A White Teacher Talks About Race:

A White Teacher Talks about Race Julie Landsman, 2009-03-16 Veteran teacher Julie Landsman leads the reader through a day of teaching and reflection about her work with high school students who are from a variety of cultures. She speaks honestly about issues of race, poverty, institutional responsibility, and white privilege by engaging the reader in the experiences of a day in the classroom with some of her remarkable students. Throughout the day we meet bigotry head on, struggle with questions of racial identity, and find cultural conflict in the corridors of the school building. Along the way we come face to face with Tyrone, a young African American student grappling with the realities of discrimination in suburbia. We encounter Sheila, a teenage mother struggling to raise her baby in poverty, and we get to know Sarah, a white girl living on the streets of Minneapolis. Through the author's eyes we begin to understand the complexities of teaching in today's society, and we learn within the pages of this book if only just for a moment what it feels like to be the other. White Women

Getting Real About Race Judith M. James, Nancy Peterson, 2023-07-03 For many White women teachers and teachers in training who represent the majority of our teaching force today, the issue of race is fraught with discomfort. It may challenge assumptions, evoke a sense of guilt, or give rise to a fear of making mistakes or saying the wrong thing. This book presents the first person stories of White women teachers who tell us not only how they have grappled with race in diverse classrooms but how they continue to this day to be challenged by issues of color and privilege. These are no stories of heroic feats or achievement of perfection but stories of self-disclosure that lay bare their authors' emotions, ideas, curiosity, vulnerability, and reflections as they engaged with race and challenged practices of color blindness and empathetic distance. Avoiding abstract educational lingo, these teachers come clean about the emotional cost of dealing with racism, White privilege, and fear of being racist in our rapidly diversifying schools. Admitting their cultural mistakes, they hope their readers can find a safe place to use theirs for honest dialogue and positive learning. In approaching chapter authors for this book, the editors asked the writers to ask themselves: Will my well-being and sense of self be at risk if I tell this story? Recognizing what's at stake, they wanted writers who would be real with themselves. The women in this book hope that their stories will resonate with readers, help them feel less alone, and give them courage to begin a dialogue with colleagues, friends, staff, and administrators around race concerns. Each chapter concludes with a few questions to prompt self-reflection at home or for use as exercises to use in small groups or staff development training. **Talking About Race** Steven Grineski, Julie Landsman, Robert Simmons

III, 2023-07-03 What is it that gives many of us White people a visceral fear about discussing race? Do you realize that being able to not think about or talk about it is a uniquely White experience? Do you warn your children about how people might react to them? Find store staff following or watching you get stopped by the police for no reason? The students of color in your classroom experience discrimination every day in small and large ways. They don't often see themselves represented in their textbooks and encounter hostility in school and outside. For them, race is a constant reality, and an issue they need and want

Race Talk in White Schools Mara Simon, Laura

Azzarito, 2020-11-12 Racial segregation and desegregation practices have deeply impacted the teacher pipeline contributing to historical assumptions of teaching as a white profession The Brown vs Board of Education rulings while couched within a narrative of social progress have instead been a step backwards for racial equity in schools The authors use Critical Race Theory and Critical Whiteness Studies to demonstrate how teachers of color are racialized through the centering of whiteness in schools minoritized in contrast to their white counterparts and de centered through performativities of race and whiteness as ideologies The authors share small teaching episodes from eight Black Latina and Asian female teachers who all work in predominantly white schools illuminating the ways the teachers resisted discourses of whiteness by enacting agency within their teaching contexts From the historical backdrop of racism and segregation to theoretical underpinnings the counterstories of the teachers presented in this book indicate how teachers might utilize their personal experiences of marginalization to problematize invisible racism colorblindness and white neutrality moving towards an empowered sense of self The collective narrative highlights the potential for culturally relevant and sustaining pedagogies to support teachers of color in negotiating whiteness and working for social justice

