**Treatise on White Magic** Alice A. Bailey,2012     *A Treatise On White Magic* Alice a Bailey,2022-11-18 Throughout the whole of this series of books runs a single thread uniting various aspects of life and specialised activities within the Plan for man This is the thread of consciousness evolving in man through the efforts of the soul to contact and control its personality equipment and evolving within the planet as the centre Hierarchy becomes increasingly able to impress the Plan on the minds of men This book therefore contains the Fifteen Rules for Magic and for soul control based on these words in the Bhagavad Gita Though I am Unborn the Soul that passes not away though I am the Lord of Being yet as Lord over My nature I become manifest through the magical power of the Soul The soul unmanifest in its essential being manifest through the nature of its personality equipment is always a source of mystery It evades the analytical concrete mind it reveals its true self to the illumined mind fused with the open heart seeking not to grasp and to hold for personal progress but to wield the magical power in service The power of the soul is always available to the one who seeks as an aspirant to accepted discipleship to become of practical service in his own peculiar times state and environment The teaching in this book is based on four fundamental postulates which will

- 1 Teach the laws of spiritual psychology as distinguished from mental and emotional psychology
- 2 Make clear the nature of the soul of man and its systemic and cosmic relationships This will include its group relationship as a preliminary step
- 3 Demonstrate the relations between the self and the sheaths which that self may use and thus clarify thought as to the constitution of man
- 4 Elucidate the problem of supernormal powers and give the rules for their safe and useful development

Through these underlying postulates runs the theme of energy of the one informing life as a centre of energy pervading and uniting all within the divine flow Man is essentially and inherently divine and the soul the centre of consciousness the result of the pervasive union of Spirit with matter is the means whereby man evolves a consciousness of divinity and unity redeems the gross matter of his vehicles and liberates the pure flame of life energy from the limitation of form The soul is the vital link therefore between God and man The book closes with a rousing call to the soul in all aspirants I close with an appeal to all who read these instructions to rally their forces to renew their vows of dedication to the service of humanity to subordinate their own ideas and wishes to the group good to take their eyes off themselves and fix them anew upon the vision Let all students make up their minds in this day of emergency and of opportunity to sacrifice all they have to the helping of humanity I call upon all of you to join the strenuous efforts of the Great Ones

Bailey said the work was dictated telepathically by the Tibetan Master Djwal Khul. It is offered as a basic textbook for the Western aspirant to initiation and is divided into fifteen rules of magic, each one taking the reader further into the mysteries of spirituality. Topics discussed include how an aspirant can best prepare himself for service, the various ray types of their influences, the relationship between the macrocosm and microcosm, the spiritual, causal, astral, and physical realms and their interactions, the spiritual psychology of man (although this is dealt with much more fully in the Esoteric Psychology volumes), The Hierarchy of Masters, esoteric groups and schools, the spiritual centers or chakras, the occult concept of the Seven Rays, meditation work, and much more. One of the main themes is that of soul control. Students of the works of Alice A. Bailey and Theosophy believe that the ultimate purpose of White Magic is furtherance of the spiritual and material evolution of humanity. Specifically, this evolution is conceived in terms of the increased benevolent manifestation of seven spiritual energies or Seven Rays. It is further believed that adept practitioners of White Magic, wielding the power of the Seven Rays, can contribute to this evolution.

**Rules for Spiritual Initiation** Zachary Lansdowne, 1990-05-01  
Zachary Lansdowne, author of earlier books on the Ageless Wisdom, reveals the esoteric significance of fourteen symbolic rules that were originally published by Alice A. Bailey. He shows that the symbols in each rule have both an outer and inner meaning. The outer meaning describes an objective in character building, and the inner meaning describes a stage in the process of meditation. The initial sequence of seven rules provides elementary instructions for the path of probation, leading to the first spiritual initiation, and the next sequence provides advanced instructions for the path of discipleship, leading to the second and third initiations. Lansdowne also discusses the close relationship between these rules and the typology of the seven rays. The end result is an easy-to-understand guidebook to the various stages of the spiritual path.

The Soul: The Quality of Life Alice A. Bailey, 2023-11-01  
This compilation from the books of Alice Bailey seeks to increase understanding of the immortal soul, addressing many aspects under sixty-two headings. The creative nature of the Soul, on its own plane, the soul knows no separation, and the factor of synthesis governs all soul relations. The soul is occupied not only with the form that the vision of its objective may take, but with the quality or the meaning which that vision veils or hides. The soul knows the Plan, its form.

outline methods and objective are known Through the use of the creative imagination the soul creates it builds thought forms on the mental plane and objectifies desire on the astral plane It proceeds then to externalise its thought and its desire upon the physical plane through applied force creatively actuated by the imagination of the etheric or vital vehicle Yet because the soul intelligence motivated by love it can within the realised synthesis which governs its activities analyse discriminate and divide The soul likewise aspires to that which is greater than itself and reaches out to the world of divine ideas and thus itself occupies a midway position between the world of ideation and the world of forms This is its difficulty and its opportunity
