## **A Taste For Language Literacy Class And English Studies:**

**A Taste for Language** James Ray Watkins, 2009-11-02 This is a book about the American Dream as it has become embodied in the university in general and in the English department in particular writes James Ray Watkins at the start of *A Taste for Language Literacy Class and English Studies* In it Watkins argues that contemporary economic and political challenges require a clear understanding of the identity of English studies making elementary questions about literacy language literature education and class once again imperative A personal history of university level English studies in the twentieth century *A Taste for Language* combines biography autobiography and critical analysis to explore the central role of freshman English and literary studies in the creation and maintenance of the middle class It tells a multi generational story of the author and his father intertwined with close reading of texts and historical analysis The story moves from depression era Mississippi where the author's father was born to a contemporary English department where the author now teaches Watkins looks at not only textbooks scholars and the academy but also at families and other social institutions A rich combination of biography autobiography and critical analysis *A Taste for Language* questions what purpose an education in English language and literature serves in the lives of the educated in a class based society and whether English studies has become wholly irrelevant in the twenty first century *Writing Program Administration and the Community College*

Heather Ostman, 2013-10-01 From the history of the community college in the United States to current issues and concerns facing writing programs and their administrators and instructors *Writing Program Administration and the Community College* offers a comprehensive look into writing programs at public two year institutions **Critical Expressivism** Tara Roeder, Roseanne Gatto, 2015-04-15 *Critical Expressivism* is an ambitious attempt to re appropriate intellectual territory that has more often been charted by its detractors than by its proponents Indeed as Peter Elbow observes in his contribution to this volume As far as I can tell the term expressivist was coined and used only by people who wanted a word for people they disapproved of and wanted to discredit The editors and contributors to this collection invite readers to join them in a new conversation one informed by a belief that the term expressivism continues to have a vitally important function in our field

*First Semester* Jessica Restaino, 2012-02 Using a three part theoretical construct labor action and work as defined in Hannah Arendt's work of political and social theory *The Human Condition* and rich qualitative data gathered from course observations interviews and correspondence Jessica Restaino looks at the experiences of four new graduate students who are first year writing teachers at Public U a large state university **Antiracist Writing Assessment Ecologies** Asao B. Inoue, 2015-11-08 In *Antiracist Writing Assessment Ecologies* Asao B Inoue theorizes classroom writing assessment as a complex system that is more than its interconnected elements To explain how and why antiracist work in the writing classroom is vital to literacy learning Inoue incorporates ideas about the white racial habitus that informs dominant discourses in the academy and other contexts **Before Shaughnessy** Kelly Ritter, 2009-08-06 In *Before Shaughnessy*

Basic Writing at Yale and Harvard 1920 1960 Kelly Ritter uses materials from the archives at Harvard and Yale and contemporary theories of writing instruction to reconsider the definition of basic writing and basic writers within a socio historical context Ritter challenges the association of basic writing with only poorly funded institutions and poorly prepared students Using Yale and Harvard as two sample case studies Ritter shows that basic writing courses were alive and well even in the Ivy League in the early twentieth century She argues not only that basic writers exist across institutional types and diverse student populations but that the prevalence of these writers has existed far more historically than we generally acknowledge Uncovering this forgotten history of basic writing at elite institutions Ritter contends that the politics and problems of the identification and the definition of basic writers and basic writing began long before the work of Mina Shaughnessy in *Errors and Expectations* and the rise of open admissions Indeed she illustrates how the problems and politics have been with us since the advent of English A at Harvard and the heightened consumer based policies that resulted in the new admissions criteria of the early twentieth century American university In order to recognize this long standing reality of basic writing we must now reconsider whether the nearly standardized nationalized definition of basic is any longer a beneficial one for the positive growth and democratic development of our first year writing programs and students

**Digital Griots** Adam J. Banks, 2011-03-16 Scholar Adam J Banks offers a mixtape of African American digital rhetoric in his innovative study *Digital Griots African American Rhetoric in a Multimedia Age* Presenting the DJ as a quintessential example of the digital griot high tech storyteller this book shows how African American storytelling traditions and their digital manifestations can help scholars and teachers shape composition studies thoroughly linking oral print and digital production in ways that centralize African American discursive practices as part of a multicultural set of ideas and pedagogical commitments DJs are models of rhetorical excellence canon makers time binders who link past present and future in the groove and mix and intellectuals continuously interpreting the history and current realities of their communities in real time Banks uses the DJ s practices of the mix remix and mixtape as tropes for reimagining writing instruction and the study of rhetoric He combines many of the debates and tensions that mark black rhetorical traditions and points to ways for scholars and students to embrace those tensions rather than minimize them This commitment to both honoring traditions and embracing futuristic visions makes this text unique as do the sites of study included in the examination mixtape culture black theology as an activist movement everyday narratives and discussions of community engagement Banks makes explicit these connections rarely found in African American rhetoric scholarship to illustrate how competing ideologies vernacular and academic writing sacred and secular texts and oral print and digital literacies all must be brought together in the study of African American rhetoric and in the teaching of culturally relevant writing A remarkable addition to the study of African American rhetorical theory and composition studies *Digital Griots African American Rhetoric in a Multimedia Age* will compel scholars and students alike to think about what they know of African American rhetoric in fresh and useful ways

*Everyday Genres* Mary Soliday, 2011-02-07 In *Everyday Genres* Writing Assignments across the Disciplines Mary Soliday calls on genre theory which proposes that writing cannot be separated from social situation to analyze the common assignments given to writing students in the college classroom and to investigate how new writers and expert readers respond to a variety of types of coursework in different fields This in depth study of writing pedagogy looks at many challenges facing both instructors and students in college composition classes and offers a thorough and refreshing exploration of writing experience ability and rhetorical situation Soliday provides an overview of the contemporary theory and research in Writing across the Curriculum programs focusing specifically on the implementation of the Writing Fellows Program at the City College of New York Drawing on her direct observations of colleagues and students at the school she addresses the everyday challenges that novice writers face such as developing an appropriate stance in one's writing and the intricacies of choosing and developing content The volume then goes on to address some of the most pressing questions being asked by teachers of composition To what extent can writing be separated from its situation How can rhetorical expertise be shared across fields And to what degree is writing ability local rather than general Soliday argues that while writing is closely connected to situation general rhetorical principles can still be capably applied if those situations are known The key to improving writing instruction she maintains is to construct contexts that expose writers to the social actions that genres perform for readers Supplementing the author's case study are six appendixes complete with concrete examples and helpful teaching tools to establish effective classroom practices and exercises in Writing across the Curriculum programs Packed with useful information and insight *Everyday Genres* is an essential volume for both students and teachers seeking to expand their understanding of the nature of writing
