English in Primary Education Summer, Theresa, Böttger, Heiner, 2023-03-27 This volume focuses on the teaching of English as a foreign language to young learners at primary school. The volume features an introduction that covers essentials of teaching English to young learners from a theoretical, empirical, and neuroscientific perspective, while also discussing the notion of a principled mindset, competence development, transcultural learning, the use of materials and literature, and lesson planning. The subsequent contributions cover reading and writing, bilingual programs, the transition from primary to secondary school, storybooks, the importance of self-selected fiction, anti-bias education, ways of encouraging young learners to speak, and professional advice for primary English language educators based on a qualitative analysis of interviews. Based on an international TEFL lecture series, researchers, teacher educators, and practising teachers from Germany, Switzerland, and the United States share their insights into these central issues and offer theoretical concepts for the professional development of pre-service primary school English teachers. Practical ideas and examples included in this volume aim to make theoretical constructs accessible and relatable for future teachers of English. The afterword features a look ahead by critically examining future challenges of primary school educators and highlighting 1. the great importance of an early start with English as a foreign language and 2. the need for developing national educational standards. This volume provides a research-based and practice-oriented foundation for pre-service English teachers wishing to expand their knowledge and gain an insight into recent developments in foreign language learning theories and concepts. Although mostly aimed at primary school educators, particularly the introductory chapter will be equally relevant for university students or teachers focusing on vocational and secondary school teaching so that they develop an understanding of specific features of primary English language education and as concerns secondary school teachers can contribute to a smooth transition in the fifth grade.

Yo' Mama, Mary Mack, and Boudreaux and Thibodeaux Jeanne Pitre Soileau, 2016-12-14 Winner of the 2018 Chicago Folklore Prize and Winner of the 2018 Opie Prize. Jeanne Soileau, a teacher in New Orleans and south Louisiana for more than forty years, examines how children's folklore, especially among African Americans, has changed. From the tumult of integration to the present, her experience afforded unique opportunities to observe children as they played. With integration in New Orleans during the 1960s, Soileau notes how children began to play with one another almost immediately. Children taught each other play routines, chants, jokes, jump rope, rhymes, cheers, taunts, and teases. All the folk games that happen in normal play on the street and playground. When adults, the judges and attorneys, the parents, and the politicians haggled and shouted, children began to hold hands in a circle, fall down,

together to Ring around the Rosie and tease each other in new and creative ways Children s ability to adapt can be seen not only in their response to social change but in how they adopt and utilize pop culture and technology Vast technological changes in the last third of the twentieth century influenced the way children sang danced played and interacted Soileau catalogs these changes and studies how games evolve and transform as much as they are preserved She includes several topics of study oral narratives and songs jokes and tales and teasing formulae gleaned from mostly African American sources Because much of the field work took place on public school playgrounds this body of oral narratives remains of particular interest to teachers folklorists linguists and those who study play In the end Soileau shows that despite the restrictions of air conditioning shorter recess periods ever increasing hours of television watching the growing popularity of video games and carefully scripted after school activities many children in south Louisiana sustain traditional games At the same time they invent varied and clever new ones As Soileau observes children strive through their folk play to learn how to fit into a rapidly changing society

REJECTED: How the Media Excluded Alternative Candidates in the 2008 Primary Michael Soha, 2008-09-15 In the 2008 Presidential primary three largely unknown candidates emerged to challenge the status quo and call for major reform in Washington Dennis Kucinich and Mike Gravel on the Democratic side and Ron Paul on the Republican side This book focuses on their experience in trying to run for president against a political media institution that neither valued nor wanted their presence Using their experience as a case study the power and influence of our media in shaping what choices we face on election day is examined As a critique this text stands to indict the mainstream press for failing to provide a diverse group of candidates and in turn severely truncating our democratic process

The American Robot Dustin A. Abnet, 2020-03-27 Although they entered the world as pure science fiction robots are now very much a fact of everyday life Whether a space age cyborg a chess playing automaton or simply the smartphone in our pocket robots have long been a symbol of the fraught and fearful relationship between ourselves and our creations Though we tend to think of them as products of twentieth century technology the word robot itself dates to only 1921 as a concept they have colored US society and culture for far longer as Dustin A Abnet shows to dazzling effect in *The American Robot* In tracing the

history of the idea of robots in US culture Abnet draws on intellectual history religion literature film and television He explores how robots and their many kin have not only conceptually connected but literally embodied some of the most critical questions in modern culture He also investigates how the discourse around robots has reinforced social and economic inequalities as well as fantasies of mass domination chilling thoughts that the recent increase in job automation has done little to quell The American Robot argues that the deep history of robots has abetted both the literal replacement of humans by machines and the figurative transformation of humans into machines connecting advances in technology and capitalism to individual and societal change Look beneath the fears that fracture our society Abnet tells us and you re likely to find a robot lurking there From This Side of Things , American Muckraker James O'Keefe,2022-01-25 ON POWER They do have tremendous power But in part it is because we give it to them We are nothing but we are not alone Awe cannot live in fear The moment you stop caring about what the media establishment thinks of you is the moment you become truly free ON INSIDERS The USPS whistleblower a Marine Corps combat veteran said I would rather be back in Afghanistan getting shot at by Afghans honest to God than be interrogated by federal agent Russell Strasser who coerced him by saying I am trying to twist you a little bit because your mind will kick in I am not scaring you but I am scaring you ON PRIVACY The right to record is closely tied to the right to speak or even to take contemporaneous notes about what one sees and hears As 60 Minutes producer Don Hewitt quipped People committing malfeasance don t have any right to privacy What are we saying that Upton Sinclair shouldn t have smuggled his pencil in ON MEANS it is only that which makes you feel better than you would otherwise ON LITIGATION Polling does not decide the truth nor speak to evidence The New York Times have not met their burden to prove that Veritas is deceptive claiming protections from an upstart competitor armed with a cell phone and a website There is a substantial basis in law to proceed to permit Project Veritas to conduct discovery into The New York Times Project Veritas v New York Times Company New York Supreme Court March 18 2021 1970 MemoryFountain Music: Relive Your 1970 Memories Through Music Trivia Game Book Layla, Bridge Over Troubled Water, Let It Be by Beatles, and More!
