Albatros Aces Of World War I Osprey Aircraft Of The Aces No 3:

Aces of Jagdgeschwader Nr III Greg VanWyngarden, 2016-01-20 Royal Prussian Jagdgeschwader Nr III was the third of Germany's vaunted fighter wings to be formed during World War 1. Commanded by the Pour le Mérite winner and well-respected ace Hauptmann Bruno Loerzer, for its entire existence it was composed of the celebrated Jasta Boelcke along with Jagdstaffeln 26, 27 and 36. Equipped largely with the new Fokker triplane, these four units would play an important role in the Kaiserschlacht as part of the 17. Armee. As Germany's fortunes waned in the summer of 1918, the aces of JG III nonetheless did their best to stem the tides of British, French and later American aircraft they encountered. Aces such as Carl Bolle, Paul B. Umer, Heinrich Bongartz, Hermann Frommherz, Rudolf Klimke and the infamous Hermann Göring all carved their names in the record books flying in this formidable formation. This book examines the tactics, achievements and personalities of one of the deadliest of Germany's aerial units.

Austro-Hungarian Albatros Aces of World War 1 Paolo Varriale, 2012-12-20 A detailed account of how aces of the calibre of Brumowski, Kiss and Linke Crawford did their best in their Albatros fighters, which often sported colourful and fanciful insignias. Austro-Hungarian industry produced a series of poor fighter types such as the Phoenix D I and Hansa Brandenburg D I during the early stages of the war, and it was not until licence-built examples of the battle-proven Albatros D II and D III began to reach Fliegerkompagnien or Fliks in May 1917 that the fortunes of pilots began to look up. Unlike the German-built Albatrosen, the Oeffag aircraft were far more robust than German D IIs and D IIIs. They also displayed superior speed, climb, manoeuvrability and infinitely safer flight characteristics. The careful cross-checking of Allied sources with Austrian and German records forms the basis for a detailed reconstruction of the dogfights fought by the leading aces. It will also chart the careers of the Austro-Hungarian aces that flew the D II and D III, their successes and their defeats, with additional information about their personal background and their post-war lives in the nations born from the collapse of the Hapsburg Empire.

Raymond Collishaw and the Black Flight Roger Gunn, 2013-01-26 As the third highest scoring flying ace among British and colonial pilots in the First World War, scoring 60 victories, Raymond Collishaw was only surpassed by Billy Bishop and Edward Mannock. This book traces his life from humble beginnings in Nanaimo, British Columbia, to victories in the skies over France.

Aces of Jagdstaffel 17 Greg VanWyngarden, 2013-11-20 Initially formed to assist in the defence of the city of Metz against French bombing raids, Royal Prussian Jagdstaffel 17 would go on to become one of the most distinguished German fighter units of World War 1. Its first victory was scored by the pilot whose story is inextricably interwoven with that of his unit, the Blue Max recipient Julius Buckler. He was largely responsible for inspiring the unit's unique Esprit de Corps expressed in its famous and unique battle cry of 'Malaula'. Indeed, in its final days, the unit gained the nickname 'Zirkus Buckler' or the 'Buckler Circus'. Besides Buckler, Jasta 17 boasted such aces as Karl Strasser, Alfred Fleischer and Christian Donhauser. In addition, the roster included colourful characters like the successful Jewish airman Jakob Wolff, who at over 48 years of age was the oldest German fighter.

pilot of the war The story of this illustrious unit is told with many first hand accounts by Buckler Fleischer and others as well as dozens of rare archival photos of the unit s beautifully decorated fighter aircraft

Reconnaissance and Bomber Aces of World War 1 Jon Guttman,2015-01-20 Many fighter aces began their careers in two seaters but a surprising number of British French and German aircrews managed to achieve acedom in those not so helpless workhorses too This is their story Often overshadowed by the fighters that either protected or threatened them two seater reconnaissance aircraft performed the oldest and most strategically vital aerial task of World War 1 a task that required them to return with the intelligence they gathered at all costs Bomber sorties were equally important and dangerous and the very nature of both types of mission required going in harm s way A remarkable number of British French and German two seater teams managed to attain or exceed the five victories needed to achieve the acedom popularly associated with their single seat nemeses and in this book with rich illustrations and first hand accounts of the veterans themselves they receive their long overdue recognition Many high scoring single seat fighter aces also began their careers in two seaters particularly in the early stages of the conflict and their exploits as either pilots or observers are detailed here too

