and a foreword by Jesse D. Jennings

A Trace Of Desert Waters The Great Basin Story

Christian G. Meyer

A Trace Of Desert Waters The Great Basin Story:

Desert Between the Mountains Michael S. Durham, 1999 On July 24 1847 a band of Mormon pioneers who had crossed the Great Plains and hauled their wagons over the Rocky Mountains descended into the Salt Lake valley They settled alongside the Indians there in an immense self contained region covering more than 220 000 square miles aptly named the Great Basin because its lakes and rivers have no outlet to the sea Within ten years of their arrival the Mormons had established nineteen communities extending all the way to San Diego California But theirs was not a story of splendid isolation The Mormon way of life was under a constant strain from interactions with miners soldiers explorers mountain men Indians the Pony Express railroad builders federal officials and an assortment of other Gentiles This is the definitive dramatic and multifaceted study of the Great Basin unifying its history with its geography **Hydrology and Water Resources**

Overview for the Nevada Nuclear Waste Storage Investigations, Nevada Test Site, Nye County, Nevada Richard H. French, Atef Elzeftawy, Bertrand Elliot, 1984 **The Ecology of Stream and Riparian Habitats of the Great Basin**

Region G. Wayne Minshall, Sherman E. Jensen, William S. Platts, 1989 **A Garden Of Bristlecones** Michael P. Cohen, 1998-09-01 An engaging well illustrated natural and cultural history of the oldest living organism the bristlecone pine Since Edmund Schulman discovered in 1958 that individual bristlecones live nearly 5 000 years the trees have been investigated primarily for the elaborate record their rings contain The trees have been read closely with major consequences for natural and human history Historians have read local and global environmental change Archaeologists have rewritten the history of civilization Writers have transformed them into figures pertinent to the human dilemmas of time and eternity A Garden of Bristlecones investigates professional and popular conceptions as a set of narratives drawn from the outside and inside of the trees It reveals the premises of the investigators the nature of their inquiry and the extent of their knowledge while also revealing the Great Basin bristlecone itself Illustrations by Valerie Cohen History of Nevada Russell R.

Elliott, 1987-01-01 Maintaining the same high standards of the first edition published in 1973 this new revised edition is still the most comprehensive one volume history of a state that was once thought of as a bridge to somewhere else In revising Elliott summarizes the state s economic political and social history since 1973 and strengthens a major point he made then that Nevada s acceptance of liberal marriage and divorce laws and of legalized gambling brought economic stability to a state singularly devoid of stable economic resources from Book Jacket **Newlands Project, Nevada: Reno, NV,**

December 11, 1993 United States. Congress. Senate. Committee on Energy and Natural Resources. Subcommittee on Water and Power, 1994 *Great Basin Aquatic Systems History* Donald R. Currey, 2002 Many Wests David M.

Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in

which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West's regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West's different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions

Cutthroat Pat Trotter, 2008 Cutthroat tells the full story of the genuine native trout of the American West This new edition thoroughly revised and updated after 20 years synthesizes what is currently known about one of our most interesting and colorful fishes includes much new information on its biology and ecology asks how it has fared in the last century and looks toward its future In a passionate and accessibly written narrative Patrick Trotter fly fisher environmental advocate and science consultant details the evolution natural history and conservation of each of the cutthroat's races and incorporates more personal reflections on the ecology and environmental history of the West's river ecosystems The bibliography now includes what may be the most comprehensive and complete set of references available anywhere on the cutthroat trout Written for anglers nature lovers environmentalists and students and featuring vibrant original illustrations by Joseph Tomelleri this is an essential reference for anyone who wants to learn more about this remarkable beautiful and fragile western native

The Great Basin Naturalist, 1983 Western Mojave Land Tenure Adjustment Project, San Bernardino County, 1988 **Proposed Issuance of a Permit Under Section 10(a)(1)(B) of The Endangered Species Act to Allow Incidental Take of the Endangered Pahrump Poolfish (*Empetrichthys Latos Latos*), Environmental Assessment (EA)**, 1995 A Desert Calling Michael A. Mares, 2009-07-01 For most of us the word desert conjures up

images of barren wasteland vast dry stretches inimical to life But for a great array of creatures the desert is a haven and a home Travel with Mares into the deserts of Argentina Iran Egypt and the American Southwest to encounter a rich and memorable variety of small tenacious animals *Catalog of Copyright Entries.
