Play and Learning in Early Childhood Settings Ingrid Pramling Samuelsson, Marilyn Fler, 2008-11-14 This book represents the outcome of the joint activities of a group of scholars who were concerned about the lack of international research in play for children from birth to 3 years The authors are members of the Organisation Mondiale pour l'Education Prescolaire OMEP For further information see <http://www.om-ong.net> The idea of carrying out a research project internationally was born at the OMEP's World Congress in Melbourne Australia 2004 All member countries were invited and 10 countries decided to participate of which three have withdrawn during the process The reason for this might be that in these countries only one person was working with the project while other seven countries have been working in a team of two or more persons The countries that have carried out research and contributed to this book with a chapter each are Australia Chile China Japan New Zealand Sweden and USA Wisconsin For more information about the participating countries and their corresponding addresses see Appendix I This book project started in Melbourne with a discussion about what is general in early childhood education globally and what is culturally specific The discussion was inspired by one of the keynote speakers Nazhat Shameem 2004 judge in the supreme court in Fiji when she said If we all think we are so different and specific in each culture the role of human rights has no value anymore We formulated three questions *Teaching and Learning with Infants and Toddlers* Mary Jane Maguire-Fong, 2020 In the short span of three years infants learn to move with

Seasons of Her Life Ann Blackman, 1999-07-14 When Madeleine Korbel Albright was sworn in as secretary of state in January 1997 she made headlines around the world She was the first woman to rise to the top tier of American government and had a reputation for defining foreign policy in blunt one liners that voters could understand When her Jewish heritage was disclosed people were intrigued by her personal story and wondered how it was possible if it were possible that she truly could have been ignorant of her past Veteran Time magazine correspondent Ann Blackman has written the first comprehensive biography of Madeleine Albright The book reveals a life of enormous texture a lonely peripatetic childhood in war ravaged Europe two harrowing escapes from her homeland once from the Nazis then from the Communists her arrival in America Madeleine s unhappiness as a teenager in Denver always the outsider the little refugee her marriage into an old American newspaper family with great wealth When after twenty three years the marriage failed Albright was devastated But in many ways divorce liberated her to pursue a lifelong interest in government and international affairs From Senator Edmund S Muskie s office to President Carter s White House to a professorship at Georgetown University s School of Foreign Service Albright gained experience and contacts As a foreign affairs advisor to Democratic vice presidential candidate Geraldine Ferraro and later presidential candidate Michael Dukakis Albright positioned herself to return to government as President Clinton s ambassador to the United Nations and eventually to claim her ultimate prize the office of secretary of state With both insight and compassion Blackman shows how the changing cultural mores of the last four decades affected Albright and other women of her generation the self doubt she experienced when as a young mother in an era when real mothers didn t work she decided to take a job on Capitol Hill the problems she faced as a female professor who was not always taken seriously in the white man s world of foreign policy the psychological transformation from spending most of her professional life as a staffer who wrote

talking points for others to becoming a woman of consequence in her own right the ups and downs of an ambitious driven woman who still carries her share of insecurities now concealed by a veneer of power and celebrity In writing this landmark book Blackman drew on archival material in the United States Britain and the Czech Republic as well as interviews with almost two hundred friends and colleagues of Albright and her family including President Clinton Czech Republic President Vclav Havel and U N Secretary General Kofi Annan She also spent many hours with Albright herself who feet up in her Georgetown living room offered startlingly frank and poignant comments on her life past and present The book is enhanced with twenty five photos many from the Secretary s personal collection *Pragmatist Realism* Sämi Ludwig,2002 Ludwig English U of Berne Switzerland argues that the artistic quality of American realist texts such as those written by Mark Twain William Dean Howells and Henry James is best appreciated by approaching them from a cognitive perspective rather than from a linguistic or formalistic one Annotation copyrighted by Book News Inc Portland OR **Psychology of the Spirit** John G. Shobris,Holly A. Shobris,2015-09-10 While not all aspects of Carl Gustav Jung s work have aged well many of his ideas remain consistent with current concepts in behavioral psychology and neuroscience Psychology of the Spirit reviews the lasting effects of Jung s work and how it integrates with modern neuroscience cognitive and behavioral studies and Christian theology It combines the mystical insights developed by Eastern Orthodox Christian theology with Jung s vision of the psyche and the concept of the collective unconscious and its archetypes Though written as a contribution to the field of psychology and as a tool for clinical practice it is also accessible to lay readers interested in the relationship between the mind and the brain
