**A Visual Defense** Robert Velarde, 2013      Beyond the Wager Douglas Groothuis, 2024-04-02 There was more to Blaise Pascal than his wager an argument about the existence of God In this accessible study philosopher Douglas Groothuis introduces readers to Pascal s life as well as the breadth of his intellectual pursuits overviewing the key points of his Pens es and exploring his views on culture politics and more      *In Defense of Miracles* R. Douglas Geivett, Gary R. Habermas, 2025-10-16 Rumors of deception have surrounded claims of Jesus resurrection ever since the soldiers appointed to guard his tomb made their report to the Jewish authorities But no one has led the philosophic charge against miracles quite as influentially as David Hume with his 1748 essay *Of Miracles* Refined revised restated his arguments still affect philosophic discussions of miracles today During the twentieth century strong arguments have been raised by Antony Flew professor emeritus at Keele University in England Flew has contributed a fresh statement of his objections to the idea of God s acting in history just for this volume which also includes Hume s classic critique as a part of the case against miracles In response Douglas Geivett and Gary Habermas have assembled a distinguished team of scholars to rebut the objections and set forth the positive case for God s action in history Richard Purtill clarifies the word miracle while Norman Geisler critiques Hume s case against miracles Francis Beckwith and Winfried Corduan assess how we would recognize miracles in the past and in the present Ronald Nash examines naturalism s exclusion of miracles and shows its self referential incoherence J P Moreland discusses whether science properly rules out the possibility of miracles God s existence and action in history are probed by David Beck and Stephen Davis while Douglas Geivett argues that within a theistic framework it is reasonable to expect miracles as confirmation of claims to special revelation David Clark examines miracles within the context of various world religions Robert Newman John Feinberg William Lane Craig and Gary Habermas conclude by investigating fulfilled prophecy the virgin birth and incarnation of Jesus the empty tomb and the resurrection appearances *In Defense of Miracles* is a comprehensive up to date discussion that should not be overlooked by anyone concerned with the current debate over miracles      Textual and Visual Representations of Power and Justice in Medieval France Rosalind Brown-Grant, Anne D. Hedeman, Bernard Ribémont, 2016-12-05 Thoroughly interdisciplinary in approach this volume examines how concepts such as the exercising of power the distribution of justice and transgression against the law were treated in both textual and pictorial terms in works produced and circulated in medieval French manuscripts and early printed books Analysing texts ranging from romances political allegories chivalric biographies and catalogues of famous men and women through saints lives mystery plays and Books of Hours to works of Roman canon and customary law these studies offer new insights into the diverse ways in which the language and imagery of politics and justice permeated French culture particularly in the later Middle Ages Organized around three closely related themes the prince as a just ruler the figure of the judge and the role of the queen in relation to matters of justice the issues addressed in these studies such as what constitutes a just war what

treatment should be meted out to prisoners what personal qualities are needed for the role of lawgiver and what limits are placed on women's participation in judicial processes are ones that are still the subject of debate today What the contributors show above all is the degree of political engagement on the part of writers and artists responsible for cultural production in this period With their textual strategies of exemplification allegorization and satirical deprecation and their visual strategies of hierarchical ordering spatial organization and symbolic allusion these figures aimed to show that the pen and paintbrush could aspire to being as mighty as the sword wielded by Lady Justice herself *Jewish Culture and Society in Medieval France and Germany* Ivan G. Marcus, 2023-04-14 These studies explore the history of the Jewish minority of Ashkenaz northern France and the German Empire during the High Middle Ages Although the Jews in medieval Europe are usually thought to have been isolated from the Christian majority they actually were part of a Jewish Christian symbiosis A number of studies in the collection focus on Jewish Christian cultural and social interactions the foundations of the community ascribed to Charlemagne and especially on the fashioning of a martyrological collective identity in 1096 Even when Jews resisted Christian pressures they often did so by internalizing Christian motifs and turning them on their heads to argue for the truth of Judaism alone This may be seen especially in the formation of Jews as martyrs a trope that places Jews as collective Christ figures whose suffering brings about vicarious atonement The remainder of the studies delve into the lives and writings of a group of Jewish ascetic pietists Hasidei Ashkenaz which shaped the religious culture of most European Jews before modernity In *Sefer Hasidim* Book of the Pietists attributed to Rabbi Judah the Pietist of Regensburg d 1217 one finds a mirror of everyday Jewish Christian interactions even while the author advances a radical view of Jewish religious pietism

**Heritage or Heresy** B. Schildgen, 2016-01-23 This is an account of the roles of local and national movements and of memory and regret in the destruction or preservation of the architectural artistic and historic legacy of Europe in which the author examines what is cultural heritage and why it matters [The Quest for Jewish Belief and Identity in the Graphic Novel](#) Stephen E. Tabachnick, 2014-06-30 Many Jewish artists and writers contributed to the creation of popular comics and graphic novels and in *The Quest for Jewish Belief and Identity in the Graphic Novel* Stephen E Tabachnick takes readers on an engaging tour of graphic novels that explore themes of Jewish identity and belief The creators of Superman Jerry Siegel and Joe Shuster Batman Bob Kane and Bill Finger and the Marvel superheroes Stan Lee and Jack Kirby were Jewish as was the founding editor of *Mad* magazine Harvey Kurtzman They often adapted Jewish folktales like the Golem or religious stories such as the origin of Moses for their comics depicting characters wrestling with supernatural people and events Likewise some of the most significant graphic novels by Jews or about Jewish subject matter deal with questions of religious belief and Jewish identity Their characters wrestle with belief or nonbelief in God as well as with their own relationship to the Jews the historical role of the Jewish people the politics of Israel and other issues related to Jewish identity In *The Quest for Jewish Belief and Identity in the Graphic Novel* Stephen E Tabachnick delves into the vivid kaleidoscope of Jewish beliefs and

