**Preaching from Memory to Hope** Thomas G. Long, 2009-03-19 In this compelling and hard hitting book respected preacher and teacher Thomas Long identifies and responds to what he sees as the most substantive theological forces and challenges facing preaching today The issues he says are fourfold the decline in the quality of narrative preaching and the need for its reinvigoration the tendency of preachers to ignore God's action and presence in our midst the return of the church's old nemesis gnosticism albeit in a milder form evidenced in today's new spirituality and the absence of eschatology in the pulpit Long once again has his finger on the pulse of American preaching demonstrated by his creative responses to these challenges Whether he is calling for theologically smarter and more ethically discerning preaching providing a method of interpretation that will allow pastors to recover the emphasis on God in our midst or encouraging a kind of interfaith dialogue with gnosticism he demonstrates why he has long been considered one of the most thoughtful and intelligent preachers in America today

**Fashion Me a People** Maria Harris, 1989-01-01 Curriculum as described by Maria Harris's book is viewed as an activity the practice of Christian education It includes community service worship proclamation and instruction for all the members of the church from birth to death

Dancing with God Jay Emerson Johnson, 2005-02-01 The image of dancing with God may seem like an odd one for a book on Christian theology writes Jay Johnson More than a few people probably assume dancing and theology have at least one thing in common Other people do them The good news of Christian faith suggests something different Each and everyone of us is invited to dance with God Each of us can dance Each of us can do theology Theology long seen as the domain of professors scholars and clergy is actually the work of all God's people Dancing with God uses the metaphor of dance to help readers especially those without a theological background approach the discipline of theology as something we all do and not only something to believe And doing theology is the practice of hope This book explores the way Anglicans approach theology The good news according to Johnson is not about the assurance of getting things right It comes instead from considering our texts creeds and liturgies as invitations to dance with the God of abundant life Beautifully and accessibly written Dancing with God makes an excellent book for individual or parish study

**Transforming Preaching** Ruthanna Hooke, 2010-04 At once travel guide and vision for the future the Transformation series is good news for the Episcopal Church at a time of fast and furious

demographic and social change Series contributors recognized experts in their fields analyze our present plight point to the seeds of change already at work transforming the church and outline a positive new way forward What kinds of churches are most ready for transformation What are the essential tools What will give us strength direction and purpose to the journey Each volume of the series will Explain why a changed vision is essential Give robust theological and biblical foundations Offer a guide to best practices and positive trends in churches large and small Describe the necessary tools for change Imagine how transformation will look Preaching is one of the more transformable aspects of the church's life Performance teacher Ruthanna Hooke writing for both clergy and lay leaders delivers the good and bad news about Episcopalians and preaching She explains why preaching is more difficult than ever today and provides essential models and spiritual practices in order to transform both the creators of preaching and its listeners as both participate in sermons Leading Lives that Matter Mark R. Schwehn, Dorothy C. Bass, 2006 Leading Lives That Matter draws together a wide range of texts including fiction autobiography and philosophy offering challenge and insight to those who are thinking about what to do with their lives Instead of giving prescriptive advice Mark Schwehn and Dorothy Bass approach the subject of vocation as an ongoing conversation They include in this conversation some of the Western tradition's best writings on human life its meaning purpose and significance ranging from ancient Greek poetry to contemporary fiction Including Leo Tolstoy's novella *The Death of Ivan Ilych* as an extended epilogue this volume will help readers clarify and deepen how they think about their own lives Darwin's Finches Kathleen Donohue, 2011-06-15 Two species come to mind when one thinks of the Galapagos Islands the giant tortoises and Darwin's fabled finches While not as immediately captivating as the tortoises these little brown songbirds and their beaks have become one of the most familiar and charismatic research systems in biology providing generations of natural historians and scientists a lens through which to view the evolutionary process and its role in morphological differentiation In *Darwin's Finches* Kathleen Donohue excerpts and collects the most illuminating and scientifically significant writings on the finches of the Galapagos to teach the fundamental principles of evolutionary theory and to provide a historical record of scientific debate Beginning with fragments of Darwin's Galapagos field notes and subsequent correspondence and moving through the writings of such famed field biologists as David Lack and Peter and Rosemary Grant the collection demonstrates how scientific processes have changed over time how different branches of biology relate to one another and how they all relate to evolution As Donohue notes practicing science today is like entering a conversation that has been in progress for a long long time Her book provides the history of that conversation and an invitation to join in Students of both evolutionary biology and history of science will appreciate this compilation of historical and contemporary readings and will especially value Donohue's enlightening commentary Landscapes of the Sacred Belden C. Lane, 2002 This substantially expanded edition of Belden C Lane's *Landscapes of the Sacred* includes a new introductory chapter that offers three new interpretive models for understanding American sacred space Lane maintains his

approach of interspersing shorter and more personal pieces among full length essays that explore how Native American early French and Spanish Puritan New England and Catholic Worker traditions has each expressed the connection between spirituality and place A new section at the end of the book includes three chapters that address methodological issues in the study of spirituality the symbol making process of religious experience and the tension between place and placelessness in Christian spirituality

**Through a Glass Darkly** Holly Faith Nelson, Lynn R. Szabo, Jens Zimmermann, 2011-01-19  
Suffering the sacred and the sublime are concepts that often surface in humanities research in an attempt to come to terms with what is challenging troubling or impossible to represent These intersecting concepts are used to mediate the gap between the spoken and the unspeakable between experience and language between body and spirit between the immanent and the transcendent and between the human and the divine The twenty five essays in *Through a Glass Darkly* Suffering the Sacred and the Sublime in Literature and Theory written by international scholars working in the fields of literary criticism philosophy and history address the ways in which literature and theory have engaged with these three concepts and related concerns The contributors analyze literary and theoretical texts from the medieval period to the postmodern age from the works of Chaucer Shakespeare Donne and Herbert to those of End Sh saku Alice Munro Annie Dillard Emmanuel Levinas and Slavoj i ek This book will be of particular interest to scholars of religion and literature philosophy and literature aesthetic theory and trauma studies
