New Boundaries in Political Science Fiction Donald M. Hassler, Clyde Wilcox, 2008 This book offers an interpretation of the evolution of a growing genre in literary film and television As a follow up to their 1997 collection Political Science Fiction Hassler and Wilcox have assembled twenty four noted international scholars representing diverse fields of inquiry to assess the influential voices and trends from the past decade in New Boundaries in Political Science Fiction The terrors and technologies that permeate our daily lives have changed radically in the past decade further highlighting the underlying speculations on our contested future that remain the core of this genre In surveying the vast expanse of politically charged science fiction of recent years the editors posit that the defining dilemma for these tales rests in whether identity and meaning germinate from progressive linear changes or progress or from a continuous return to primitive realities of war death and the competition for survival The discussion of political implications ranges among writers from H G Wells Robert A Heinlein Ursula Le Guin and Isaac Asimov to more radical recent voices such as Iain M Banks William Gibson Joanna Russ Philip K Dick and China Mieville While emphasizing the literature the collection also addresses political science fiction found on film and television from the original Star Trek through the newest incarnation of Battlestar Galactica

**A Different Trek** David Kroening Seitz, 2023-07 A different kind of Star Trek television series debuted in 1993 Deep Space Nine was set not on a starship but a space station near a postcolonial planet still reeling from a genocidal occupation The crew was led by a reluctant Black American commander and an extraterrestrial first officer who had until recently been an anticolonial revolutionary DS9 extended Star Trek's tradition of critical social commentary but did so by transgressing many of Star Trek's previous taboos including religion money eugenics and interpersonal conflict DS9 imagined a twenty fourth century that was less a glitzy utopia than a critical mirror of contemporary U S racism capitalism imperialism and heteropatriarchy Thirty years after its premiere DS9 is beloved by

critics and fans but remains marginalized in scholarly studies of science fiction Drawing on cultural geography Black studies and feminist and queer studies *A Different Trek* is the first scholarly monograph dedicated to a critical interpretation of DS9's allegorical world building If DS9 has been vindicated aesthetically this book argues that its prophetic place based critiques of 1990s U S politics which deepened the foundations of many of our current crises have been vindicated politically to a degree most scholars and even many fans have yet to fully appreciate *Vulcan's Heart* Josepha Sherman, Susan Shwartz, 2000 Spock bonds with Savik and later gets involved in intrigue in the Romulan capital *Strange New Worlds* Dean Wesley Smith, John J. Ordover, Paula M. Block, 2000 Back by popular demand Our second anthology featuring original Star Trek RM Star Trek The Next Generation RM Star Trek Deep Space Nine RM and Star Trek Voyager RM stories written by Star Trek fans for Star Trek fans Our first *Strange New Worlds* competition drew thousands of submissions and *Strange New Worlds II* drew even more From this mountain of astounding stories these few written exclusively by brand new authors were selected for their originality and style These tales rocket across the length and breadth of Federation time and space from when Captain Kirk explored the galaxy on the first Starship Enterprise TM through Captain Picard's U S S Enterprise TM 1701 D and from Captain Sisko's Deep Space Nine TM to Captain Janeway's Starship Voyager TM with many fascinating stops along the way Find out what happens in the Star Trek universe when fans like you take the helm **Belle Terre** Dean Wesley Smith, Diane Carey, 2000 The planet Bell Terre has become home to more than 30 000 But the colonists have barely settled in the untamed wilderness of their new home when Spock makes a deadly discovery **Living with Star Trek** Lincoln Geraghty, 2007-03-30 There is a wealth of literature on Star Trek and this book is a welcome and original contribution to it The book not only sets Star Trek in dialogue with ideas and stories of utopia community self improvement that are central to American culture and history but goes further to examine the ways in which these are taken up and used by ordinary fans who engage with Star Trek in complex and significant ways Lincoln Geraghty explores for example Star Trek's multiple histories and how Star Trek has used the Puritan American Jeremiad one of the nation's foundational texts to create a narrative that relates how through communal effort and personal change utopia can be achieved He discusses how fans define the series as a blueprint for the solution of such social problems in America as racism and war and shows how they have used the series to cope with personal trauma and relate to such characters as Data and Seven of Nine in moments of personal transformation This is all in all an enjoyable and revealing book on Star Trek's active relationship with its many thoughtful fans *The Flaming Arrow* Kathy Oltion, Jerry Oltion, Diane Carey, 2000 Having survived countless hardships and natural disasters the stubborn colonists of Belle Telle are now besieged by the alien Kauld who are intent on claiming the planet's unique resources for their own Only the Enterprise can save the colony *Bowker's Guide to Characters in Fiction* 2007, 2008-02 **Analog Science Fiction & Fact**, 2000 **Irwin Allen Television Productions, 1964-1970** Jon Abbott, 2015-06-14 Before establishing himself as the master of disaster with the 1970s films *The Poseidon Adventure* and

The Towering Inferno Irwin Allen created four of television's most exciting and enduring science fiction series Voyage to the Bottom of the Sea Lost in Space The Time Tunnel and Land of the Giants These 1960s series were full of Allen's favorite tricks techniques and characteristic touches and influenced other productions from the original Star Trek forward Every science fiction show owes something to Allen yet none has equaled his series pace excitement or originality This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen's television episodes were good they were great and when they were bad they were still terrific fun
