

Challenging Transition Theory: The Labor Movement, Radical Reform, and Transition to Democracy in South Africa

GLENN ADLER and EDDIE WEBSTER

INTRODUCTION

The truly remarkable nature of South Africa's transition was captured in the election and the inauguration of Nelson Mandela as the new president during the last week of April and the first week of May 1994. Contrary to widespread expectations of violence descending into chaos, the three voting days were among the most peaceful in the country's recent history. Whites and Blacks queued for hours—indeed days in some cases—to cast their votes. For South Africans, it became a deeply emotional experience, with the overwhelming majority of eligible voters participating in this first-ever democratic election. The atmosphere of euphoria carried through into the following week of national celebrations, culminating in an all-day gathering outside the former seat of White political domination, the Union Buildings in Pretoria. Music and dancing provided by South Africa's best entertainers continued well into the night, and similar scenes of jubilation were repeated throughout the country.

However, the ambiguous character of this astonishing climax to South Africa's transition to democracy was clearest when Mandela stepped from his automobile to be ushered to the inaugural platform by none other than the White general

We thank Erik Olin Wright for his extremely valuable comments on two earlier drafts of this article which helped us specify our model, and for his computer skills in generating the figures contained in the article. We also thank Lorie Karvonen for his useful comments as discussant on our article at the International Sociological Association meeting in Bielefeld, Germany, in July 1994. We acknowledge John Saul for sharing his work on unions and transitions in South Africa and for very constructive discussions, which helped clarify our argument.
