of their readers Books for the Teen Age, 2001 New York Public Library.
