The Columbia Anthology of Modern Japanese Literature J. Thomas Rimer, 2007-04-24 In Volume 2 of Columbia's comprehensive anthology of modern Japanese literature thoughtfully selected and carefully translated readings portray the vast changes that have transformed Japanese culture since the end of the Pacific War. Beginning with the Allied Occupation in 1945 and concluding with the early twenty-first century, these stories, poems, plays, and essays reflect Japan's heady transition from poverty to prosperity, its struggle with conflicting ideologies and political beliefs, and the growing influence of popular culture on the country's artistic and intellectual traditions. Organized chronologically and by genre, within each period readings include fiction by Hayashi Fumiko and Oe Kenzaburo, poems by Ayukawa Nobuo, Katsura Nobuko, and Saito Fumi, plays by Mishima Yukio and Shimizu Kunio, and a number of essays among them Eto Jun on Natsume Soseki and his brilliant novel *Kokoro*, The Heart of Things, and Kawabata Yasunari on the shape of his literary career and the enduring influence of classical Japanese literature. Some authors train a keen eye on the contemporary world, while others address the historical past and its relationship to modern culture. Some adopt an even broader scope and turn to European models for inspiration, while others look inward, exploring psychological and sexual terrain in new, often daring ways. Spanning almost six decades, this anthology provides a thorough introduction to a profound period of creative activity.

No Short Journeys Cecil Robinson, 2022-07-12 These thirteen essays comprise a richly patterned quilt, expertly addressing the influence of Mexico and Latin and South America upon the North American imagination. Cecil Robinson's impressive breadth of expertise, his fascinating interpretations, make this collection of essays invaluable regional reading. The bibliography alone is a treasure, a gift from a man whose life's work was to form a bridge of humanistic understanding between the two primary cultures of the New World.

El Palacio In graceful prose, the longtime English professor leads readers on a leisurely stroll through the literary landscape of the Southwest. *Journal of Arizona History* Does more for reconstructing American literature than any of the contemporary American literature anthologies that are on the market today. Strongly recommended. Choice

Judging Lincoln Frank J. Williams, 2007-03-28 Judging Lincoln collects nine of the most insightful essays on the topic of the sixteenth president, written by Frank J. Williams, chief justice of the Rhode Island Supreme Court, and one of the nation's leading authorities on Abraham Lincoln. For Judge Williams, Lincoln remains the central figure of the American experience, past, present, and future. Williams begins with a survey of the interest in and influence of Lincoln, both at home and abroad, and then moves into an analysis of Lincoln's personal character with respect to his ability to foster relationships of equality among his intimates. Williams then addresses Lincoln's leadership abilities during the span of his career, with particular emphasis on the Civil War. Next, he compares the qualities of Abraham Lincoln, Franklin Delano Roosevelt, and Winston Churchill. The final essay, cowritten with Mark E. Neely Jr., concerns collecting Lincoln artifacts as a means of preserving and fostering the Lincoln legacy.
