In this OKCIR Research Report hermeneutic sociologist Khayyami scholar and founding director of Omar Khayyam Center for Integrative Research OKCIR Mohammad H Behrooz Tamdgidi Ph D reports having solved the mystery of the code associated with the so called Somerton Man or Tam m Shud case The mysterious code appearing on the back page of a first edition copy of Edward FitzGerald's The Rubaiyat of Omar Khayyam found months following the death of The Somerton Man TSM in South Adelaide Australia on Dec 1 1948 was a suicide contemplation and planning note he was poetically drafting for himself in the form of a quatrain on the back of his copy of The Rubaiyat giving a gist of why and how he planned to carry out a deliberately mystery laden suicide as his last dance for a lasting life The code was the creative DNA of his suicide plot It was written in the Tam m Shud transliteration style in this case not from Persian but from Arabic with which he must have been familiar either natively due to coming ancestrally from the ethnically diverse and widely multilingual Russian Caucasus and or by training and education In other words the Tam m Shud torn out piece found in TSM's fob pocket not only served as a bread crumb lead to his suicide note it also offered the key to the code's deciphering DNA is a self replicating matter that reproduces the basic structure of a substance TSM's code offers the DNA of his last dance performance in public hoping of a lasting life one that was sketched amid his medical suffering He was reflecting on his life terminal illness and expected imminent death while reading the meanings conveyed about life and death in FitzGerald's translation of Omar Khayyam's Rubaiyat a work of art that offered TSM a practical and proven example of how one can physically die but endure in human memory and spirit forever This report mainly focuses on deciphering TSM's code but the findings are then used to shed brief new light on one and or another alternative wider story of what took place in Adelaide in 1948 in the years leading to it and in the decades thereafter The report invites readers to rethink the relevance of Omar Khayyam's poetry to the case and also asks a pertinent question about another fold of the mystery that is why did it take so long to decipher a code that could have actually been decoded much earlier The Somerton Man or Tam m Shud case has important lessons for us beyond the confines of the personal troubles of a man and those he knew inviting us to use our sociological imaginations to explore such troubles in relation to the public issues that concern us all beyond the shores of Australia and beyond the national and disciplinary walls fragmenting our lives universities and scientific methods in favor of transcultural and transdisciplinary modes of inquiry The report ends with a dancing celebration for deciphering the code as a new window to learning the true story and possible identity of the Somerton Man
