Inheritance Matters Suzanne Lenon, Daniel Monk, 2023-09-21 This book makes a compelling case for placing the social and legal practices of inheritance centre stage to make sense of

fundamental questions of our time Drawing on historical literary sociological and legal analysis this rich collection of original interdisciplinary and international contributions demonstrates how inheritance is and has always been about far more than the set of legal processes for the distribution of wealth and property upon death The contributions range from exploring the intractable tensions underlying family disputes and the legal and political debates about taxation to revisiting literary plots in the past and presenting a contemporary artistic challenge of heirship With an introduction that presents a critical mapping of the field of inheritance studies this collection reveals the complexity of ideas about passing on legacies and heirlooms troubles some of the enduring consequences of charitable bequests family money and estate planning and deepens our understanding of the intimate and political practices of inheritance

Beyond Deviant Damsels Anne-Marie Kilday, David Nash, 2023-02-24 Using detailed case studies *Beyond Deviant Damsels* undermines many of the conventional assumptions about how women committed crime in the nineteenth century Previous historical accounts generally constructed gendered stereotypes of women acting in self defence being lesser accomplices to male criminals committing crimes that require little or no physical effort or pursuing supposedly female goals such as material acquisition This study counters these gendered assumptions by examining instances where women tested society's boundaries through their own actions ultimately presenting women as far more like men in their capacity and execution of criminal behaviour The book shows examples where women acted far beyond these stereotypes and showcases the existence of cultural discussion of open ended female misbehaviour in Victorian Britain leading us to question the very role of stereotyping in the history of criminality These individual challenges to a supposed gendered status quo in Victorian Britain did not produce spontaneous outrage nor were attempts at controlling and eradicating such behaviour coherent or successful As such Victorian society's treatment of women emerges as uncertain and confused as much as it was determinedly moralistic From this *Beyond Deviant Damsels* seeks to re evaluate our twenty first century perception of female criminals by indicating that historiography may have been responsible for limiting the picture of Victorian female criminality and behaviour from that time until the present

Arthur Morrison and the East End Eliza Cubitt,2019-02-21 This the first critical biography of Arthur Morrison 1863 1945 presents his East End writing as the counter myth to the cultural production of the East End in late Victorian realism Morrison s works particularly *Tales of Mean Streets* 1894 and *A Child of the Jago* 1896 are often discussed as epitomes of slum fictions of the 1890s as well as prime examples of nineteenth century realism but their complex contemporary reception reveals the intricate paradoxes involved in representing the turn of the century city Arthur Morrison and the East End examines how an understanding of the East End in the Victorian cultural imagination operates in Morrison s own writing Engaging with the

contemporary vogue for slum fiction Morrison redressed accounts written by outsiders positioning himself as uniquely knowledgeable about a place considered unknowable His work provides a vigorous challenge to the fictionalised East End created by his predecessors whilst also paying homage to Charles Dickens George Gissing Walter Besant and Guy de Maupassant Examining the London sites which Morrison lived in and wrote about this book is an excursion not into the Victorian East End but into the fictions constructed around it
