A Womans Overland Journal To California:

A Woman's Overland Journal to California Mary Rockwood Powers,1950 **Women and Indians on the Frontier, 1825-1915** Glenda Riley,1984 Study of life for white women and Indians during the expansion west Westering Women and the Frontier Experience, 1800-1915 Sandra L. Myres,1982 Contains letters journals and reminiscences showing the impact of the frontier on women s lives and the role of women in the West **Women's Diaries of the Westward Journey** Lillian Schlissel,2011-08-03 An expanded edition of one of the most original and provocative works of American history of the last decade which documents the pioneering experiences and grit of American frontier women **The Frontier Army in the Settlement of the West** Michael L. Tate,2001-10-01 A reassessment of the military s role in developing the Western territories moves beyond combat stories and stereotypes to focus on more non martial accomplishments such as exploration gathering scientific data and building towns **Wagon Wheel Kitchens** Jacqueline B. Williams,1993 Re creates the highs and lows of cooking and eating on the Oregon Trail *With Golden Visions Bright Before Them* Will Bagley,2012-10-01 During the mid nineteenth century a quarter of a million travelers men women and children followed the road across the plains to gold rush California This magnificent chronicle the second installment of Will Bagley s sweeping Overland West series captures the danger excitement and heartbreak of America s first great rush for riches and its enduring consequences With narrative scope and detail unmatched by earlier histories With Golden Visions Bright Before Them retells this classic American saga through the voices of the people whose eyewitness testimonies vividly evoke the most dramatic era of westward migration Traditional histories of the overland roads paint the gold rush migration as a heroic epic of progress that opened new lands and a continental treasure house for the advancement of civilization Yet according to Bagley the transformation of the American West during this period is more complex and contentious than legend pretends The gold rush epoch witnessed untold suffering and sacrifice and the trails and their trials were enough to make many people turn back For America s Native peoples the effect of the massive migration was no less than ruinous The impact that tens of thousands of intruders had on Native peoples and their homelands is at the center of this story not on its margins Beautifully written and richly illustrated with photographs and maps With Golden Visions Bright Before Them continues the saga that began with Bagley s highly acclaimed award winning *So Rugged and Mountainous Blazing the Trails to Oregon and California 1812 1848* hailed by critics as a classic of western history »Gold Fever« and Women Sigrid Schönfelder,2023-02-06 Throughout its history the American West symbolized a place of hope and new beginnings where anything was possible especially for men However the history written until the 1970s and 1980s excluded women Sigrid Schönfelder illustrates how the American West served as a catalytic gold mine for many transformations for women It draws on the life narratives of three healthcare providers whose devotion within the social reform movements of the long nineteenth century contributed significantly to shaping healthcare policies Their stories show how women contributed to place making in the West and served as role

models for other women to enter the field of medicine

Gender and Generation on the Far Western Frontier Cynthia Culver Prescott, 2016-06 As her family traveled the Oregon Trail in 1852 Mary Ellen Todd taught herself to crack the ox whip Though gender roles often blurred on the trail families quickly tried to re establish separate roles for men and women once they had staked their claims For Mary Ellen Todd who found a secret joy in having the power to set things moving this meant trading in the ox whip for the more feminine butter churn In *Gender and Generation on the Far Western Frontier* Cynthia Culver Prescott expertly explores the shifting gender roles and ideologies that countless Anglo American settlers struggled with in Oregon s Willamette Valley between 1845 and 1900 Drawing on traditional social history sources as well as divorce records married women s property records period photographs and material culture Prescott reveals that Oregon settlers pursued a moving target of middle class identity in the second half of the nineteenth century Prescott traces long term ideological changes arguing that favorable farming conditions enabled Oregon families to progress from accepting flexible frontier roles to participating in a national consumer culture in only one generation As settlers children came of age participation in this new culture of consumption and refined leisure became the marker of the middle class Middle class culture shifted from the first generation s emphasis on genteel behavior to a newer genteel consumption This absorbing volume reveals the shifting boundaries of traditional women s spheres the complicated relationships between fathers and sons and the second generation s struggle to balance their parents ideology with a changing national sense of class consciousness

