A World Of Regions Asia And Europe In The American Imperium:

A World of Regions Peter J. Katzenstein, 2005-08-04 In contrast to those who believe in the inevitable march of globalisation Peter Katzenstein argues that since the end of the Cold War regions not nation states have become critical to contemporary world politics **Chinese Foreign Policy** Marc Lanteigne, 2013 The question of shifting American power

Contesting International Society in East Asia Barry Buzan, Yongjin Zhang, 2014-10-16 This book asks whether a regional international society exists in East Asia and why its existence matters to both regional and global orders The Belt & Road Initiative in the Global Arena Yu Cheng, Lilei Song, Lihe Huang, 2017-11-21 This book is among the first to systematically analyze and discuss the Chinese government's One Belt One Road initiative to promote infrastructure investment and economic development bringing together a diverse range of scholars from China Russia and Eastern Europe The book assembles a package of next generation ideas for the patterns of regional trade investment infrastructure development or next steps for the promotion of enhanced policy coordination across the Eurasian continent and strategic implications for EU Russia and other major powers introducing innovative ideas about what these countries across belt and road can do together in the eyes of the young generation This book will be of interest to scholars economists and interested observers of the international impact of Chinese development Sovereignty in the South Brooke N. Coe, 2019-10-24 An innovative analysis of international rules and rule making in the Global South focusing on the increasing interventionism of regional institutions **Linking Trade and Security** Vinod K. Aggarwal, Kristi Govella, 2012-10-11 The connections between trade and security are hardly new Analysts and practitioners have clearly recognized this interrelationship since the mercantilist arguments of the 16th and 17th centuries Despite wishful economic liberal thinking that might prefer to separate the political from the economic it is widely recognized that trade and security are fundamentally interconnected in the foreign policy of states Over time as new forms of trade policy have come into being and the international security environment has evolved the nexus of these two spheres has grown more complex and scholars have struggled to understand their interconnection This edited volume addresses linkages between trade and security by examining the influence of security factors in driving trade policy measures and the corresponding implications of different types of trade arrangements for international security Ultimately the project shows that several elements traditional economic factors traditional security factors and human security factors can affect the development of trade agreements and unilateral policies and that trade policies may have both a direct and an indirect effect on traditional and human security The project focuses on Asia a region where economics is increasingly important but many security issues still linger unresolved as a primary setting to test trade linkage theories It also provides a comparative perspective through examination of how the EU and US have used their trade policies to achieve non economic goals and how these policies have influenced their security environment Case studies in this project cover key trade institutions and agreements including the World Trade Organization the Association of Southeast

Asian Nations ASEAN Plus Three the East Asia Summit the Asia Pacific Economic Cooperation forum the Shanghai Cooperation Organization and bilateral preferential trade agreements Order and Disorder in the International System Sai Felicia Krishna-Hensel, 2016-05-13 This volume examines the complex international system of the twenty first century from a variety of perspectives Proceeding from critical theoretical perspectives and incorporating case studies the chapters focus on broad trends as well as micro realities of a Post Westphalian international system The process of transformation and change of the international system has been an ongoing cumulative process Many forces including conflict technological innovation and communication have contributed to the creation of a transnational world with political economic and social implications for all societies Transnationalism functions both as an integrative factor and one which exposes the existing and the newly emerging divisions between societies and cultures and between nations and states The chapters in this volume demonstrate that re thinking fundamental assumptions as well as theoretical and methodological premises is central to understanding the dynamics of interdependence *The Ashgate Research Companion to Regionalisms* J. Andrew Grant, 2016-03-23 EU studies increasingly recognize the salience of new regional insights Hence this collection of original essays provides a broad overview of regionalism together with detailed analyses on the construction activities and implications of both established and emerging examples of formal political and economic organizations as well as informal regional entities and networks Aimed at scholars and students interested in the continuing growth of regionalism The Ashgate Research Companion to Regionalisms is a key resource to understanding the major debates in the field Organized into three main sections this volume deals with a wide range of issues covering the following important research areas Section one covers theoretical and methodological approaches to the study of established and formal regionalism emerging and informal regionalism inter regionalism and levels of regionalism Section two provides detailed case studies of established and formal regionalisms EU NAFTA ASEAN SAARC OAS MERCOSUR AU ECOWAS and SADC Section three offers case studies that investigate emerging and informal regionalisms in Oceania the Arab League BRICSAM and the Commonwealth s as well as thought provoking chapters on micro regional processes evident in spatial development initiatives transnational gangs transfrontier conservation areas and the migration conflict nexus in natural resource sectors With the study of regionalism becoming an increasingly important part of politics international relations development and global studies courses this comprehensive volume is a valuable addition for classroom use *Regional Economic Integration in East Asia* Magdalena Suska, 2024-11-08 This interdisciplinary book analyses the regional economic integration and its institutionalisation that has been pursued in East Asia since the late 1990s and its far reaching impact for the entire region and beyond It presents the specificity and evolution of East Asia s economic integration as well as its outcomes in the form of an impressive number of FTAs concluded by East Asian countries The book also addresses the region s institutionalised regionalism of the 21st century embodied by the recent establishment of two mega regional institutions for trade and investment facilitation Comprehensive and