identities ranging from Orthodox belief to complete atheism and a spectrum of feelings about identification with other Jews. He explores graphic novels at the highest echelon of the genre by more than thirty artists and writers among them Harvey Pekar *American Splendor*, Will Eisner *A Contract with God*, Joann Sfar *The Rabbi's Cat*, Miriam Katin *We Are On Our Own*, Art Spiegelman *Maus*, J. T. Waldman *Megillat Esther*, Aline Kominsky Crumb *Need More Love*, James Sturm *The Golem's Mighty Swing*, Leela Corman *Unterzakhn*, Ari Folman and David Polonsky *Waltz with Bashir*, David Mairowitz and Robert Crumb's biography of Kafka and many more. He also examines the work of a select few non-Jewish artists such as Robert Crumb and Basil Wolverton, both of whom have created graphic adaptations of parts of the Hebrew Bible. Among the topics he discusses are graphic novel adaptations of the Bible, the Holocaust, graphic novels about the Jews in Eastern and Western Europe and Africa, and the American Jewish immigrant experience, graphic novels about the lives of Jewish women, the Israel-centered graphic novel, and the Orthodox graphic novel. The book concludes with an extensive bibliography. No study of Jewish literature and art today can be complete without a survey of the graphic novel, and scholars, students, and graphic novel fans alike will delight in Tabachnick's guide to this world of thought, sensibility, and artfulness.

**Material Perspectives on Religion, Conflict, and Violence**, 2022-09-12. How do objects become contested in settings characterized by violent conflict? Why are some things contested by religious actors? How do religious actors mobilize things in conflict situations, and how are conflict and violence experienced by religious groups? This volume explores relations between materiality, religion, and violence by drawing upon two fields of scholarship that have rarely engaged with one another: research on religion and violent conflict, and the material turn within religious studies. This way, this volume sets the stage for the development of new conceptual and methodological directions in the study of religion-related violent conflict that takes materiality seriously. Contributors are Christoph Baumgartner, Margaretha van Es, Lucien van Lier, Erik Meinema, Birgit Meyer, Daan F. Oostveen, Younes Saramifar, Joram Tarusarira, Tammy Wilks.

**Christian Martyrdom and Christian Violence**, Matthew D. Lundberg, 2021. What is the place, if any, for violence in the Christian life? This book explores this question by analyzing a paradox of mainstream Christian history, theology, and ethics. At the heart of the Christian story, the suffering of violence stands as the price of faithfulness. From Jesus himself to martyrs who have died while following him, at the core of Christian faith is an experience of being victimized by the world's violence. At the same time, the majority opinion for most of Christian history has held that there are situations when the follower of Jesus may be justified in inflicting violence on others, especially in the context of war. Do these two facets of Christian ethics and experience, martyrdom and the just war, represent a contradiction, the self-defeating irony of those who follow a Lord who refused to defend himself, taking up deadly weapons? In arguing that they do not, the book contends that any meaningful coherence between a theology of martyrdom and commitment to a just war ethic requires a shift away from a common heroic conception of Christian martyrdom and a common secularized Realpolitik conception of necessary violence. Instead, it requires a view of martyrdom that acknowledges even the

martyrs as subject to the ambiguities of the human condition even as they present a compelling witness to Jesus and the way of the cross And it requires an approach to justified violence that reflects the self sacrificial ethos of Jesus displayed in the lives of true Christian martyrs     *History of the Christian Church ...* Philip Schaff,1891     **Archaic Greek Epigram and Dedication** Joseph W. Day,2010-10-28 By the end of the Archaic period Greek sanctuaries were bursting with dedications including many that bore epigrams This study views dedications comprehensively as sites of ritual efficacy and in particular it recovers epigrams reflections of and contributions to that efficacy and restores them to an important place in the panorama of Greek religious practice In order to reconstruct the Archaic experience of reading and viewing the book draws on studies of traditional poetic language as resonant with immanent meaning early Greek poetry as socially and religiously effective performance and viewing art as an active response of aesthetic appreciation It argues that reading epigrams while viewing dedications generated effects of religious ritual and poetic performance and that visual and verbal representation of the dedicator s act of offering associated that rite with similar effects thereby framing the experiences of readers and viewers as reperformances of the earlier occasion     **History of the Christian Church. **A Politic Theatre: The Drama of David Hare** Scott Fraser, 2022-06-08 This analysis of twenty published texts by David Hare employs definitions from contemporary semiotic literary theory as a means of describing typologies of political drama By tracing the incorporation of stylistic devices from agitational propaganda caricature self referentiality the frisson between oral and visual signification throughout the typologies the study illustrates how each text subverts audience expectation based on established dramatic genres The collection of texts is seen as inherently self referential and politically subversive At the centre of each typology is a protagonist who functions as a martyr to or parodic emblem of contemporary society Consistently the hermeticism of public institutions which represent the political status quo makes them immune from any form of individual protest from the Left or Right In the satirical anatomy the emblem of political dissent is coopted by involvement within the institution or the stage is dominated by a conservative who controls the action In the demythology private individuals are seen as incapable of altering the public frame of history but here private suffering subverts the collective mythology of the historical construct In the martyrology the emblem of dissent is associated with a moral virtue which is inimical to contemporary society the audience s expectation of the triumph of the individual being subverted when he she is expelled from the onstage world on the grounds of political ideology It is only in the final typology the conversion that a conservative emblem is seen as directly influenced by such martyrdom and the audience is provided with an actual example of political change Thus the study describes how each typology builds on the construction of the previous and all generate from agitational propaganda