MiG-3 Aces of World War 2 Dmitriy Khazanov,Aleksander Medved,2013-05-20 The MiG 1 3 family of fighters was built to satisfy a Soviet Air Force requirement for an advanced fast high altitude fighter Entering service in the spring of 1941 the problematic MiG 1 had its handling issues rectified with the hasty production of the MiG 3 Many of these were destroyed on the ground when the Germans launched Operation Barbarossa Nevertheless enough examples survived to allow pilots such as Stepan Suprun and Aleksandr Pokryshkin to claim a number of victories in the type This book tells the complete story of the men who made ace in the first examples of the famous MiG fighter

Over the Front ,2008

FE 2b/d vs Albatros Scouts James F. Miller,2014-01-20 In the spring of 1916 the deployment of the RFC s FE 2 with its rotary engine pusher configuration affording excellent visibility for its pilot and observer and removing the need for synchronized machine guns helped wrest aerial dominance from Imperial Germany s Fokker Eindecker monoplanes and then contributed to retaining it throughout the Somme battles of that fateful summer However by autumn German reorganization saw the birth of the Jagdstaffeln specialised fighter squadrons and the arrival of the new Albatros D scout a sleek inline engined machine built for speed and twin gun firepower Thus for the remainder of 1916 and well into the next year an epic struggle for aerial superiority raged above the horrors of the Somme and Passchendaele battlefields pitting the FE 2 against the better armed and faster Albatros scouts that were focused on attacking and destroying their two seater opponents In the end the Germans would regain air superiority and hold it into the following summer with the employment of their new Jagdgeschwader larger fighter groupings but the FE 2 remained a tenacious foe that inflicted many casualties some of whom were Germany s best aces including The Red Baron

Sopwith Pup Aces of World War 1 Norman Franks,2012-11-20 An illustrated history of the Pup the forerunner of the hugely successful Sopwith Camel and the aces that flew it The first proper British fighting scout the first Pups the Royal Naval Air Service

arrived on the Western Front in 1916 Although regarded as a nice aeroplane to fly pilots who used it in combat gained much success during the first half of 1917 The Royal Flying Corps also used the Pup from January 1917 onwards with the final combats with the machine occurring in December of that year This book describes the combat careers of the successful Pup aces how they flew and how they fought **V1 Flying Bomb Aces** Andrew Thomas,2013-09-20 Shortly after the Allied landings in France the Germans unleashed the first of their so called revenge weapons the V1 flying bomb Launched from specially constructed sites in northern France the fast small pulse jet powered pilotless aircraft were aimed at London with the sole intent of destroying civilian morale to the point where the British government would be forced to sue for peace This dangerous new threat drew an immediate response and the Air Defence of Great Britain as Fighter Command had been temporarily renamed established layers of defence that included a gun line and balloon barrage The main element however were standing patrols by the fastest piston engined fighters available to the RAF the new Tempest V and Griffon powered Spitfire XIV Other types were allocated too most notably the Polish Mustang wing while night defence was left in the capable hands of several dedicated Mosquito squadrons Although pilotless the V1 was no easy foe thanks to its speed powerful warhead and sheer unpredictability Nevertheless 154 pilots became V1 aces 25 of whom were also aces against manned aircraft **Oswald Boelcke** R.G. Head,2016-08-05 This biography of the pioneering WWI flying ace who mentored the Red Baron is fascinating it captures combat aviation at its inception MiG Sweep The Magazine of Aviation Warriors With a total of forty victories Oswald Boelcke was Germany's first ace in World War I and a century later he remains a towering figure in the history of air warfare renowned for his character inspirational leadership organizational genius development of air to air tactics and impact on aerial doctrine Paving the way for modern air forces across the world with his pioneering strategies Boelcke had a dramatic effect on his contemporaries The famed Red Baron's mentor instructor squadron commander and friend he exerted a tremendous influence upon the German air force He was one of the first pilots to be awarded the famous Pour le Mérite commonly recognized as the Blue Max All of this was achieved after overcoming medical obstacles in childhood and later life with willpower and determination Boelcke even gained the admiration of his enemies After his tragic death in a midair collision Britain's Royal Flying Corps dropped a wreath on his funeral and several of his captured foes sent another wreath from their German prison camp His name and legacy live on as seen in the Luftwaffe's designation of the Tactical Air Force Wing 31 Boelcke This definitive biography reveals his importance as a fighter pilot who set the standard in military aviation **British and Empire Aces of World War 1** Christopher Shores,2012-11-20 An illustrated history of how the British fighter developed both single and two seaters At the outset of World War I the British had some 110 assorted aircraft used mostly for the visual reconnaissance role With the advent of faster and more agile single seaters the Allies and their adversaries raced to outdo each other in the creation of genuinely effective fighters with fixed forward firing machine gun armament It was not until 1917 that the British developed a truly effective interrupter gear which paved the way for