A Day at a Time Margo Culley, 1985 Gathers diary selections describes the historical background of each writer and discusses the changing function and content of diaries

Desert Passages Patricia Nelson Limerick, 1985 Traces the development of American attitudes toward the desert using case studies from many writers over the years

The Frontiers of Women's Writing Brigitte Georgi-Findlay, 1996-05 A study of American women s writings about the West between 1830 and 1930 reviews the diaries of the overland trails letters and journals of the wives of army officers during the Indian wars professional travel writings and late 19th and early 20th century accounts of missionaries and teachers on Indian reservations

Women Writers of the American West, 1833-1927 Nina Baym, 2011-03-01 *Women Writers of the American West 1833 1927* recovers the names and works of hundreds of women who wrote about the American West during the nineteenth and early twentieth centuries some of them long forgotten and others better known novelists poets memoirists and historians such as Willa Cather and Mary Austin Holley Nina Baym mined literary and cultural histories anthologies scholarly essays catalogs advertisements and online resources to debunk critical assumptions that women did not publish about the West as much as they did about other regions Elucidating a substantial body of nearly 650 books of all kinds by more than 300 writers Baym reveals how the authors showed women making lives for themselves in the West how they represented the diverse region and how they represented themselves Baym accounts for a wide range of genres and geographies affirming that the literature of the West was always more than cowboy tales and

dime novels Nor did the West consist of a single landscape as women living in the expanses of Texas saw a different world from that seen by women in gold rush California Although many women writers of the American West accepted domestic agendas crucial to the development of families farms and businesses they also found ways to be forceful agents of change whether by taking on political positions deriding male arrogance or as their voluminous published works show speaking out when they were expected to be silent *Gunsmoke and Saddle Leather* Charles G. Worman, 2005-12-15 The many roles played by guns in the old West with personal accounts by many early settlers and hundreds of photos **African American Women Confront the West, 1600-2000** Quintard Taylor, Shirley Ann Wilson Moore, 2008-08-01 Reconstructs the history of black women's participation in western settlement A stellar collection of essays by talented authors who explore fascinating topics *Journal of American Ethnic History* **African American Women Confront the West 1600 2000** is the first major historical anthology on the topic The editors argue that African American women in the West played active though sometimes unacknowledged roles in shaping the political ideological and social currents that have influenced the United States over the past three centuries Contributors to this volume explore African American women's life experiences in the West their influences on the experiences of the region's diverse peoples and their legacy in rural and urban communities from Montana to Texas and from California to Kansas The essayists explore what it has meant to be an African American woman from the era of Spanish colonial rule in eighteenth century New Mexico to the black power era of the 1960s and 1970s *Journal of Education*, 1895 **The Californians**, 1994 **The Journal of Education** Thomas Williams Bicknell, Albert Edward Winship, Anson Wood Belding, 1895 **Covered Wagon Women** Martha E. Montoya, David Duniway, Kenneth L. Holmes, 1999-04-01 The overland trails in the 1860s witnessed the creation of stage stations to facilitate overland travel These stations placed every twenty or thirty miles ensured that travelers would be able to obtain grain for their livestock and food for themselves They also sped up the process of mail delivery to remote Western outposts Tragically the easing of overland travel coincided with renewed conflicts with the Cheyenne and other Plains Indians The massacre of Black Kettle's people at Sand Creek instigated two years of bloody reprisals and counterreprisals Amid this turmoil and change these daring women continued to build on the example set by earlier women pioneers As Harriet Loughary wrote upon her arrival in California after two thousands of miles in an ox team making an average of eighteen miles a day enduring privations and dangers When we think of the earliest pioneers we feel an untold gratitude towards them
