Masculinity in Contemporary Science Fiction by Men Sara Martín, 2025-05-30 *Masculinity in Contemporary Science Fiction by Men* No Plans for the Future is the first comprehensive study of the self-representation of men in SF novels published in the twenty-first century by male authors Exploring a broad selection of writers and works the fourteen chapters present a panoramic overview of men's contributions to current SF and explore their slow but noticeable progress in the representation of gender The impact of feminism and gender studies and the demands of readers have profoundly transformed men's SF which now presents far more caring and vulnerable male characters The old stereotypes are being replaced by a collective reflection on how men and masculinity are changing though the lack of a common agenda results in novels that while exciting and often challenging sometimes miss the chance to imagine a better anti-patriarchal pro-feminist future for men and for all human beings The authors analysed include Robert Charles Wilson Geoff Ryman Samuel R Delany Richard K Morgan John Scalzi Iain M Banks Ernest Cline James S A Corey Colson Whitehead Andy Weir Daniel H Wilson Ian McDonald Yoon Ha Lee Tade Thompson Neal Stephenson and Kim Stanley Robinson **Canadian Science Fiction, Fantasy, and Horror** Amy J. Ransom, Dominick Grace, 2019-05-27 *Canadian Science Fiction Fantasy and Horror Bridging the Solitudes* exposes the limitations of the solitudes concept so often applied uncritically to the Canadian experience This volume examines Canadian and Québécois literature of the fantastic across its genres such as science-fiction fantasy horror indigenous futurism and others and considers how its interrogation of colonialism nationalism race and gender works to bridge multiple solitudes Utilizing a transnational lens this volume reveals how the fantastic is ready-made for exploring in non-literal terms the complex and problematic nature of intercultural engagement Lieux de vie en science-fiction Danièle André, 2021-04-29 Un lieu de vie peut être un espace restreint clos et très délimité ou il peut être aussi vaste que l'univers Pourtant il ne se limite pas à un espace géographique il est aussi parfois un espace plus abstrait uniquement délimité par des liens sociaux Enfin il peut aussi être virtuel fantasme ou vécu comme tel Les textes rassemblés dans cet ouvrage offrent des regards croisés sur les manières dont la science-fiction quels que soient ses formes et supports comprend et utilise la notion de lieux de vie pour la redéfinir l'interroger et porter un autre regard sur notre monde dans ses différentes dimensions sociales