excellent single seaters such as the Sopwith Triplane Camel and the RAF S E 5 later joined by the Bristol F 2B the war's best two seat fighter This volume traces the rapid development of the fighter in World War I and the amazing exploits of the British and Empire aces who flew them **Balloon-Busting Aces of World War 1** Jon Guttman,2013-05-20 Tethered balloons reached their zenith as a means of providing a stationary observation platform above the battlefield during World War I It took a special breed of daredevil to take on such odds deep in enemy lines in order to destroy a balloon with Balloon specialists such as Willy Coppens Pierre Bourjade and Michel Coiffard rising to the challenge This book covers the story of these balloon busters from both sides in World War 1 through a mix of first hand accounts and expert analysis which compares tactics theatres of operation aircraft types and the overall odds for success **Albatros Aces of World War 1** Norman Franks,2000 Oversigt over tyske piloter Esser der opn ede bem rkelsesv rdige resultater med Albatros flytyper under 1 verdenskrig **Russian Aces of World War 1** Victor Kulikov,2013-04-20 Although the Russian Imperial Army Air Service consisted of no more than four BAGs Boevaya Aviatsionniy Gruppa battle aviation groups each controlling three or four smaller AOIs Aviatsionniy Otryad Istrebitelei fighter aviation detachments equipped with a variety of aircraft types its fighter pilots nevertheless gave a good account of themselves Indeed during three years of war they claimed more than 200 Austro Hungarian and German aircraft shot down creating 13 aces these elite aviators accounted for around half of the victories claimed on the Eastern Front Pilots flew a variety of fighter types with French Nieuport scouts and SPAD VIIIs proving to be the most popular and effective aeroplanes to see service on this front The exploits of these aces are detailed here with information based on material newly sourced by the author from Russian military and private archives Many previously unpublished photographs are used to illustrate this book supported by full colour profiles that reveal how striking some of the aces fighters were in this often forgotten theatre of World War 1 **Aviation News** ,2007-07 **Lost Eagles** Blaine Pardoe,2010-11-02 DIVThe first biography of the man who created the way we look for airmen downed in combat behind enemy lines div **Albatros Aces of World War 1** Norman Franks,2000-03-25 The Albatros family of fighters were amongst the most effective aircraft employed by the Idflieg Imperial German Air Service for much of World War 1 with the D III and D Va being flown by most of the 363 pilots who qualified as aces at some point in their often brief careers The Albatros was the scourge of the RFC on the Western Front in 1916 17 with pilots of the calibre of von Richthofen Boelke and Schleich cutting swathes through their opponents Well over 4000 Albatros scouts were built between 1916 and 1918 and they were also extensively used by the Austro Hungarians against Russian Italian and British aircraft until war's end **Air Pictorial** ,2002 **Fokker D.XXI Aces of World War 2** Kari Stenman,Peter de Jong,2013-04-20 The Dutch D XXIs saw less than a week of action following the German invasion of the west on 10 May 1940 with many of the country's 28 fighters being destroyed on the ground However those that survived the initial onslaught inflicted losses on the Luftwaffe By then however the D XXI had found everlasting fame in Finland during the Winter War of 1939 40 Proving itself a real thorn in the side of

the Soviets the fighter operating in primitive conditions and against vastly superior numbers Finnish D XXIs racked up an incredible score against the Red Air Force The D XXI also has the distinction of producing the first ace in a single mission in World War 2 when then 1Lt Jorma Sarvanto shot down six Ilyushin DB 3 bombers on 6 January 1940 After spending a year providing home defence and flying coastal patrols during the early stages of the Continuation War in 1941 all surviving Finnish Fokker D XXIs were relegated to the reconnaissance role which they performed through to the end of hostilities in September 1944
