literature and film's engagement with landscape and environment

Surviving the Future David Fleming, Shaun Chamberlin, 2016-08-04 *Surviving the Future* is a story drawn from the fertile ground of the late David Fleming's extraordinary *Lean Logic: A Dictionary for the Future and How to Survive It*. That hardback consists of four hundred and four interlinked dictionary entries inviting readers to choose their own path through its radical vision. Recognizing that *Lean Logic*'s sheer size and unusual structure can be daunting, Fleming's long-time collaborator Shaun Chamberlin has selected and edited one of these potential narratives to create *Surviving the Future*. The content, rare insights, and uniquely enjoyable writing style remain Fleming's but are presented here at a more accessible paperback length and in conventional front-to-back format. The subtitle *Culture, Carnival, and Capital in the Aftermath of the Market Economy* hints at Fleming's vision. He believed that the market economy will not survive its inherent flaws beyond the early decades of this century and that its failure will bring great challenges, but he did not dwell on this. We know what we need to do: We need to build the sequel to draw on inspiration which has lain dormant like the seed beneath the snow. *Surviving the Future* lays out a compelling and powerfully different new economics for a post-growth world. One that relies not on taut competitiveness and eternally increasing productivity putting the grim into reality, but on the play, humor, conversation, and reciprocal obligations of a rich culture. Building on a remarkable breadth of intellectual and cultural heritage from Keynes to Kumar, Homer to Huxley, Mumford to MacIntyre, Scruton to Shiva, Shakespeare to Schumacher, Fleming describes a world in which, as he says, there will be time for music. This is the world that many of us want to live in, yet we are told it is idealistic and unrealistic. With an evident mastery of both economic theory and historical precedent, Fleming shows that it is not only desirable but actually the only system with a realistic claim to longevity. With friendliness, humor, and charm, *Surviving the Future* plucks this vision out of our daydreams and shows us how to make it real. Step into the world of David Fleming; you'll be so glad you did. Rob Hopkins, cofounder of the Transition Network

Performative Representation of Working-Class Laborers Jennifer Vanderpool, Colin Gardner, 2024-06-29 *Performative Representation of Working-Class Laborers: They Work Hard for the Money* is a transdisciplinary anthology intersecting art theory, praxis, comparative literature, film, media studies, performance art, ethnic studies, gender studies, age/aging, geography, and labor studies. The book investigates and analyzes artwork created by artists or collectives working within the dialogue of Postmodernism and current global arts production. The focus on the performative aspect of labor as art and affect becomes more sensate and less about the exploited body of labourers, liberating the representation of waged bodies and further diversifying the field of Working-Class Studies

The Sociologist's Eye Kai T. Erikson, 2017-08-22 A masterful introduction to and appreciation of sociology as a window into our world. The culmination of a distinguished career, this fascinating exploration into the nature of human social life describes the field of sociology as a way of looking at the world rather than as a simple gathering of facts about it. Kai Erikson notes that sociologists look out at the same human scenes as poets, historians, economists, or any other observers of the vast social landscape spread out before

