A Second Opinion A Second Opinion:

Second Texts and Second Opinions Laurie Zoloth, 2022 This book takes as its subject the intensely private discussions that arise when ordinary people confront life and death choices and struggle with decisions in a world of medical and scientific complexity Laurie Zoloth began her work in bioethics in a large public California hospital system where she was part of a group tasked with the creation of an ethics committee in every hospital in the system that would hear hundreds of cases every year including pediatric cases from the hospital's intensive care neonatal intensive care burn and oncology units The book explores the dilemmas presented in these cases and reflects on the competing often incommensurate moral appeals offered by the participants It then analyzes the cases against and with similar concepts within Jewish thought using rabbinic texts to make legible the factors at play as one makes ethical judgments This philosophical position is feminist as it considers and at times advocates for the inclusion of family and community in the rationale of the clinical setting Intertwined with legal statements in the Talmud are aggadot or midrashic texts literary narratives used to argue a point or to complicate a point or to deepen the meaning of the communal discourse adding history case studies or fictive tales to the discussion Zoloth argues that these texts can be usefully applied to problems in bioethics She develops the case for a textual turn that is fully imagined and enriched by the many possible re-interpretations of narrative biblical rabbinic medieval modern and post modern **A**
