A Savage War Of Peace:

A Savage War of Peace Alistair Horne, 2012-08-09 Thoroughly sharp and honest treatment of a brutal conflict The Algerian War 1954 1962 was a savage colonial war killing an estimated one million Muslim Algerians and expelling the same number of European settlers from their homes It was to cause the fall of six French prime minsters and the collapse of the Fourth Repbulic It came close to bringing down de Gaulle and twice to plunging France into civil war The story told here contains heroism and tragedy and poses issues of enduring relevance beyond the confines of either geography or time Horne writes with the extreme intelligence and perspicacity that are his trademarks A Savage War of Peace Alistair Horne, 1996-10-01 Thoroughly sharp and honest treatment of a brutal conflict The Algerian War 1954 1962 was a savage colonial war killing an estimated one million Muslim Algerians and expelling the same number of European settlers from their homes It was to cause the fall of six French prime ministers and the collapse of the Fourth Republic It came close to bringing down de Gaulle and twice to plunging France into civil war The story told here contains heroism and tragedy and poses issues of enduring relevance beyond the confines of either geography or time Horne writes with the extreme intelligence and perspicacity that are his trademarks The Savage Wars Of Peace John Fishel, 2019-06-13 A historical overview of UN and non UN peace operations this book provides a theoretical framework for informing U S military doctrine as it relates to peacekeeping The contributors who are drawn from scholars soldiers diplomats and security consultants lay out the political and strategic context for peace operations and present case studies on traditional aggravated and enforcement operations including UNPROFOR UNOSOM II UNFICYP Cypress ONUC Congo A historical overview of UN and non UN peace operations this book provides a theoretical framework for informing U S military doctrine as it relates to peacekeeping The contributors who are drawn from scholars soldiers diplomats and security consultants lay out the political and strategic context for peace operations and present case studies on traditional aggravated and enforcement operations including UNPROFOR UNOSOM II UNFICYP Cypress ONUC Congo **The Ethics of War and Peace** Terry Nardin, 2020-12-08 A superb introduction to the ethical aspects of war and peace this collection of tightly integrated essays explores the reasons for waging war and for fighting with restraint as formulated in a diversity of ethical traditions religious and secular Beginning with the classic debate between political realism and natural law this book seeks to expand the conversation by bringing in the voices of Judaism Islam Christian pacifism and contemporary feminism In so doing it addresses a set of questions How do the adherents to each viewpoint understand the ideas of war and peace What attitudes toward war and peace are reflected in these understandings What grounds for war if any are recognized within each perspective What constraints apply to the conduct of war Can these constraints be set aside in situations of extremity Each contributor responds to this set of questions on behalf of the ethical perspective he or she is presenting The concluding chapters compare and contrast the perspectives presented without seeking to adjudicate their differences Because of its

inclusive objective comparative and dialogic approach the book serves as a valuable resource for scholars journalists policymakers and anyone else who wants to acquire a better understanding of the range of moral viewpoints that shape current discussion of war and peace In addition to the editor the contributors are Joseph Boyle Michael G Cartwright Jean Bethke Elshtain John Finnis Sohail H Hashmi Theodore J Koontz David R Mapel Jeff McMahan Richard B Miller Aviezer Ravitzky Bassam Tibi Sarah Tobias and Michael Walzer Airpower in Small Wars James S. Corum, Wray R. Johnson, 2003 The use of airpower in wartime calls to mind the massive bombings of World War II but airplanes have long been instrumental in small wars as well Ever since its use by the French to put down rebellious Moroccan tribes in 1913 airpower has been employed to fight in limited but often lengthy small conflicts around the globe This is the first comprehensive history of airpower in small wars conflicts pitting states against non state groups such as insurgents bandits factions and terrorists tracing it from the early years of the twentieth century to the present day It examines dozens of conflicts with strikingly different scenarios the Greek Civil War the Philippine Anti Huk campaign French and British colonial wars the war in South Vietnam before the American escalation counterinsurgency in southern Africa Latin American counterguerrilla operations and counterinsurgency and counterterrorist campaigns in the Middle East over the last four decades For each war the authors describe the strategies employed on both sides of the conflict the air forces engaged and the specific airpower tactics employed They discuss the ground campaigns and provide the political background necessary to understand the air campaigns and in each case they judge the utility of airpower in its broadest sense In their historic sweep they show how forms of airpower evolved from planes to police helicopters aircraft of the civilian air reserve and today s unmanned aircraft They also disclose how small wars after World War II required new strategies operational solutions and tactics By taking this broad view of small war airpower the authors are able to make assessments about the most effective and least effective means of employing airpower They offer specific conclusions ranging from the importance of comprehensive strategy to the need for the United States and its allies to expand small wars training programs Airpower in Small Wars will be invaluable for educating military professionals and policy makers in the subject as well as for providing a useful framework for developing more effective doctrine for employing airpower in the conflicts we are most likely to see in the twenty first century The Evolution of Strategy Beatrice Heuser, 2010-10-14 Is there a Western way of war which pursues battles of annihilation and single minded military victory Is warfare on a path to ever greater destructive force This magisterial account answers these questions by tracing the history of Western thinking about strategy the employment of military force as a political instrument from antiquity to the present day Assessing sources from Vegetius to contemporary America and with a particular focus on strategy since the Napoleonic Wars Beatrice Heuser explores the evolution of strategic thought the social institutions norms and patterns of behaviour within which it operates the policies that guide it and the cultures that influence it Ranging across technology and warfare total warfare and small wars as well as land sea air and nuclear warfare she

