Aspects of Jewish Metarational Thought Martin Sicker,2005 Judaism has always had adherents that driven by both awe and love of God strove to penetrate the mystery of divine wisdom and grasp what the philosopher deemed to be beyond

the reach of man's rational faculty as well as to explore other mysteries that seem to leap out from the pages of Scripture. These metarational leaps of intellect and imagination generally fit into the categories of the exoteric and the esoteric, referring to teachings traditionally considered suitable for public instruction and those deemed inappropriate for such purpose. The exoteric includes those attempts at intellectually and spiritually bridging the gap between God and man that one finds strewn throughout the pages of the classical literature of Judaism. The esoteric includes those speculations and practices that have been more or less systematized and formulated and presented as mystical doctrines that have been characterized since the Middle Ages as Kabbalah. The opening chapters of *Aspects of Jewish Metarational Thought* consider the question of the relationship between finite man and the unknowable God and how the divine-human communication essential to that relationship takes place. Other chapters consider the purpose behind human existence and the critical aspects of the biblical account of the creation issues relating to the idea of a visionary ascent to the celestial realm, the influence of metarational considerations on normative Jewish religious practice and the special attributes believed to inhere in the Hebrew language and the role that these have played in metarational biblical interpretation from antiquity to the present.

Heresy and the Formation of the Rabbinic Community David M. Grossberg, 2017-06-21. Publisher's description: Between the first and sixth centuries C.E. a community of rabbis systematized their ideas about Judaism in works such as the Mishnah and the Talmud. David M. Grossberg reexamines this community's gradual formation as reflected in polemical texts. He contends that these texts' primary aim was not to describe real rabbinic opponents but to create and enforce boundaries between rabbis and others and within the developing rabbinic movement.

Luke's Jewish Eschatology Isaac W. Oliver, 2021. This book revisits the Jewish roots of Christianity. More specifically, this work investigates what Luke thought about the Jewish people and the end of time in light of ancient Jewish sources. It is likely that Luke's views on these questions were not too different from the Judaism of Luke's time. Luke believed that Israel would experience political and national restoration when Jesus would return as the victorious messiah.

Living Kabbalah Simcha H. Benyosef, 2006. This devotional guide to the Sabbath and Jewish festivals is based on the teachings of a modern-day master of Kabbalah who happens to be a direct descendant of Rabbi Yitzchak Luria, the great sixteenth-century kabbalist. Written in an accessible style for the contemporary reader, *Living Kabbalah* invites us to establish a soul union with God, particularly on those days in the Jewish calendar when a special Divine energy is available. It aims to produce in the reader the searing emotion needed to enter the altered state of consciousness in which one may relate to the Divine Presence and experience the beauty of Jewish life and religious observance.

Resplendent Synagogue Thomas C. Hubka, 2022-11-02. A provocative interpretation of the art and architecture of a pre-modern wooden synagogue. Thomas C. Hubka immersed himself in medieval and early modern Jewish history, religion, and culture to prepare for this remarkable study of the 18th-century Polish wooden synagogue in the town of Gwoździec, now in present-day Ukraine.

Exile from Exile Nancy E. Berg, 2012-02-01. The standard histories of Israeli

literature limit the canon virtually ignoring those who came to Israel from Jewish communities in the Middle East By focusing on the work of Iraqi born authors this book offers a fundamental rethinking of the canon and of Israeli literary history The story of these writers challenges common conceptions of exile and Zionist redemption At the heart of this book lies the paradox that the dream of ingathering the exiles has made exiles of the ingathered Upon arriving in Israel these writers had to decide whether to continue writing in their native language Arabic or begin in a new language Hebrew The author reveals how Israeli works written in Arabic depict different memories of Iraq from those written in Hebrew In addition her analysis of the early novels of Hebrew writers set against the experience of transit camps ma abarot argues for a re evaluation of the significance of this neglected literary subgenre
