Year Zero By Jeff Long:

Year Zero Jeff Long, 2003 Archaeologist Nathan Lee Swift is coaxed by his mentor to steal an ancient vial of blood from Golgotha in Jerusalem. When the relic is opened, a 2 000 year old plague is unleashed. As the pestilence threatens to wipe out humanity, Nathan Lee must race with a desperate strategy to find a cure: the use of human lab rats cloned from blood from the year zero.

Year Zero Jeff Long, 2003-03-13 In his sensational novel *The Descent*, Jeff Long created a world of stunning terror and adventure, an imaginative tour de force. Jon Krakauer says, "Now he imagines a scenario so vivid, so haunting, it anchors his place among storytelling masters." *YEAR ZERO*: An archaeological manhunt is raging in the holy land, a hunt for the historical Jesus. For Nathan Lee Swift, a young American field researcher and expectant father, the line between noble discovery and the plunder of ruins is sacred until the night he crosses it. At a Roman landfill beneath the crucifixion grounds known as Golgotha, Nathan Lee yields to his professor's greed and turns common grave robber. His world, his unborn daughter seems lost to him. Hundreds of miles away on the remote Greek island of Corfu, a wealthy collector pries open his latest black market purchase, a fourteen inch holy relic containing a vial of blood dating back to the first century and unleashes a two thousand year old plague. As the pandemic explodes from the Mediterranean basin and threatens to devour humankind, Nathan Lee gets a chance at redemption. He embarks on an Odyssean journey back to the United States to find his family. Skirting the edges of the world, Nathan Lee's path finally leads him to New Mexico where the greatest minds of science have converged at Los Alamos to find a vaccine. There, Nathan Lee meets Miranda Abbot, a nineteen year old prodigy. As the cure continues to elude them, Miranda launches a desperate final strategy: the use of human lab rats cloned from the year zero. Nathan Lee, the thief of bones, comes face to face with men made from the very relics he looted, one of whom claims to be Jesus Christ but may also be Patient Zero. Combining the scientific precision of *The Andromeda Strain* with the intensity of classic adventure epics, Jeff Long takes readers on a riveting voyage through the rubble of earthquake torn Jerusalem, the serenity of the high Himalayas, and the eerie sanctuary of Los Alamos. With Long's characteristic originality, *Year Zero* races against the apocalyptic clock, creating a maze of twists, astonishing atmosphere, and the clash of science and faith.

Deeper Jeff Long, 2007-08-21 New York Times bestselling author of *The Reckoning* takes readers on an intense and imaginative tour de force in this follow up horror novel to *The Descent* that plunges in the depths of Earth to a Hell that is real, geological, and savagely inhabited, right below our very feet. A decade has passed since doomed explorers unveiled a nightmare of tunnels and rivers honeycombing the earth's depths. After millennia of suffering, terror, and predation, humanity's armies descended to destroy the ancient hordes. Deep beneath the Pacific Ocean, a doomed science expedition killed the subterranean fabled leader, and suddenly it seemed that evil was dead and all was right with the world. *Deeper* explodes that complacency and plunges readers back into the sunless abyss. Hell boils up through America's subways and basements to take its revenge and steal our children. Against the backdrop of a looming war with China, a crusade of volunteers hustles to find the vestiges of a

lost race But a lone explorer the linguist Ali von Schade learns that a far greater menace lies in the unexplored heart of the planet The real Satan can t be killed and he has been waiting since the beginning of time to gain his freedom Man and his pitiless enemies are mere pawns in the greatest escape ever devised **The Wall** Jeff Long,2006-10-31 A hardcore freefall into adrenaline and revenge set on the towering big walls of El Capitan the world s greatest monolith Cloning Stephen D.