demonstrates that warfare and strategic thinking have fluctuated wildly in their aims intensity limitations and excesses over War, Peace, and Security Jacques Fontanel, Manas Chatterji, 2008-10-13 In the name of the past two millennia international and domestic security billions of dollars are wasted on unproductive military spending in both developed and developing countries when millions are starving and living without basic human needs This book contains articles relating to military spending military industrial establishments and peace keeping War, Peace, and Christianity J. Daryl Charles, Timothy J. Demy, 2010 This informed Christian response to more than one hundred common questions regarding the ethics of war demonstrates the viability of just war reasoning in responding to contemporary geopolitical challenges New American Way of War Ben Buley, 2007-10-22 By tracing the origins and evolution of the competing views on the political utility of force this book sets the currently popular image of a new American way of war in its broader historical cultural and political context and provides an assessment of its future prospects Winning Wars Matthias Strohn, 2020-12-07 A collection of military history essays examining the philosophical side of war and the meaning of victory What does it mean to win a war How does this differ from a simple military victory How have different cultures and societies answered these questions through history and how can we apply these lessons When considering how a war might be won there are three big ideas that underpin how success can be measured ownership intervention for effect and fighting for ideas These three main themes also contain a series of sub themes internal and external short term and long term military success versus political success and tactical outcomes versus campaign effects versus strategic success This book examines the constituent parts of what may comprise victory or winning in war and then travels chronologically through a wide variety of historical case studies further exploring these philosophical components and weaving them into a factual discussion The authors of each chapter will explore the three big ideas within the context of their individual case studies offering pointers as to where within that framework their case study may sit The message of this book is not just an academic exploration for its own sake but a vital aspect both morally and practically of the political and military business of the application of force In short know in advance how you wish to end before you start Comprising sixteen excellent and thought provoking essays by eighteen noted military historians and former warriors the book comprehensively examines the realities of war and the wide ranging concepts of victory At the same time it offers a very good general history of warfare Baird Maritime This book can provide useful insights to anyone students and subject matter experts alike can find something to gain from this book Most importantly its emphasis on contemporary warfare can provide consequential information for our current military and civilian leadership if they are willing to hear it Air Space Power Journal The Sources of Social Power: Volume 4, **Globalizations**, **1945-2011** Michael Mann, 2012 This third volume of Michael Mann's analytical history of social power begins with nineteenth century global empires and continues with a global history of the twentieth century up to 1945 Mann focuses on the interrelated development of capitalism nation states and empires Volume 3 discusses the Great Divergence

between the fortunes of the West and the rest of the world the self destruction of European and Japanese power in two world wars the Great Depression the rise of American and Soviet power the rivalry between capitalism socialism and fascism and the triumph of a reformed and democratic capitalism from back cover of Volume 3 The US Military Profession into the 21st Century Sam Sarkesian, Robert Connor, 2006-04-18 This brand new edition of The US Military Profession into the Twenty First Century re examines the challenges faced by the military profession in the aftermath of the international terrorist attack on the United States on September 11 2001 While many of the issues facing the military profession examined in the first edition remain the new war and international terrorism have compounded the challenges The US military must respond to the changed domestic and strategic landscapes without diminishing its primary function a function that now many see that goes beyond success on the battlefield Not only has this complicated the problem of reconciling the military professional ethos and raison d etre with civilian control in a democracy it challenges traditional military professionalism This book also studies the notion of a US military stretched thin and relying more heavily on the US Federal Reserves and National Guard These developments make the US military profession increasingly linked to public attitudes and political perspectives In sum the challenge faced by the US military profession can be termed a dual dilemma It must respond effectively to the twenty first century strategic landscape while undergoing the revolution in military affairs and transformation At the same time the military profession must insure that it remains compatible with civilian cultures and the US political social system without eroding its primary function This is an invaluable book for all students with an interest in the US Military and of strategic studies and military history in general War, Peace, and Human Nature Douglas P. Fry, 2015-02 The chapters in this book posit that humans clearly have the capacity to make war but since war is absent in some cultures it cannot be viewed as a human universal And counter to frequent presumption the actual archaeological record reveals the recent emergence of war It does not typify the ancestral type of human society the nomadic forager band and contrary to widespread assumptions there is little support for the idea that war is ancient or an evolved adaptation Views of human nature as inherently warlike stem not from the facts but from cultural views embedded in Western thinking Amazon com **Torture During the** French-Algerian War Rita Maran, 1987 **Love for Liberation** Robin J. Hayes, 2021-07-16 CHOICE Award for Outstanding Academic Title Illuminates how global solidarity defined African American politics and invigorated the African diaspora During the height of the Cold War passionate idealists across the US and Africa came together to fight for Black self determination and the antiracist remaking of society Beginning with the 1957 Ghanaian independence celebration the optimism and challenges of African independence leaders were publicized to African Americans through community based newspapers and Historically Black Colleges and Universities Inspired by African independence and frustrated with the slow pace of civil rights reforms in the US a new generation of Black Power activists embarked on nonviolent direct action campaigns and built alternative institutions designed as spaces of freedom from racial subjugation Featuring interviews with

