Matthew Watson,1795 **Why the Tax Year Begins on Sixth April** Alan O'Brien,2024-05-28 Second Edition 2024 This book explains why the UK tax year begins on 6 April and traces the history of the old tax year which ran from 25 March It also covers other aspects of calendar history and related issues including the continuing application of the 1750 British calendar reform statute to the USA and elsewhere The move from the Julian to the Gregorian calendar in 1752 resulted in the

omission of 11 days from September 1752 The omitted days were later added to the tax year and that apparently meant a new tax year beginning on 5 April not 6 April There are various explanations for the addition of a further day so the year began on 6 April including the suggestion that a day was added in 1800 In fact the old tax year ran from 25 March and an ancient legal rule said from meant the year began on the following day 26 March Hence adding 11 days to 26 March produced a new tax year beginning on 6 April It is often said that the Treasury extended the tax year by 11 days to avoid losing money This is untrue The Second Edition revises and expands particularly the key explanation on the way the tax year changed
