

GUIDE TO ACTION RESEARCH CHAPTER

WHAT IS ACTION RESEARCH?

Action research is a model of professional development where educators study student learning related to their own teaching, a process that allows them to learn about their own instructional practices and to continue to monitor improved student learning.

the approach

APPROACHES TO ACTION RESEARCH

Action research is a process that teachers can use in their classrooms to address instructional questions and challenges.

Individual teacher research

Focuses on studying a problem or issue within a single classroom.

The teacher who engages in individual teacher research may or may not have support from colleagues and administration to share.

Collaborative action research

Focuses on studying a problem or issue within one or more classrooms.

Teachers may collaborate and work together to study a particular problem in many different ways.

School-wide action research

Every faculty member of the school is involved in studying a specific issue identified from school data.

BENEFITS OF ACTION RESEARCH

Action research is a model of professional development where educators study student learning related to their own teaching, a process that allows them to learn about their own instructional practices and to continue to monitor improved student learning.

STUDENTS

benefits because their learning is being studied

TEACHERS

The process allows them to think about, study, and refine their own professional practice.

SCHOOLS

student achievement can improve when student learning is being studied and specific learning needs are being addressed.
