Drilling for Water Raymond Rowles, 2017-09-29 There have been very few if any books of a practical nature covering the art of drilling holes in the ground especially for water Some rather lengthy tomes are and have been available over the years which have been pretty well incomprehensible to the average field man or indeed those responsible for the administration of field operations Most of those books have been written by people with peripheral disciplines to the industry thus haven't had the field experience to really get hold of the

heart of the matter Drilling for Water 2 has been written to be understandable to field personnel and in their own terms Everything in it is based on considerable field experience Following the publication of Drilling for Water many accolades were forthcoming such as packed with information my bible most welcome a breath of fresh air couldn t put it down etc
