This book is in The Guilford Practical Intervention in the Schools Series, edited by Sandra M. Chafouleas. [School Administrator Succession Planning](#) Lou L. Sabina, 2023-01-01. Across the United States and globally, school districts are regularly facing a shortage of both willing and highly qualified candidates to assume positions as school leaders. A number of factors have contributed to this shortage, including but not limited to: 1. retiring baby boomers leaving P-12 schools (ex. Aaronson & Carlson, 2004; Parylo & Wiedmer, 2015); 2. shifting demographics and population changes across the United States workforce and schools (ex. Betts & Urias, 2016; Brimley & Garfield, 2016; Miller & Mordechai, 2009; Norton, 2002; Yan, 2019); and 3. the shift of schools to 21st Century Learning centers, which have changed the role of school administrators (ex. Crow & Hausman, 2014). According to the National Bureau of Labor Statistics, the current demand for school principals continues to increase (Occupational Outlook Handbook, 2019) and will accelerate in the coming 10-20 years. Because of the high need for school administrators, many schools and school districts are creating unique, targeted, and innovative programs to find principals who can meet the changing needs in our school system.

Qualities of Effective Principals James H. Stronge, Holly B. Richard, Nancy Catano, 2008. Shows principals how to successfully balance the needs and priorities of their school and continuously develop and refine their leadership skills. *Singapore Teachers: Narratives Of Care, Hope And Commitment* Yanping Fang, 2016-03-15. The narratives and analysis included in this book were written by and derived from teacher participants in a post graduate course that the chief editor, Dr. Fang, has taught at the National Institute of Education, Singapore. Narrative inquiry has been used in the course to help teachers and school leaders make meaning of their personal and professional growth and learning trajectory. Narratives give them their own voice, which leads to a deeper understanding of their work and lives and informs teacher educators, researchers, and policy makers on ways to better support their professional learning and development. More than being a mere summary of teacher narratives, the overviews of each of the six parts of the book, written by the editorial team after many rounds of reading and re-reading, tease out patterns to usher readers into the narratives contained in each part in more informative and reflective ways. The final part, with two reflective essays and one research paper, explores more systematically the narrative experiences of the course participants, while the epilogue records the author's own journey in developing a narrative inquiry pedagogy in teacher education. The book is expected to benefit future course participants and local teachers as a resource for professional development and inform researchers and policymakers who are interested in understanding the lived experiences of teachers in Singapore and creating better teacher engagement in schools.

Migrant Teachers Lora Bartlett, 2014-01-01 Migrant Teachers investigates an overlooked trend in U S public schools today the growing reliance on teachers trained overseas as federal mandates require K 12 schools to employ qualified teachers or risk funding cuts A narrowly technocratic view of teachers as subject specialists has led districts to look abroad Lora Bartlett asserts resulting in transient teaching professionals with little opportunity to connect meaningfully with students Highly recruited by inner city school districts that struggle to attract educators approximately 90 000 teachers from the Philippines India and other countries came to the United States between 2002 and 2008 From administrators perspective these instructors are excellent employees well educated and able to teach subjects like math science and special education where teachers are in short supply Despite the additional recruitment of qualified teachers American schools are failing to reap the possible benefits of the global labor market Bartlett shows how the framing of these recruited teachers as stopgap low status workers cultivates a high turnover low investment workforce that undermines the conditions needed for good teaching and learning Bartlett calls on schools to provide better support to both overseas trained teachers and their American counterparts
