A farce in one act Henry Thornton CRAVEN, 1860 *The Heart Of Midlothian* Sir Walter Scott, The Porteous Riot which occurred in Edinburgh during the reign of George II is the historical rallying point of this story of Scotch middle life The narrative however harks back several months and also extends forward some years the present argument therefore will be

more intelligible if it gives the facts in their proper order rather than as set forth in the opening chapters of the novel David Deans an honest but stern old Scotch Covenanter and farmer marries twice in the course of his life and by each wife has a daughter Jeanie being some ten years older than her half sister Effie Jeanie has two suitors a childhood s playmate Reuben Butler now a university graduate and candidate for the ministry and the dull Laird of Dumbiedikes who is content to come month in and month out and merely look his admiration Effie grows up into beautiful girlhood being called the Lily of St Leonard s but is willful and spoiled Her sister Jeanie has little control over the motherless girl who secretly frequents dances and other gatherings abhorred by her father *Duck Hunting. An original farce, in one act* Joseph Stirling COYNE,1863

Personal Narrative of a Pilgrimage to Al-Madinah & Meccah (Vol.1-3) Richard Francis Burton,2021-08-13 I have entitled this account of my summer s tour through Al Hijaz a Personal Narrative and I have laboured to make its nature correspond with its name simply because it is the personal that interests mankind Many may not follow my example _x000D_ Personal Narrative of a Pilgrimage to Al Madinah Meccahis the first detailed and informative account of hajj pilgrimage from the eyes of a western explorer and ethnographer Spread over 3 volumes it is a well documented journey to Mecca in disguise and provides a thorough insight into the lives and customs of the Arab world _x000D_ CONTENTS _x000D_ Personal Narrative of a Pilgrimage to Al Madinah Meccah In 3 Vols _x000D_ Biography and Further Readings _x000D_ Life of Sir Richard Burton by Thomas Wright _x000D_ Romance of Isabel Lady Burton The Story of Her Life Vol 1 2 _x000D_ Arabian Society in the Middle Ages _x000D_ Behind the Veil in Persia and Turkish Arabia The Microscopic World Inside and Around Us Martin K. Ettington, We live surrounded by an invisible world which affects our lives in many ways In this book we will take a journey from barely visible life to cells their structures molecules atoms fundamental particles and even smaller We will explore not just the facts about this small world but also try to unearth interesting facts to ponder too For example what did paranormal investigators believe about the structure of atoms over one hundred years ago And what particles or forces might be smaller than the standard building block particles we know about today Also what are the limitations of the standard model of subatomic particles There are many things in the microscopic world which you might not expect The journey from the small to the infinitely small starts here **A 300 Million Year Old Civilization Existed on Earth** Martin K. Ettington, The thesis of this book is that there was a civilization of intelligent beings existing on Earth over 300 million years ago I previously collected information to write two books on out of place artifacts OOPAs and a book on Giants which evidence shows lived on this Earth millions of years ago While writing my book titled The History of Intelligent Life On Earth from Millions of Years Ago Till Present and generating a timeline on ancient OOPAs found around the Earth I found an interesting pattern It turns out that a large number of these objects were from around 300 million years ago mostly in coal mines and seams All of these objects from the same time period provide good circumstantial evidence that a worldwide civilization existed at that time Given the millions of years which have elapsed since then we are lucky to find even the few

OOPAs we have records of which were preserved in coal and rock In this book I put together the evidence and do my best to answer questions like What did the world look like then What were the attributes and culture of this society What types of beings were part of this civilization And other relevant questions It may be hard to believe that intelligent life existed back then but we need to be objective to follow where the evidence takes us

The Suppression of Truth in the United States and the World Martin K. Ettington, In today s world we live in a culture of truth suppression This is true in representative democracies like the United States as well as full totalitarian dictatorships like Communist China This book covers many areas of major lies like Global Warming perverted doctrines taught in schools Politics News Suppression Communist China limitations in Spirituality deficit spending and problems with globalism There are many different types of truth suppression and as much as we would like to think that we live in an advanced culture and world this effort by different entities to suppress truth affects our lives negatively in many ways The most direct effect is that we live in fear of the future of our world which is a big lie This suppression also keeps us from fully realizing our spiritual natures and that we do have the ability to accomplish amazing things when we live with full honesty in our lives I believe that individuals are closest to a state of happiness when they live their lives in truth See my book A New Paradigm of Truth and Happiness for more information There are actions we can take to correct this situation but they are mass actions which need many persons involved to have a real effect A list of these actions are given later in this book

Types of UFOs Observed in History Martin K. Ettington, My goal in this book is to show the different types of UFOs reported throughout history and

today I m not trying to prove whether these ships are real or not I just thought that given the many thousands of sightings of UFOs there should be some commonalities between the sightings Some of the questions I want to answer include Are there any trends in these sightings Is there an evolution in the design of these vehicles over time Are there some common designs over time Also some of the UFOs sighted are likely fakes or secret projects built by the US government I tried to show that information too Just due to the number of stars in our galaxy I m convinced that Aliens exist and have probably visited our planet thousands or even millions of year in the past in addition to visiting in the present This collection of historical photos drawings and descriptions should provide you with a narrative as to how these sightings have changed over time

Creating Your Own Reality Martin K. Ettington, There are a lot of books written on the topic of visualization Mine is a little different As an engineer and experimenter of many paranormal events I ve got a different perspective enabled by my research and experience There are many subjects I ve studied that indicate that the mind really can affect our reality In this book I will review why my research and experience says that visualization really works and some lessons on how to do it The Reality we live in is much more malleable than we think and so why not set our goals and purposes to get that reality to work the way we want it Techniques included in this book include various visualization techniques and building your own vision board

The Ancient Underground Wall in Rockwall, Texas Martin K. Ettington, The underground rock wall in Rockwall Texas has fascinated me for years I ve read everything I could online about it Recently I moved from Los Angeles to Denton Texas which is only about an hour drive from Rockwall So I went there and spent an hour with the Rockwall County Museum Curator and learned a lot more about the structure Was also able to examine and take pictures of the wall section moved from the actual wall and reconstructed outside the museum In this book I ve related the history of the wall s discovery excavations interesting items and structures found on or near the wall and information about possible giants who might have built it There are a lot of unanswered questions about this structure which still need to be learned Those questions are listed near the end of this book

Eventually, you will categorically discover a other experience and achievement by spending more cash. yet when? reach you endure that you require to acquire those all needs later having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will guide you to comprehend even more not far off from the globe, experience, some places, following history, amusement, and a lot more?