Progressive Agreement for Trans Pacific Partnership CPTPP and Regional Comprehensive Economic Partnership RCEP analysing their economic potential and impact on East Asian economies as well as on regions including Europe Additionally the book offers a comprehensive analysis of integration theories providing political and economic theories of integration and related conceptual discussions which may help understand the uniqueness of the East Asian model of integration The book will be useful for students and researchers in economics international relations and political science as well as government administrations and private businesses developing long term strategic plans towards the region of East Asia

Human Rights Futures Stephen Hopgood, Jack Snyder, Leslie Vinjamuri, 2017-08-31 With authoritarian states and global culture wars threatening human rights this volume weighs hopes for effective human rights advocacy

The New Politics of Regionalism Ulf Engel, Heidrun Zinecker, Frank Mattheis, Antje Dietze, Thomas Plötze, 2016-10-04 This edited volume approaches regionalism as one potential pattern in a changing global order Since the end of the Cold War different forms of territorialization have emerged and we are confronted with an increasing number and variety of actors that are establishing regional projects This volume offers an innovative contribution to the study of this new complexity by exploring constellations of regional actors spatial scales and imaginations beyond state centred perspectives as well as on multiple often overlapping levels The chapters analyse the emergence trajectories and outcomes of regionalisms from the perspective of the Global South specifically concentrating on regional projects in Latin America and Africa but also in the Asia Pacific They attempt to identify the specific conditions and junctures of different forms of region making in their external global and internal local national dimensions The volume also places special emphasis on interactions spatial entanglements and comparisons between regionalisms in different parts of the world By expanding beyond the perspective of North South transfers this book seeks to better understand the dynamics and diversity of interregional interactions This volume will appeal to scholars of global studies international political economy international relations human geography and development studies as well as area studies specialists who focus on Latin America and Africa

The Social Sources of Financial Power Leonard Seabrooke, 2018-07-05 A state's financial power is built on the effect its credit property and tax policies have on ordinary people this is the key message of Leonard Seabrooke's comparative historical investigation which turns the spotlight away from elite financial actors and toward institutions that matter for the majority of citizens Seabrooke suggests that everyday contests between social groups and the state over how the economy should work determine the legitimacy of a state's financial and fiscal system Ideally he believes such contests compel a state to intervene on behalf of people below the median income level leading the state to broaden and deepen its domestic pool of capital while increasing its influence on international finance But to do so Seabrooke asserts a state must first challenge powerful interests that benefit from the concentration of financial wealth Seabrooke's novel constructivist approach is informed by economic sociology and the work of Max Weber This book demonstrates how domestic legitimacy influences the character of international financial orders It

will interest all readers concerned with how best to transform state intervention in the economy for the good of the majority

Globalising the Regional, Regionalising the Global: Volume 35, Review of International Studies Rick Fawn, 2009-04-30 A collection of leading international scholars examine the concept of regions from a range of perspectives and assess leading contemporary examples

