A Season Of Giving For Children:

The Cambridge Companion to Nineteenth-Century American Literature and Politics John D.

Kerkering, 2025-03-13 This volume addresses the political contexts in which nineteenth century American literature was conceived consumed and criticized It shows how a variety of literary genres and forms such as poetry drama fiction oratory and nonfiction engaged with political questions and participated in political debate The Last Children's Plague Richard J. Altenbaugh, 2015-09-16 Poliomyelitis better known as polio thoroughly stumped the medical science community Polio s impact remained highly visible and sometimes lingered exacting a priceless physical toll on its young victims and their families as well as transforming their social worlds This social history of infantile paralysis is plugged into the rich and dynamic developments of the United States during the first half of the twentieth century Children became epidemic refugees because of anachronistic public health policies and practices They entered the emerging clinical world of the hospital rupturing physical and emotional connections with their parents and siblings As they underwent rehabilitation they created ward cultures They returned home to occasionally find hostile environments and always discover changed relationships due to their disabilities The changing concept of the child from an economic asset to an emotional commitment medical advances and improved sanitation policies led to significant improvements in child health and welfare This study relying on published autobiographies memoirs and oral histories captures the impact of this disease on children's personal lives encompassing public health policies hospitalization philanthropic and organizational responses physical therapy family life and schooling It captures the anger frustration and terror not only among children but parents neighbors and medical professionals alike

Experience God as Your Provider Brian Kluth,2010-09-01 We are at a unique time in American history and our personal history when we need real help real hope and real answers for the day to day realities we re facing We live in a financial and work world that is experiencing rapid and unprecedented changes It is as if Americans have spent years building their financial houses that were like sand castles on the beach For a long time many of our sand castles looked beautiful and kept getting bigger in the sunshine of the day But now strong ocean tides and ground shaking tremors beyond our personal control are beginning to move in and our sand castles are beginning to crack and their very existence is being threatened This book was written to help you consider your ways and to consider God s Word Explore the idea of experiencing God as your provider begin to build your finances and life on the solid Rock of God s Word and learn to become a generous person This book is filled with Scriptures that will instruct and true stories that will inspire This is not a money management book but rather it is a book that will help you manage your life under leadership of Christ Formational Children's Ministry (emersion: Emergent Village resources for communities of faith) Ivy Beckwith, 2010-01-01 Much ministry to children looks more like mere entertainment than authentic spiritual formation But what if children s ministries were rooted in a mind set whereby we taught children with our words and actions how the story of God the story of church history the story of the

local community and the story of the child intersect and speak to one another What if children's ministry was less about downloading information into kids heads and more about leading them into these powerful compelling stories Beckwith aims to help ministers and parents create a ministry that captures children's imaginations not just to keep them occupied but to live as citizens of the kingdom of God In addition to providing theological reasons for formational children's ministry the book offers examples of how Ivy and other practitioners are implementing a formational model A Companion for the **Seasons of Maternal Solicitude** Thomas Searle, 1834 A Basic of the Supreme Enlightenment A Little Man, 2013-03-01 A Basic of the Supreme Enlightenment Book One is the first of four books in an intended series about the concept of supreme enlightenment It's been said that only a superior monk who trains day and night for 30 years in a remote jungle may be worthy of receiving the power of pure divinity Indeed the idea of The Supreme Enlightenment seems to be a concept that few on Earth can grasp This book serves as an introduction to supreme enlightenment It also explains how to control time solve problems and prolong life It is the first in a series of books dedicated to finding a reasonable means to balancing the idea of enlightenment with science Perhaps it is just possible that the highest forms of inspiration and enlightenment are right before our eyes The whole duty of man; or, The Christian's companion; containing the most important truths of our holy religion, etc. Illustrated with engravings by W. M. Craig Charles ATMORE, 1823
