Aberfan Government And Disasters:

Aberfan Iain McLean, Martin Johnes, 2019 *Aberfan : Government and Disaster* Professor Iain McLean, *Aberfan* Iain McLean, Martin Johnes, 2000 The events at Aberfan on the morning of October 21 1966 when 116 children and 28 adults died in a sea of slurry following the collapse of a coal tip will forever be etched in the memories of the people of the industrial valleys of south Wales Encyclopedia of Technological Hazards and Disasters in the Social Sciences Duane A. Gill, Liesel A. Ritchie, Nnenia M. Campbell, 2024-11-08 The Encyclopedia of Technological Hazards and Disasters in the Social Sciences brings together an array of global experts to investigate explore and analyse human caused disaster events Providing insights into both the origins and aftermaths of disaster events it offers advanced understanding of a broad range of disaster events facing society during the Anthropocene The Handbook of Disaster and Emergency Policies and Institutions John Handmer, Stephen Dovers, 2012 Disasters both natural and human induced are leading to spiralling costs in terms of human lives lost livelihoods and damaged assets and businesses Yet these consequences and the financial and human crises that follow catastrophes can often be traced to policies unsuited to the emerging scales of the problems they confront and the lack of institutional capacity to implement planning and prevention or to manage disasters This book seeks to overcome this mismatch and to guide development of a policy and institutional framework For the first time it brings together into a coherent framework the insights of public policy institutional design and emergency and disaster management Soccer and Disaster Paul Darby, Martin Johnes, Gavin Mellor, 2005 The authors look at soccer disasters across the globe from air crashes to overcrowding The causes consequences and legacies are explored in this book which reveals frightening parallels and important lessons *Crimes of States and Powerful Elites* Claudia Radiven, Simon Prideaux, 2021-07-06 This book explores fourteen case studies of state crime crimes immoralities of the powerful including disasters caused by neglect pharmaceutical fraud state sponsored or instigated crime corporate crime organisational crime and state terrorism The book offers a valuable contribution to critical social science perspectives on criminality providing analysis which explores issues of accountability and social harm and linking these to wider structural contexts particularly the role of neoliberal ideologies At the same time the book will provide a critical perspective on historical case studies which continue to have legacies in the present and which help to shed light on histories of domination and inequalities and to illustrate continuities and changes in crimes of the powerful over time Economic and Natural Disasters since 1900 John Singleton, 2016-03-25 A crisis is a period of uncertainty that may or may not lead to disaster depending in part on the capacity of actors to make sense of what is happening and respond effectively Disasters in different spheres occur and recur at different speeds and in idiosyncratic ways but in essence they follow the same pattern In the wake of the Global Financial Crisis and Eurozone upheavals this timely book argues that the disaster cycle a framework normally used in the context of natural disasters is equally applicable to the analysis of other types of catastrophe Employing a modified version of the disaster cycle framework to compare and

analyse a range of catastrophes in different spheres the author draws on ideas from a variety of disciplines including economics and economic history disaster studies management and political science This unique comparative approach presents case studies of several important disasters Hurricane Katrina the First World War the depression of the early 1930s Welsh coal mining accidents the deadly effects of smoking tobacco and the Global Financial Crisis and Eurozone catastrophe of the early twenty first century The author argues that economists and economic policy makers routinely misuse the term crisis to describe episodes that ought to be called disasters This accessible and fascinating exploration will appeal to students and scholars in economic history disaster studies management public policy and related disciplines The comparison of crisis and disaster management is also essential reading for policy makers

Cultures and Disasters Fred Krüger, Greg Bankoff, Terry Cannon, Benedikt Orłowski, E. Lisa F. Schipper, 2015-04-24 Why did the people of the Zambesi Delta affected by severe flooding return early to their homes or even choose to not evacuate How is the forced resettlement of small scale farmers living along the foothills of an active volcano on the Philippines impacting on their day to day livelihood routines Making sense of such questions and observations is only possible by understanding how the decision making of societies at risk is embedded in culture and how intervention measures acknowledge or neglect cultural settings The social construction of risk is being given increasing priority in understand how people experience and prioritize hazards in their own lives and how vulnerability can be reduced and resilience increased at a local level Culture and Disasters adopts an interdisciplinary approach to explore this cultural dimension of disaster with contributions from leading international experts within the field Section I provides discussion of theoretical considerations and practical research to better understand the important of culture in hazards and disasters Culture can be interpreted widely with many different perspectives this enables us to critically consider the cultural boundedness of research itself as well as the complexities of incorporating various interpretations into DRR If culture is omitted related issues of adaptation coping intervention knowledge and power relations cannot be fully grasped Section II explores what aspects of culture shape resilience How have people operationalized culture in every day life to establish DRR practice What constitutes a resilient culture and what role does culture play in a society s decision making It is natural for people to seek refuge in tried and trust methods of disaster mitigation however culture and belief systems are constantly evolving How these coping strategies can be introduced into DRR therefore poses a challenging question Finally Section III examines the effectiveness of key scientific frameworks for understanding the role of culture in disaster risk reduction and management DRR includes a range of norms and breaking these through an understanding of cultural will challenge established theoretical and empirical frameworks
