Michael Martin,1991 In this systematic philosophical critique of the major tenets of Christianity Michael Martin examines the semantic and epistemological bases of religious claims and beliefs Beginning with a comparison and evaluation of the Apostles Creed the Niceno Chalcedonian Creed and the Athanasian Creed Martin discusses the principal theological historical and eschatological assumptions of Christianity These include the historicity of Jesus the Incarnation the Second Coming the Virgin Birth the Resurrection Salvation through faith in Jesus and Jesus as a model of ethical behavior Until now an adequately convincing criticism of Christianity did not exist Martin s use of historical evidence textual analysis and interpretations by philosophers and theologians provides the strongest case made to date against the rational justification of Christian doctrines *Skepticism: The Case against Christianity?* John G. Weldon ,2023-04-11 An examination of skepticism and one of its principal complaints against God the Bible and Christianity Despite the best efforts of the most skilled skeptics for 20 centuries the case against Christianity has never been made Alleged moral dilemmas often cited by skeptics as proof the Bible could not be divinely inspired have critical information left out **Jewish Philosophical Polemics Against Christianity in the Middle Ages: With a New Introduction** Daniel J. Lasker,2007-04-26 This meticulously researched study is based on a comprehensive reading of all the major Jewish sources from the Geonic period in the ninth century until the dawn of the Haskalah in the late eighteenth century Its clearly written and carefully documented exposition of the philosophical arguments used by Jews to refute four central doctrines of Christianity trinity incarnation transubstantiation and virgin birth makes a major contribution to a relatively neglected area of medieval Jewish intellectual history **Proofs of a Conspiracy, Against Christianity, and the Government of the United States** Abraham Bishop,1802 [The Case of Offences Against Christianity Considered. anarchists need to understand that much of their criticism of Christianity applies only to the form of religion that developed not to biblical faith Christians on the other hand need to look at the biblical texts and not reject anarchy as a political option for it seems closest to biblical thinking After charting the background of his own interest in the subject Ellul defines what he means by anarchy the nonviolent repudiation of authority He goes on to look at the Bible as the source of anarchy in the sense of nondomination not disorder working through Old Testament history Jesus ministry and finally the early church's view of power as reflected in the New Testament writings

CANTAB., 1873 *Violence, Scripture, and Textual Practice in Early Judaism and Christianity* Ra'anan S. Boustán, Alex P. Jassen, Calvin J. Roetzel, 2009-10-26 This volume analyzes the various and overlapping discourses of religious violence that emerged within Jewish and Christian culture in the Roman world. Toward this end, the nine papers collected here address both the presence of violence within the authoritative scriptural traditions of early Judaism and Christianity and the redeployment of these older traditions to represent legitimate and indeed sacralize violence. Individual papers focus on the specific social and historical contexts from which these texts emerged, while the volume as a whole highlights the patterns of textual practice shared across social and religious boundaries. Throughout, the dynamic interplay between text, tradition, and violence in early Jewish and Christian culture is located within the broad landscape of Roman imperial society.
