Kevin Lacey, 2021-12-01 Free thinking poet grammarian social critic and satirist Ab al Al Ma'arr 973 1057 CE remains one of the more celebrated and intriguing personalities in the history of Arab Islamic civilization Although the controversies surrounding his skepticism cynicism and anticlericalism have never been completely resolved his more disquieting writings are commonly available in

the Arab world cited in standard histories of Arabic literature and the subject of scholarly studies Al Ma arr is universally recognized as a giant among the litterateurs of Islam deservedly famous for the role that he played in the development of Arabic verse as a more serious vehicle of religious political thought and social criticism The centrality attributed to al Ma arr as innovator has been linked to a strain of inquiry that has been particularly paramount to Westerners To what extent did al Ma arr and other unconventional thinkers stray from the course of mainstream Islamic thought In this book R Kevin Lacey places al Ma arr within the broader context of Arab Islamic political and intellectual history up to the mid eleventh century and identifies the coherencies and incoherencies within his overall thought in an effort to determine the extent to which he deviated from his inherited faith Al Ma arr and his like were hardly representative and their imprint on their co religionists may be questionable but they must be taken into consideration in order to do full justice to the intellectual history of Islam

**Relational Syllogisms and the History of Arabic Logic, 900-1900** Khaled El-Rouayheb, 2010-06-14 Relational inferences are a well known problem for Aristotelian logic This book charts the development of thinking about this anomaly from the beginnings of the Arabic logical tradition in the tenth century to the end of the nineteenth Based in large part on hitherto unstudied manuscripts and rare books the study shows that the problem of relational inferences was vigorously debated in the thirteenth fourteenth and fifteenth centuries In the course of the seventeenth and eighteenth centuries Ottoman logicians writing in Arabic came to recognize relational inferences as a distinct kind of unfamiliar syllogism and began to investigate their logic These findings show that the development of Arabic logic did not as is often supposed come to an end in the fourteenth century On the contrary Arabic logic was still being developed by critical and fecund reflections as late as the eighteenth and nineteenth centuries

**Philosophy of the Muslim World** Joseph Kenny, 2003      **American Journal of Islamic Social Sciences 22:2**

Mehmet Mahfuz Söylemez, Dieter Weiss, Haifaa Jawad, Abdus Samad, Norman D. Gardner, and Bradley J. Cook, 2005-03-15  
The American Journal of Islamic Social Sciences AJISS is an interdisciplinary journal that publishes a wide variety of scholarly research on all facets of Islam and the Muslim world anthropology economics history philosophy and metaphysics politics psychology religious law and traditional Islam Submissions are subject to a blind peer review process      *Believing Women in Islam* Asma Barlas, 2019-01-16 Does Islam call for the oppression of women Non Muslims point to the subjugation of women that occurs in many Muslim countries especially those that claim to be Islamic while many Muslims read the Qur'an in ways that seem to justify sexual oppression inequality and patriarchy Taking a wholly different view Asma Barlas develops a believer's reading of the Qur'an that demonstrates the radically egalitarian and antipatriarchal nature of its teachings Beginning with a historical analysis of religious authority and knowledge Barlas shows how Muslims came to read inequality and patriarchy into the Qur'an to justify existing religious and social structures and demonstrates that the patriarchal meanings ascribed to the Qur'an are a function of who has read it how and in what contexts She goes on to reread the Qur'an's position on a variety of issues in order to argue that its teachings do not support patriarchy To the contrary Barlas convincingly asserts that the Qur'an affirms the complete equality of the sexes thereby offering an opportunity to theorize radical sexual equality from within the framework of its teachings This new view takes readers into the heart of Islamic teachings on women gender and patriarchy allowing them to understand Islam through its most sacred scripture rather than through Muslim cultural practices or Western media stereotypes For this revised edition of *Believing Women in Islam* Asma Barlas has written two new chapters Abraham's Sacrifice in the Qur'an and Secular Feminism and the Qur'an as well as a new preface an extended discussion of the Qur'an's wife beating verse and of men's presumed role as women's guardians and other updates throughout the book
