Pilgrimage to Jerusalem and the Holy Land, 1187-1291 Denys Pringle, 2016-04-08 This book presents new translations of a selection of Latin and French pilgrimage texts and two in Greek

relating to Jerusalem and the Holy Land between the fall of Jerusalem to Saladin in 1187 and the loss of Acre to the Mamluks in 1291. It therefore complements and extends existing studies which deal with the period from Late Antiquity to Saladin's conquest. Such texts provide a wealth of information not only about the business of pilgrimage itself but also on church history, topography, architecture and the social and economic conditions prevailing in Palestine in this period. Pilgrimage texts of the 13th century have not previously been studied as a group in this way and because the existing editions of them are scattered across a variety of rather obscure publications they tend to be underutilized by historians despite their considerable interest. For instance they are often more original than the texts of the 12th century representing first hand accounts of travellers rather than simple reworkings of older texts. Taken together they document the changes that occurred in the pattern of pilgrimage after the fall of Jerusalem in 1187 during its brief reoccupation by the Franks between 1229 and 1244 and during the period from 1260 onwards when the Mamluks gradually took military control of the whole country. In the 1250s/60s for example because of the difficulties faced by pilgrims in reaching Jerusalem itself there developed an alternative set of holy sites offering indulgences in Acre. The bringing of Transjordan, southern Palestine and Sinai under Ayyubid and later Mamluk control also encouraged the development of the pilgrimage to St Catherine's monastery on Mount Sinai in this period. The translations are accompanied by explanatory footnotes and preceded by an introduction which discusses the development of Holy Land pilgrimage in this period and the context, dating and composition of the texts themselves. The book concludes with a comprehensive list of sources and a detailed index.

The Study of the New Testament Antonio Piñero, Jesus Peláez, 2019-11-26. The most thorough grounding available in the various disciplines of NT study, this is an invaluable tool for students, scholars and other serious readers of the earliest Christian writings. With a full survey of scholarship on each topic in 600 packed pages, the volume gives a reliable in-depth presentation of the history of interpretation, the NT canon, text criticism, the language of the NT, the historical and literary context, methods and approaches.

Sacred Sites Webster T. Patterson, 2004. Explores the history and archaeology of authentic and significant Biblical locations in the context of sound scriptural and theological scholarship. Intended as much for the armchair traveler as for visitors to the Holy Land, its unique gift is to bring the scriptural passages to life. Rather than simply referring the reader to Biblical chapter and verse, the author provides the full scriptural text with a matching visual. For those who have already visited, this book can help them relive the experience of a lifetime. For others, it can serve as a vicarious pilgrimage.
