The Unknown Revolution By Voline:

The Unknown Revolution 1917-1921 Volin, 1975 **The Unknown Revolution, 1917-1921** Voline, 1975 The untold story of the Russian Revolution its antecedents its far reaching changes its betrayal by Bolshevik terror and the massive resistance of non Bolshevik revolutionaries **No Gods, No Masters** Daniel Guérin, 2005 Guérin's classic anthology of anarchism translated and reprinted available for the first time in a single volume *The Unknown Revolution, 1917-1921* Volin, 1975 The Unknown Revolution Volin, 1955 **The Unknown Revolution, 1917-1921** Volin, Holley R. Cantine, Fredy Perlman, 1974 No Harmless Power Charlie Allison, 2023-08-22 Lively incendiary and inspiring No Harmless Power follows the life of Nestor Makhno who organized a seven million strong anarchist polity during the Russian civil war and who developed Platform anarchism during his exile in Paris as well as advising other anarchists like Durruti on tactics and propaganda Both timely and timeless this biography reveals Makhno's rapidly changing world and his place in it He moved swiftly from peasant youth to prisoner to revolutionary anarchist leader Narrowly escaping Bolshevik Ukraine for Paris this book also chronicles the friends and enemies he made along the way including Lenin Trotsky Alexander Berkman Kropotkin Emma Goldman Ida Mett and others No Harmless Power is the first text to fully delve into Makhno's sympathy for the downtrodden the trap of personal heroism his improbable victories unlikely friendships and his alarming lack of gun safety in meetings Makhno and the movement he began are seldom mentioned in most mainstream histories Western or Russian mostly on the grounds that acknowledging anarchist politics calls into question the inevitability and desirability of the nation state and unjust hierarchies With illustrations by N O BONZO and Kevin Matthews this is a fresh humorous and necessary look at an under examined corner of history as well as a deep exploration of the meaning and value if any of heroism as history *The Future of Revolution* Jasper Bernes, 2025-04-29 Communism comes from the future but its hopes haunt our past Reading revolutionary history from the Paris Commune to the George Floyd Uprising by the light of communist theory from Marx to C L R James The Future of Revolution illuminates the possibilities for overcoming class society in the twenty first century When Marx wrote that the Paris Commune of 1871 showed that the working class cannot simply lay hold of the ready made state machinery and wield it for its own purposes he identified a principle that will remain true as long as capitalism and its class antagonism persist Historical revolutions reveal essential features of our communist horizon which would be revolutionaries then as now must negotiate one way or another In chapters that move from a critical history of the workers council to a reading of Marx's theory of value as an inverted description of communism Jasper Bernes synthesizes from a history of failure the key criteria for success He defines for our present moment the urgent mission of the world proletariat *Revolution in Russia* Edith Rogovin Frankel, Jonathan Frankel, Baruch Knei-Paz, 1992-01-30 The Russian Revolution of 1917 continues to be a subject of most intense controversy Eighteen leading specialists from different generations countries and schools of thought accordingly re examine the key issues and events of that crucial year The

Unknown Revolution Volin,1954 **Nestor Makhno--anarchy's Cossack** Alexandre Skirda,2004 The phenomenal life of Ukrainian peasant Nestor Makhno 1888 1934 provides the framework for this breakneck account of the downfall of the tsarist empire and the civil war that convulsed and bloodied Russia between 1917 and 1921 Makhno and his people were fighting for a society without masters or slaves with neither rich nor poor They acted towards that idea by establishing free soviets Unlike the soviets drained of all significance by the dictatorship of a one party State the free soviets became the grassroots organs of a direct democracy a living embodiment of the free society until they were betrayed and smashed by the Red Army Delving into a vast array of documentation to which few other historians have had access this study illuminates a revolution that started out with the rosiest of prospects but ended up utterly confounded More than just the incredible exploits of a guerilla revolutionary par excellence Skirda weaves the tale of a people and the organizations and practices of anarchism literally fighting for their lives The Third Revolution Murray Bookchin,2004-06-15 Comprehensive account of the great revolutions that swept over Europe and America *Vision on Fire* Emma Goldman,2006 The most dangerous woman alive in the most inspiring revolution of modern history **Anarchism** Seán Sheehan,2004-04-04 Anarchism is as much an attitude as it is a set of formulated doctrines and in this book Sean Sheehan provides an engaging introduction to what anarchism means describing its history through anecdote and dramatic events and offering explanations of the issues behind this movement *Confronting Dostoevsky's Demons* James Goodwin,2010 Although criticized at one time for its highly tendentious spirit Dostoevsky's *Demons* 1871 1872 has proven to be a novel of great polemical vitality Originally inspired by a minor conspiratorial episode of the late 1860s well after Dostoevsky's death 1881 the work continued to earn both acclaim and contempt for its scathing caricature of revolutionists driven by destructive anarchic aims The text of *Demons* assumed new meaning in Russian literary culture following the Bolshevik triumph of 1917 when the reestablishment and expansion of centralized state power inevitably revived interest in the radical populist tendencies of Russia's past in particular the anarchist thought of Dostoevsky's legendary contemporary Mikhail Bakunin 1814 1876 *Confronting Dostoevsky's Demons* is the first book to explore the life of Dostoevsky's novel in light of disputes and controversies over Bakunin's troubling legacy in Russia Contrary to the traditional view which assumes the obsolescence of *Demons* throughout much of the Communist period 1917 1991 this book demonstrates that the potential resurgence of Bakuninist thought actually encouraged reassessments of Dostoevsky's novel By exploring the different ideas and critical strategies that motivated opposing interpretations of the novel in post revolutionary Russia *Confronting Dostoevsky's Demons* reveals how the potential resurrection of Bakunin's anti authoritarian ethos fostered the return of a politically reactionary novel to the canon of Russian classics **Anarchism and Authority** Paul McLaughlin,2016-04-15 Examining the political theory of anarchism from a philosophical and historical perspective Paul McLaughlin relates anarchism to the fundamental ethical and political problem of authority The book pays particular attention to the authority of the state and the anarchist rejection of all

traditional claims made for the legitimacy of state authority the author both explaining and defending the central tenets of the anarchist critique of the state The founding works of anarchist thought by Godwin Proudhon and Stirner are explored and anarchism is examined in its historical context including the influence of such events as the Enlightenment and the French Revolution on anarchist thought Finally the major theoretical developments of anarchism from the late nineteenth century to the present are summarized and evaluated This book is both a highly readable account of the development of anarchist thinking and a lucid and well reasoned defence of the anarchist philosophy Memories of Cities Jonathan

A. Smith,Stephen Anthony Smith,1983 Deals with problem of workers control in Russia

From Tsar To Soviets Christopher Reed,2005-11-10 Written from the perspective of the factory worker and peasant at the ground level this study of Russia during the Revolution 1917-21 aims to shed light on the realities of living through and participating in these tumultuous events The book is intended for undergraduate courses in history Soviet studies and politics **In the Crossfire** Ngo Van,2010 A stunning autobiographical account of the fight for freedom in Ho Chi Minh