activists extensive archival research and media analysis Robin Hayes reveals how Black Power and African independence activists created a diaspora underground characterized by collaboration and reciprocal empowerment Together they redefined racial discrimination as an international human rights issue requiring education sustained collective action and global solidarity laying the groundwork for future transnational racial justice movements such as Black Lives Matter The New Warfare I. Martin Rochester, 2016-02-19 This book looks at the evolving relationship Social Gospel ,1898 between war and international law examining the complex practical and legal dilemmas posed by the changing nature of war in the contemporary world whether the traditional rules governing the onset and conduct of hostilities apply anymore and how they might be adapted to new realities War always messy has become even messier today with the blurring of interstate intrastate and extrastate violence How can the United States and other countries be expected to fight honourably and observe the existing norms when they often are up against an adversary who recognizes no such obligations Indeed how do we even know whether an armed conflict is underway when modern wars tend to lack neat beginnings and endings and seem geographically indeterminate as well What is the legality of anticipatory self defense humanitarian intervention targeted killings drones detention of captured prisoners without POW status and other controversial practices These questions are explored through a review of the United Nations Charter Geneva Conventions and other regimes and how they have operated in recent conflicts Through a series of case studies including the U S war on terror and the wars in Afghanistan Irag Gaza Kosovo and Congo the author illustrates the challenges we face today in the ongoing effort to reduce war and when it occurs **European Security in the Twenty-First Century** Adrian Hyde-Price, 2007-02-12 Combining a to make it more humane sophisticated theoretical analysis with detailed empirical case studies this book provides an original view of the challenges and threats to a stable peace order in Europe The end of Cold War bipolarity has transformed Europe Using structural realist theory Adrian Hyde Price analyzes the new security agenda confronting Europe in the twenty first century Europe he argues is not primed for peace as mainstream thinking suggests rather it faces new security threats and the challenge of multipolarity This critical and original volume looks at European security after the Iraq War the failure of the EU constitution and the change of government in Germany Reflecting on the inherently competitive and tragic nature of international politics it concludes that realism provides the only firm foundations for an ethical foreign and security policy European Security in the Twenty First Century will appeal to students and scholars of international relations European politics and security studies

Asian Americans on War & Peace Russell Leong, 2002 Cultural Writing Nonfiction Asian American Studies ASIAN AMERICANS ON WAR AND PEACE is the first book to respond to the events of September 11 2001 from Asian American perspectives from the vantage point of those whose lives and communities have been forged by both war and peace Together twenty four scholars writers activists and legal scholars reveal how Asians in America view the future of the planet in relation to the events of this last year and this last century both in America and in the Middle East Includes essays by Helen Zia

Jessica Hagedorn Vijay Prashad Amitava Kumar Russell C Leong Jerry Kang Frank Chin Moustafa Bayoumi Stephen Lee Janice Mirikitani Arif Dirlik Grace Lee Boggs and many others Stopping Wars James D D Smith, 2018-03-13 This is an attempt to catalogue the reasons why some wars are so difficult to stop even when both sides want the fighting to end Through detailed case studies the book assesses the obstacles and points toward solutions for ending wars more quickly Each chapter is devoted to a specific obstacle which the author analyzes and then illustrates with case studies drawing on such conflicts as the Iran Iraq War the Gulf War and the Yugoslav wars He assesses the role of third parties in trying to persuade people to stop fighting and examines what happens when obstacles to a cease fire cannot be overcome