them but select different aspects of that vast panorama to focus on and attend to Erikson's lively and accessible volume considers how sociology became a field of study and how it has turned its attention over time to new areas of study such as race and gender and what Erikson calls social speciation. This book provides readers with new ways of thinking about human culture and social life, an exhilarating sense of what the world looks like when viewed with a sociologist's eye. *The Ties that Bound* Barbara A. Hanawalt, 1986. Barbara A. Hanawalt's richly detailed account offers an intimate view of everyday life in Medieval England that seems at once surprisingly familiar and yet at odds with what many experts have told us. She argues that the biological needs served by the family do not change and that the ways fourteenth and fifteenth century peasants coped with such problems as providing for the newborn and the aged, controlling premarital sex, and alleviating the harshness of their material environment in many ways correspond with our twentieth century solutions. Using a remarkable array of sources including over 3 000 coroners' inquests into accidental deaths, Hanawalt emphasizes the continuity of the nuclear family from the middle ages into the modern period by exploring the reasons that families served as the basic unit of society and the economy. Providing such fascinating details as a citation of an incantation against rats, evidence of the hierarchy of bread consumption, and descriptions of the games people played, her study illustrates the flexibility of the family and its capacity to adapt to radical changes in society. She notes that even the terrible population reduction that resulted from the Black Death did not substantially alter the basic nature of the family. *King of the Norfolk Poachers, The: His Life and Times* Charlotte Paton, 2009-10-01. In the early 1930s an elderly mole catcher became the subject of one of East Anglia's best loved tales of country life. I Walked by Night. Over sixty years later Norfolk writer Charlotte Paton became fascinated by this man and set out to find the truth about him, beginning with his name, Frederick Rolfe. Charlotte conducted exhaustive research, providing a vibrant account with plenty of social history. This book is the biography of a difficult man who could inspire devotion but came to a tragic end. **Earls Colne's Early Modern Landscapes** Dolly MacKinnon, 2016-04-29. The Essex village of Earls Colne boasts one of the most comprehensive collections of historical documents in Britain and has been the subject of an intensive and ongoing research project to collate and computerise the surviving records. As such, Earls Colne is undoubtedly one of the most studied parishes in England. Yet whilst much is now known about the village and its inhabitants, little work has been done on the social relationships that bound the community together within its mental and physical landscape. As such, scholars will welcome Dr MacKinnon's investigation into the social, political, and cultural world of early modern England as represented by Earls Colne. The book provides a fresh approach to the study of the landscape of a seventeenth century village by focussing on the relationships between political power and cultural artefacts. It examines how private, public, and communal spaces within society were generated, gendered, and governed, and how this was recorded and perpetuated in the records, names, and monuments of the parish and surrounding landscape. Yet whilst the elites tried to represent a select social landscape through their control of the local records and documents, these attempts were always

counterbalanced by the less powerful members of the community who occupied and contested these spaces By reconstructing the dynamics of Earls Colne through a careful reading and cross referencing of the surviving documents buildings and place names this book offers a fascinating insight into how the sights and sounds of early modern society were imbued with the social relations of parish politics As well as deepening our understanding of Earls Colne itself the book offers historians the potential to revisit other local studies from a fresh perspective Voice of the Past Paul Thompson,2000-03-16 Presents an introduction to the use of oral sources by the historian Secularization in the Long 1960s Clive D. Field,2017 Using empirical research this study provides a clear guide to the current state of the debate surrounding secularization in Britain during the long 1960s *Princeton Alumni Weekly* ,1969 Contemporary Authors New Revision Pamela Dear,2000-06 This volume of Contemporary Authors R New Revision Series brings you up to date information on approximately 250 writers Editors have scoured dozens of leading journals magazines newspapers and online sources in search of the latest news and criticism Writers appearing in this volume include Gail Anderson Dargatz Valerie Martin Isidore Okpewho Philip Roth Writing the Rural Professor Paul J Cloke,Professor Marcus A Doel,Dr David Matless, PhD,Professor Nigel Thrift,Dr Martin Phillips,1994-07-28 This book arises out of an ESRC project devoted to an examination of the economic social and cultural impacts of the service class on rural areas The research was an attempt to document these impacts through close empirical work in a set of three rural communities but something happened on the way The authors found that the rural became a real sticking point Respondents used it in different ways as a bludgeon as a badge as a barometer to signify many different things security identity community domesticity gender sexuality ethnicity nearly always by drawing on many different sources the media the landscape friends and kin animals It became abundantly clear that the rural whatever chameleon form it took was a prime and deeply felt determinant of the actions of many respondents Yet it was also clear that to the authors they possessed no theoretical framework that could allow them to negotiate the rural to deconstruct its diverse nature as a category Rather each of the extended essays in the book is an attempt by each author to draw out one aspect of the rural by drawing on different traditions in social and cultural theory **Obra reunida de Patricia Shaw: Literatura renacentista** Patricia Shaw Fairman,2000 **Rural Society and the Search for Order in Early Modern Germany** Thomas Robisheaux,2002-07-25 For the rural societies of Germany the early sixteenth century was a time of massive upheavals In this probing study of village life based upon rich manuscript sources from the old County of Hohenlohe Thomas Robisheaux seeks to understand how petty German princes Lutheran pastors and villagers struggled to create order out of their confusing world The Hohenlohe region experienced all of the turmoil associated with the sixteenth century including a peasant near rising in 1600 the brutal effects of the wage price scissors chronic shortages of land famines impoverishment and the destructive cycles of war By using concepts borrowed from anthropology Professor Robisheaux looks for the way social hierarchy and discipline countered the disruptive changes of the age The years between

1550 and 1620 saw new sources of stability and order created in the family through systematized customs of inheritance through market relationships and in the practice of state power within the village
