provides a chronology of twentieth century Jewish writers Compiled by expert contributors this book contains over 330 entries on individual authors each consisting of a biography a list of selected publications a scholarly essay on their work and suggestions for further reading Denaturalized Claire Zalc,2020-10-13 In *Denaturalized* Claire Zalc combines the precision of the scholar with the passion of a storyteller This is a deftly written book Zalc combines in an accessible style smoothly translated by Catherine Porter the stories of people trapped within a bureaucracy that was as obsessed perhaps with clearing files as with hunting Jews In other words Zalc reminds us how cruel the banality of indifference could be Wall Street Journal Winner of the Prix d histoire de la justice A leading historian radically revises our understanding of the fate of Jews under the Vichy regime Thousands of naturalized French men and women had their citizenship revoked by the Vichy government during the Second World War Once denaturalized these men and women mostly Jews who were later sent to concentration camps ceased being French on official records and walked off the pages of history As a result we have for decades severely underestimated the number of French Jews murdered by Nazis during the Holocaust In *Denaturalized* Claire Zalc unearths this tragic record and rewrites World War II history At its core this is a detective story How do we trace a citizen made alien by the law How do we solve a murder when the body has vanished Faced with the absence of straightforward evidence Zalc turned to the original naturalization papers in order to uncover how denaturalization later occurred She discovered that in many cases the very officials who granted citizenship to foreigners before 1940 were the ones who retracted it under Vichy rule The idea of citizenship has always existed alongside the threat of its revocation and this is especially true for those who are naturalized citizens of a modern state At a time when the status of millions of naturalized citizens in the United States and around the world is under greater scrutiny *Denaturalized* turns our attention to the precariousness of the naturalized experience the darkness that can befall those who suddenly find themselves legally cast out **Studies in 20th Century Literature** ,1977 After-Images of the City Joan Ramon Resina,Dieter Ingenschay,2018-08-06 Criticism on the textual and iconographic construction of the city is extensive yet the problem of historical change in representations of the urban has received little attention Believing traditional accounts are limited by their reflection of a specific historical moment Joan Ramon Resina and Dieter Ingenschay focus by contrast on transition In essays written for this volume scholars of literary and visual studies the history of architecture cultural theory and urban geography explore the ways perceptual or conceptual paradigms of the city supersede or replace others while at the same time retaining the after image of what went before The writers touch on a wide variety of issues related to contemporary urban cultures as they journey through cities including New York Barcelona Madrid Paris Tijuana Berlin and London Drawing on the work of Roland Barthes Walter Benjamin Camilo Jos Cela Honor de Balzac and Alfred Stieglitz their approach is broadly cultural rather than technical *After Images of the City* takes into account the intrinsic instability of the image and reveals that representations of the modern metropolis cannot be fixed in time and history Ce qu'ils vivent, ce qu'ils écrivent Bernard Lahire,2011 **The National Jewish**

DellaPietra,2011-10-18 *Perspectives on Creativity* Volume 2 extends the work of the first volume and examines creativity from multiple viewpoints The volume contains contributions from writers therapists artists and scholars from disciplines as diverse as psychology and French The first section addresses the nature of creativity and highlights the role of self discipline in the creative process The second section asks what we can learn from studying artists and presents qualitative phenomenological quantitative and archival research on both individuals and groups of artists The third section discusses the use of creativity within the therapeutic setting as well as the particular therapeutic needs of creative individuals The final section of the book presents research exploring creative cognition and its relationship to mood and perception What makes this book unique is the interdisciplinary consideration of the topic of creativity the inclusion of works ranging from case studies to theoretical essays making it appealing to individuals from a wide variety of backgrounds **De la sociedad de**