The New Cold War and the Remaking of Regions T.V. Paul, Markus Kornprobst, 2025-07-01 A compelling examination of how secondary states are preserving their strategic autonomy and are resisting spheres of influence Russia's invasion of Ukraine and the deteriorating United States China relationship signify the onset of the New Cold War Unlike the original Cold War this competition is multipolar and multiplex with secondary powers small states and even nonstate actors pragmatically selecting which of their interests intersect with those of the great powers The New Cold War and the Remaking of Regions contends that multiplexity and multipolarity have important repercussions for the world's regional orders Contributors to the book address the New Cold War and regional ordering processes from realist liberal and constructivist perspectives They demonstrate how variable regional dynamics will lead either to peaceful change or conflict This volume is part of a new wave of scholarship that expands the focus of international relations beyond great powers and recognizes the increasing agency that other states have gained in the twenty first century world order

International Political Economy

Benjamin J. Cohen,2021-07-13 The field of international political economy gained prominence in the early 1970s when the Arab oil embargo and other crises ended the postwar era of virtually unhindered economic growth in the United States and Europe and today is an essential part of both political science and economics This book offers the first comprehensive examination of this important field s development the contrasting worldviews of its American and British schools and the different ways scholars have sought to meet the challenges posed by an ever more complex and interdependent world economy Benjamin Cohen explains the critical role played by the early intellectual entrepreneurs a generation of pioneering scholars determined to bridge the gap between international economics and international politics Among them were brilliant thinkers like Robert Keohane Susan Strange and others whose legacies endure to the present day Cohen shows how their personalities and the historical contexts in which they worked influenced how the field evolved He examines the distinctly different insights of the American and British schools and addresses issues that have been central to the field s development including systemic transformation system governance and the place of the sovereign state in formal analysis The definitive intellectual history of international political economy this book is the ideal volume for IPE scholars and those interested in learning more about the field

Regionalization in Southern Africa Andréas Godsäter, 2016-05-12 This book investigates civil society regionalization in Southern Africa The point of departure is the study of new regionalism which refers to the wave of regional integration globally since the 1980s However whilst the current regionalism studies undoubtedly contributes to a deeper understanding of regional processes important gaps remain in particular the relatively scant emphasis given to civil society This particularly relates to regions in the global South including Southern Africa The overarching aim of this book is therefore to analyse the dynamics of civil society regionalization in Southern Africa both empirically and from a theoretical perspective through analysing the cases of trade and HIV AIDS The study finds that CSOs can be more active in regional governance than has previously been conceptualized and are also highly active in terms of constructing regionalization through framing issues and to a less extent making identities regional Furthermore the book enhances knowledge of the heterogeneous nature of civil society regionalization Lastly it is demonstrated that going regional is only partly an autonomous process and also has to be understood as under the influence of the deeper statist and capitalist social structures marking the regional order in Southern Africa The Oxford Handbook of Comparative Regionalism Tanja A. Börzel, Thomas Risse, 2016-02-04 The Oxford Handbook of Comparative Regionalism the first of its kind offers a systematic and wide ranging survey of the scholarship on regionalism regionalization and regional governance Unpacking the major debates leading authors of the field synthesize the state of the art provide a guide to the comparative study of regionalism and identify future avenues of research Twenty seven chapters review the theoretical and empirical scholarship with regard to the emergence of regionalism the institutional design of regional organizations and issue specific governance as well as the effects of regionalism and its relationship with processes of regionalization The authors explore theories of cooperation integration and diffusion explaining the rise and the different forms of regionalism The handbook also discusses the state of the art on the world regions North America Latin America Europe Eurasia Asia North Africa and the Middle East and Sub Saharan Africa Various chapters survey the literature on regional governance in major issue areas such as security and peace trade and finance environment migration social and gender policies as well as democracy and human rights Finally the handbook engages in cross regional comparisons with regard to institutional design dispute settlement identities and communities legitimacy and democracy as well as inter and transregionalism
