Summary Analysis: *The Martian* by Andy Weir. This can be Research a Summary. Praised creator Andy Weir's fresh supplies a gripping, appealing adventure that partakes of science fiction that is hard and small adult fiction in a twist on the castaway recovery piece accustomed from Hanks's *Castaway*, Defoe's *Robinson Crusoe*, and others. Using its witty dialogue, challenging detail, and not also unlikely scenario, the book is an amusing, participating read prone to please not just the general public where it's focused but in addition students of both small adult literature and science fiction and nascent scientists who're improperly represented in conventional popular publishing. The book straddles the generic lines of hard science fiction and fresh adult as it applies the narrative of Mark Watney's escape from being marooned on Mars. An associate of the staff about the next living objective to Mars, Watney is struck in a hurricane once the quest formally aborts and must utilize his wits as well as the greatly restricted real assets available to him to create his solution to a website that they can be taken. Meanwhile, on The Planet, an international energy to rescue him is enacted, one which eventually depends upon Watney's erstwhile crewmates choosing what amounts to mutiny.
