Office of Education,1917     **Lessons in Community and National Life** United States. Office of Education,1918     Indian Country Martin Padget,2006 Indian Country analyzes the works of Anglo writers and artists who encountered American Indians in the course of their travels in the Southwest during the one hundred year period beginning in 1840 Martin Padget looks first at the accounts produced by government sponsored explorers most notably John Wesley Powell s writings about the Colorado Plateau He goes on to survey the writers who popularized the region in fiction and travelogue including Helen Hunt Jackson and Charles F Lummis He also introduces us to Eldridge Ayer Burbank an often overlooked artist who between 1897 and 1917 made thousands of paintings and drawings of Indians from over 140 western tribes Padget addresses two topics how the Southwest emerged as a distinctive region in the minds of late nineteenth and

early twentieth century Americans and what impact these conceptions and the growing presence of Anglos had on Indians in the region Popular writers like Jackson and Lummis presented the American Indians as a primitive culture waiting to be discovered and experienced firsthand Later as Padgett shows Anglo activists for Indian rights such as Mabel Dodge Luhan and Mary Austin worked for the acceptance of other views of Native Americans and their cultures     **Letters from the Southwest, September 20, 1884 to March 14, 1885** Charles Fletcher Lummis, 1989 Lummis other set of letters to the Los Angeles times are well known as the basis for his A Tramp across the continent Chas Scribner s Sons 1892 These are the 24 letters written to the Chillicothe Leader They are more robust than the Times versions which were more deliberately crafted more commercial An essential for Western collections Annotation copyrighted by Book News Inc Portland OR

Reimagining Indians Sherry L. Smith, 2000-11-09 Reimagining Indians investigates a group of Anglo American writers whose books about Native Americans helped reshape Americans understanding of Indian peoples at the turn of the twentieth century Hailing from the Eastern United States these men and women traveled to the American West and discovered exotics in their midst Drawn to Indian cultures as alternatives to what they found distasteful about modern American culture these writers produced a body of work that celebrates Indian cultures religions artistry and simple humanity Although these writers were not academically trained ethnographers their books represent popular versions of ethnography In revealing their own doubts about the superiority of European American culture they sought to provide a favorable climate for Indian cultural survival in a world indisputably dominated by non Indians They also encouraged notions of cultural relativism pluralism and tolerance in American thought For the historian and general reader alike this volume speaks to broad themes of American cultural history Native American history and the history of the American West
