A Strange Stirring By Coontz Stephanie Basic Books 2011 Hardcover:

The American Popular Novel After World War II David Willbern, 2013-04-05 Through the perspectives of selected best selling novels from the end of World War II to the end of the 20th century including *The Catcher in the Rye* *To Kill a Mockingbird* *The Godfather* *Jaws* *Beloved* *The Silence of the Lambs* and *Jurassic Park* this book examines the crucial issues the U S was experiencing during those decades These novels represent the voices of popular conversations as Americans considered issues of family class racism and sexism feminism economic ambition sexual violence war law religion and science Through the windows of fiction the book surveys the Cold War and anti communism the prefeminist era of the 1950s and the sexual revolution of the 1970s forms of corporate power in the 1960s and 1980s the traumatic legacies of slavery and Vietnam the American fascination with lawyers cops and criminals alternate styles of romance in the era of late capitalism our abiding distrust of science and our steadfast wonder about the Great Mysteries

Class Divide Howard Gillette, Jr., 2015-05-21 Members of the Yale College class of 1964 the first class to matriculate in the 1960s were poised to take up the positions of leadership that typically followed an Ivy League education Their mission gained special urgency from the inspiration of John F Kennedy s presidency and the civil rights movement as it moved north Ultimately these men proved successful in traditional terms in the professions in politics and in philanthropy and yet something was different Challenged by the issues that would define a new era their lives took a number of unexpected turns Instead of confirming the triumphal perspective they grew up with in the years after World War II they embraced new and often conflicting ideas In the process the group splintered In *Class Divide* Howard Gillette Jr draws particularly on more than one hundred interviews with representative members of the Yale class of 64 to examine how they were challenged by the issues that would define the 1960s civil rights the power of the state at home and abroad sexual mores and personal liberty religious faith and social responsibility Among those whose life courses Gillette follows from their formative years in college through the years after graduation are the politicians Joe Lieberman and John Ashcroft the Harvard humanities professor Stephen Greenblatt the environmental leader Gus Speth and the civil rights activist Stephen Bingham Although their Ivy League education gave them access to positions in the national elite the members of Yale 64 nonetheless were too divided to be part of a unified leadership class Try as they might they found it impossible to shape a new consensus to replace the one that was undone in their college years and early adulthood
