The Papacy: Revisiting the Debate Between Catholics and Orthodox Erick Ybarra, 2022-11-22 The Lord Jesus Christ intended his kingdom present on earth the Church of God to be one holy catholic and apostolic Prior to the Protestant Reformation in the sixteenth century history tells of the most egregious division in the Church between the Latin West and Byzantine East in AD 1054 and following How can it be that Catholics and Orthodox share a thousand years of ecclesial life together in one faith sacramental order and hierarchical government only to have that bond of communion broken Historians and theologians throughout the years have spilled much ink in recounting the causes and effects of this dreadful and heart wrenching division and among the many debates that exist between Catholics and Orthodox none are as vital to the task of reconciliation as the subject of the papacy In *The Papacy Revisiting the Debate between Catholics and Orthodox* Erick Ybarra examines sources from the first

millennium with a fresh look at how methodology and hermeneutics plays a role in the reading of the same texts In addition he conducts a detailed investigation into the most significant points of history in order to show what was clearly accepted by both East and West in their years of ecclesiastical unity In light of this clear evidence the reader of *The Papacy* is free to decide whether contemporary Catholicism or Eastern Orthodoxy has maintained the heritage of the first millennium on the understanding of the Papal office

political history of the central Middle Ages by focusing on the alliances between popes and rulers who claimed a special relationship with the successor of St Peter Rather than seeing these relationships as attempts by the popes to assert their lordship and monarchy over the entire world as many past narratives have this study asks what rulers got out of these relationships what they meant and how they were constructed Papal government in fact much pre modern government in general was based around replying to petitions Thus rulers and subjects by entering into a relationship with the pope were able to petition Rome and have their requests approved and given the sanction of papal authority Papal power was enlisted in the causes of petitioners All of these relationships between the popes and the kings of England Aragon Sicily Hungary Portugal and a myriad of further polities have at one time or another been called feudal a word that explains little or nothing about the nature and expectations of the alliance The second strand of this study examines how these relationships were constructed and how words and concepts circulated Eventually terms like fief and vassal and ideas about deposition of vassal kings were introduced into the political discourse around papal authority over their kings It always remained the case however that rulers sought out papal overlordship because of the opportunity it gave them to adopt and adapt papal power for their own purposes
