We Do Language Anne H. Charity-Hudley, Christine Mallinson, 2013-12-13 *We Do Language* builds on the authors highly acclaimed first collaboration *Understanding English Language Variation in U S Schools* and examines the need to integrate linguistically informed teaching into the secondary English classroom The book meets three critical goals for preparing English educators to ensure the academic success of their students First the book helps educators acquire a greater knowledge of language variation so they may teach their students to analyze the social cultural and linguistic dimensions of the texts they read in class Second the chapters provide specific information about language varieties that students bring with them to school so that educators can better assist students in developing the literacy skills necessary for the Common Core State Standards Third the text empowers educators to build their linguistic awareness so they may more fully understand respect and meet the needs of culturally and linguistically diverse students *We Do Language* features concrete strategies models and vignettes as well as classroom materials developed by English educators for English educators It is essential reading for anyone interested in learning about the role that language plays in the experiences of students both in secondary and postsecondary environments Full of advice and support for walking hand in hand with students into imaginative ways of understanding the realities of language variation this book is pure joy for teachers and college counselors Even more important is the guarantee that when these educators embrace the humanity and philosophy so touchingly illustrated by the authors the intrigue of thinking deeply about speaking writing and reading is sure to follow for students Shirley Brice Heath Margery Bailey Professor of English Dramatic Literature and Professor of Linguistics Emerita Stanford University *We Do Language* is an enabling tool for helping teachers and those who prepare them to face perhaps better than we ever have the challenge of schooling in the English language arts for the 21st century From the Foreword by Jacqueline Jones Royster Ivan Allen Chair in Liberal Arts and Technology and Dean Ivan Allen College of Liberal Arts Georgia Institute of Technology Long overdue and much needed African American English is here to stay and this book affirms and supports educators and African American students their language and their culture I can t thank the authors enough for writing this powerful thought provoking and critical analysis of language variation Donna Ford Harvie Branscomb Distinguished Professor of Special Education and Teaching and Learning Peabody College of Education Vanderbilt University Anne H Charity Hudley is associate professor of education English linguistics and Africana studies at the College of William Mary in Williamsburg Virginia Christine Mallinson is associate professor in the Language Literacy and Culture Program and affiliate associate professor in the Gender and Women s Studies Program at the University of Maryland Baltimore County UMBC

Confucius Russell Roberts, The name Confucius has come down to us today from the distant past Although he lived thousands of years ago in a place and time before any type of mass media and or communications existed much beyond

that of the spoken word the wisdom of Confucius has survived over the centuries His sayings and philosophy are still widely practiced today a remarkable achievement for someone who exists primarily in the dusty pages of Juvenile Nonfiction History General BISAC books While we know much about the teachings of Confucius we know little about him personally Although the details of his life are sketchy at best they are sometimes surprising and often quite remarkable To learn about Confucius himself and his amazing life can be just as rewarding and fulfilling as reading his philosophy School Library Journal ,2010
