## **A Strategy For Southern Europe Ideas Special Reports:**

**Southern Europe?** Martin Baumeister, Roberto Sala, 2015-10-08 Gegenwärtig erlebt der Süden Europas in der öffentlichen Debatte eine neue Konjunktur. Mit Vorliebe wird dabei ein europäischer Nord-Süd-Gegensatz heraufbeschworen, ohne jedoch auf seine lange Geschichte zu blicken. Wirtschaftlich und politisch unterentwickelt, unterschieden sich Italien, Spanien, Portugal und Griechenland nach dem Zweiten Weltkrieg von den sogenannten westeuropäischen Gesellschaften. Zu Beginn des 21. Jahrhunderts schien diese Ungleichheit überwunden. Nun droht die Schuldenkrise den Kontinent erneut zu spalten. Die Beiträge hinterfragen gängige Annahmen und Bilder von Südeuropa und ergründen, inwiefern der Süden einen homogenen Raum mit strukturellen Gemeinsamkeiten darstellt.

**Rethinking European Social Democracy and Socialism** Alan Granadino, Stefan Nygård, Peter Stadius, 2022-03-21 With a combined focus on social democrats in Northern and Southern Europe, this book crucially broadens our understanding of the transformation of European social democracy from the mid 1970s to the early 1990s. In doing so, it revisits the transformation of this ideological family at the end of the Cold War and before the launch of Third Way politics, and examines the dynamics and power relations at play among European social democratic parties in a context of nascent globalisation. The chronological, methodological and geographical approaches adopted allow for a more nuanced narrative of change for European social democracy than the hitherto dominant centric perspective. This book will be of key interest to scholars and students of social democracy, the European Centre-left, political parties, ideologies and more broadly to comparative politics and European politics and history. **Handbook on Cooperation, Interdependencies and Security in the Mediterranean** Elena Calandri, Karolina Golemo, Jesús Ventura-Fernández, 2024-11-29 This Handbook provides an essential overview of the contemporary dynamics of the Mediterranean region. Conceptualising the Mediterranean as both a socio-cultural area and a geopolitical entity, it considers the basin both as a whole and as a set of interacting subregions. Established scholars offer new perspectives and approaches from international history, postcolonial studies, migration studies, geography, private international law and public international law, environmental and tourism studies to reappraise the long-term trends and ruptures that shape security, interdependence and cooperation. These contributions explain the Mediterranean's long-established role as a crossroads and demonstrate the political, economic, ecological and cultural meanings of security. The book shows how interdependence in economic, environmental, cultural and human sectors continues to bind the Mediterranean together as migration flows across the sea. Environmental change requires common action, legal systems coexist and multifaceted identities grow. Cultural awareness and human rights remain on the political agenda. This volume will be an invaluable resource for graduate students, researchers and professionals seeking a comprehensive multidisciplinary approach to the historical, political, geographic and

socio cultural complexities challenges and potential of the area

**Small States in EU Policy-Making** Anna-Lena Högenauer, Matúš Mišík, 2024-04-30 Small States in EU Policy Making analyses how small states try to impact European Union policy making through a range of strategies With the last rounds of enlargement and Brexit the number and weight of small states in the European Union have steadily increased At the same time small states face distinct challenges in different institutions which may impact their strategies Nonetheless the existing literature primarily focuses on the Council of the European Union and the European Council and offers few insights into how small states navigate the other institutions The contributions to this volume examine how small states can wield influence in different institutions arguing that they do indeed pursue different strategies depending on institutional context The policy case studies on the EU's foreign and security policies confirm these findings small states can have influence in EU policy making and can create situations where their needs are met They are most likely to succeed when they build foreign policy coalitions when they anticipate major economic developments and when they manage to acquire a high level of expertise in a policy area However the case studies also show that there is a risk of small states becoming policy takers in cases where they cannot provide leadership in terms of ideas and expertise and or fail to build political weight through coalitions This book will be of interest to academics and practitioners of European politics and the EU in particular as well as policy makers and practitioners working on small states The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Scott,2016-10-04

Over recent decades International Relations scholars have investigated norm dynamics processes at some length with the norm entrepreneur concept having become a common reference point in the literature The focus on norm entrepreneurs has however resulted in a bias towards investigating the agents and processes of successful normative change This book challenges this inherent bias by explicitly focusing on those who resist normative change norm antipreneurs The utility of the norm antipreneur concept is explored through a series of case studies encompassing a range of issue areas and contributed by a mix of well known and emergent scholars of norm dynamics In examining the complexity of norm resistance particular attention is paid to the nature and intent of the actors involved in norm contestation the sites and processes of resistance the strategies and tactics antipreneurs deploy to defend the values and interests they perceive to be threatened by the entrepreneurs and whether it is the entrepreneurs or the antipreneurs who enjoy greater inherent advantages This text will therefore be of interest to scholars and students of International Relations International Law Political Science Sociology and History Building Democracy Geoffrey

Pridham, Eric Herring, George Sanford, University of Bristol. K Jain,2015-02-15 Despite a long historical experience of cultural economic political and social interaction with Europe South Asia has never been a region of frontline policy for the European Union which has gradually emerged as the largest trading partner of most South Asian economies a major contributor of developmental aid and home to a large diaspora mostly in the United Kingdom Containing nine chapters by emerging and leading scholars in the field this volume critically examines the motivations objectives and impact of the European Union s development cooperation economic and foreign policy towards South Asia It raises and seeks to answers questions like What role can the EU play in easing tensions between India and Pakistan in times of crisis Is there an official EU policy regarding Kashmir or the challenge of terrorism What is the nature and prospects of the India EU strategic partnership The book explores the European Union s concerns and policies towards fostering democracy in the region It assesses the crisis management capabilities of the EU in Afghanistan its role in conflict resolution in Sri Lanka and the patterns characteristics and challenges confronted by the South Asian diaspora in the United Kingdom The study will be of interest to all those engaged in the fields of political science international relations European politics and foreign policy and Indian and South Asian foreign policy      **China and EU** Jing Men,Annika Linck,2017-05-12

Reform and governance are of vital interest to both the People s Republic of China and the European Union EU China is facing demographic and environmental challenges and has been experiencing a rapid economic transition The social tensions arising from these challenges call for a governance system that will allow the Chinese leadership to alleviate social tensions without putting at risk their leadership A society which is becoming more diverse and facing problems of a global scale that also cause turmoil at the grass roots may be difficult to govern top down Notwithstanding the Communist Party of China s CPC grip on Chinese society there may be ways to integrate public opinion and civil society organisations in governmental decision making through reforms that do not challenge the current leadership The EU on the other hand faces the same global challenges with a very different and complex governance system EU foreign and security policy thus including EU policy towards China are governed by the EU s foreign policy principles which contain among others the promotion of democracy the rule of law and the universality and indivisibility of human rights and fundamental freedoms How successful can the EU be in advancing these principles when engaging with China while respecting the Chinese political system How can the EU and China find common grounds in their governance systems so as to enhance their strategic partnership in order to tackle global issues that need a coordinated approach      *Migration Control Logics and Strategies in Europe* Claudia

Finotelli,Irene Ponzo,2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very

idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions      *Marketing Information Guide* ,1962      *1974 Annual Supplement* Joan Schmitz Bergholt,2013-12-21