Becoming a White Antiracist Stephen D. Brookfield, Mary E. Hess, 2023-07-03

As this book was being written the United States exploded in outrage against the murder by police of people of color across the country Corporations branches of state and local government and educational institutions all pledged to work for racial justice and the Black Lives Matters movement moved into the mainstream as people from multiple

racial and class identities pledged their support to its message Diversity initiatives abounded mission statements everywhere were changed to incorporate references to racial justice and the rampant anti blackness endemic to US culture was brought strikingly to the surface Everywhere it seemed white people were looking to learn about race What do we do How can we help These were the cries the authors heard most frequently from those whites whose consciousness of racism was being raised This book is their answer to those cries It s grounded in the idea that white people need to start with themselves with understanding that they have a white racial identity Once you ve learned about what it means to be white in a white supremacist world the answer of what can I do becomes clear Sometimes you work in multiracial alliances but more often you work with white colleagues and friends In this book the authors explore what it means for whites to move from becoming aware of the extent of their unwitting collusion in racism towards developing a committed antiracist white identity They create a road map or series of paths that people can consider traveling as they work to develop a positive white identity centered around enacting antiracism The book will be useful to anyone trying to create conversations around race teach about white supremacy arrange staff and development workshops on racism and help colleagues explore how to create an antiracist culture or environment This work happens in schools colleges and universities and we suspect many readers will be located in K 12 and higher education But helping people develop an antiracist identity is a project that occurs in corporations congregations community groups health care state and local government arts organizations and the military as well Essentially if you have an interest in helping the whites you interact with become antiracist then this book is written very specifically for you Watch our BWAR YouTube playlist where authors Stephen Brookfield and Mary Hess chat about some common themes from the book *White Teachers / Diverse Classrooms* Julie Landsman, Chance W. Innovations in Educational Ethnography George Spindler, Lorie Hammond, 2012-10-12 This volume focuses on and exemplifies how ethnography a research tool devoted to looking at human interaction as a cultural process rather than individual psychology can shed light on educational processes framed by the complex internationalized societies in which we live today Part I offers theoretical chapters about ethnography and examples of innovative ethnography from particular perspectives In Part II the emphasis is on the application of ethnographic approaches to educational settings Each contribution not only takes the reader on a thoughtful and enlightening journey but raises issues that are important to both educators and ethnographers including the relationship of researcher to subject the meaning of participant in participant observation and ways to give voice to disenfranchised

players and on the complex ways in which all parties experience identities such as race in the modern world

Innovations in Educational Ethnography: Theory, Methods, and Results is a product of both continuity and change. It presents current writings from mentors in the field of ethnography and education as well as the work of their students and of educators engaged in cultural studies of their work. In many ways it provides fresh new vistas on the old questions that have always guided ethnographic research and can be used as a survey both of what ethnography has been and what it is becoming. This book is the work of many hands and provides excellent examples of trends in both basic and applied ethnography of education. These two kinds of work augment and reinforce each other and also represent important current research directions in depth reflection on the process of ethnography itself and an application of its insights to teaching and learning in schools, universities, and communities. No one philosophy guides the contributions to this volume nor were they chosen as exemplary of a particular approach, yet foundational understandings and principles of ethnography shine through the work in both predictable and unexpected ways.

Becoming Teachers of Inner-city Students James C. Jupp, 2013-11-19

Becoming Teachers of Inner-city Students takes on the continuing challenges of White teachers in increasingly de facto re-segregated schools of the present. Drawing on the author's eighteen years of experience as a classroom teacher and his research on White teachers of inner-city students, *Becoming Teachers* provides key discussions on professional identity for preservice teachers, professional educators, and researchers interested in diversity education or urban education. Driving at complex recognitions of race, class, culture, language, and gender as a basis for teaching and learning with diverse urban students, the author's and other White teachers' life and teaching stories move beyond prescriptive models of professional identity for preservice and professional teachers to follow. Instead, life and teaching stories in *Becoming Teachers* demonstrate again and again that in teaching the personal is political; professional knowledges are forged in practice and overall that becoming a professional teacher is a process that draws on one's experiences and innermost convictions. *Becoming Teachers* updates Vivian Paley's *White Teacher* and reworks Christine Sleeter's multicultural research on White teachers' race evasive identities, moving discussions on White teacher identity toward a second wave of race-visible professional identity for White teachers in the present. James Jupp's book is an instruction on how to keep the democratic educational experiment on the workbench.

Roger Slee, Professor and Director of the Victoria Institute for Education, Diversity, and Life-Long Learning at Victoria University, Melbourne

James Jupp thoughtfully explicates the complexity of the social justice literature in education related to race, class, culture, language, gender, and other differences in classrooms. Jupp is one of the leading scholars in education who challenges static notions of difference and opens up new curriculum spaces for a second wave of critical race work. Challenging the field to consider more nuanced possibilities that will advance social justice in the present, Jupp provides generous readings for new intercultural alliances. Jupp's *Becoming Teachers of Inner-city Students* offers a fresh understanding for those who are looking for new ways to understand teachers' lives and professional identities. Patrick
